

# **GOLF COURSE LAWN®**

### **LIQUID BLEND 20-2-3**

- Addresses micronutrient deficiencies in calcium, iron, magnesium, manganese, and zinc
- Contains kelp extract and fulvic acid for improved soil microbial activity
- Ideal for spoon feeding applications

- See improvement in overall plant quality in as little as 2-3 days after application\*
- Safe for use on all turf types and can be used any time during the growing season

\*Pending proper application

## **GOLF COURSE LAWN®**

### LIQUID BLEND 20-2-3

Golf Course Lawn Liquid Blend 20-2-3 is a liquid fertilizer with quick-release nitrogen for a quick green up. This formula also contains micronutrients iron, magnesium, manganese, zinc and calcium for more complete nutrition. This product can be applied any time turf is actively growing. It is also ideal for spoon feeding applications.

#### APPLICATION INSTRUCTIONS

Golf Course Lawn Liquid Blend contains 2.12 lbs of nitrogen per gallon. Refer to the table below for application rates. This product can be applied alone, or tank mixed with other products. Perform a standard "iar test" to check compatibility before mixing.

Desired Nitrogen	Fl. oz per 1,000 sq. ft.*	Gallons per acre**
0.10	6.0	2.1
0.125	7.5	2.6
0.25	15.1	5.1

<sup>\*</sup>Apply in 1 gal. of water per 1,000 sq. ft. \*\*Apply in 40 gal. of water per acre.

PURPOSE: Fulvic acid is readily absorbed by leaves and roots, and enhances the absorption of nutrients and efficiency of plant metabolic processes. Kelp extract improves root growth, soil microbial activity, stress tolerance, and overall plant quality.

**NOTE:** This product contains micronutrient iron for extra greening and to help prevent iron deficiency. Iron may stain concrete and other surfaces.

PHOSPHATE NOTICE: This lawn/turf fertilizer contains phosphorous and is only for nonagricultural use on (i) turf during its first growing season. (ii) on turf areas being repaired or renovated, and (iii) on turf where a soil test performed within the last 3 years indicates a phosphorous deficiency. This fertilizer is not for routine maintenance of turf.

In Maryland, this product is providing nutrients in accordance with a soil test that was conducted by a laboratory identified under 8-803.7 of this article and performed no more than 3 years before the application.
