

# Our Purpose

is to design, manufacture, and provide water recreation products that promote escaping, connecting, and making favorite memories.

Nowhere is this purpose more important than in our water parks division, where we provide industry-leading rafts, tubes, and mats for the world's leading water parks. With the help of our products, our customers create entertaining attractions where friends and families slide, scream, laugh, splash, play, and bond together. And we're proud to be a part of those delightful moments.

# Innovation MEETS CUITING-EDG

### MEETS CUTTING-EDGE WATER ATTRACTIONS

Focus on innovation, pursuit of quality, and commitment to customer satisfaction are our corporate values for everything we do. When applied to the water parks industry, it results in unparalleled innovation that meets the strict standards and expectations of today's water park operators. For example our innovations include:

- The industry's first patented low center of gravity (LCG) rafts for the ultimate in rider safety for today's extreme slide designs
- Heavy-duty and light-duty round rafts constructed with quality materials and construction processes
- Upgrades to standard round water park tubes to create premium tubes that last longer and are more comfortable for guests
- Specialty tubes for improving accessibility for those with disabilities
- Unique chemistry in our clear river tubes to help resist fogging

We offer exclusive waterpark expertise for custom consultations and designs. Contact us today to discuss how we can make a difference for your water-based attraction. TALK TO OUR WATERPARK SPECIALISTS ABOUT OUR COMPETITIVE PRICING AND EXCLUSIVE CUSTOM DESIGNS.

# LOW CENTER OF GRAVITY (LCG) RAFTS

PATENTED RAFTS DESIGNED IN PARTNERSHIP WITH THE WORLD'S LEADING WATER SLIDE MANUFACTURERS FOR THE ULTIMATE IN RIDER SAFETY.

- Deep seats combat inertia and keep riders seated
- Increased rider comfort and security
- Greater flexibility in rider loading /weight distribution
- Direct replacement to other cloverleaf-style designs
- 4, 5, & 6 person sizes & mammoth blast version

- 2" foam-filled seats provide comfortable ride
- Quality construction, durable materials and various size options
- Overlapped hot-air welded outer seams for extra durability
- Constructed with 40-gauge, K-80 UV-treated reinforced PVC
- 5 water drainage holes at rear of each seat
- Comfortable handles welded to tube for extra heavy-duty security
- 1 Boston valve inflation valve with our proprietary tamper-resistant cap
- Secondary air chamber in center of raft

### **LOW CENTER GRAVITY (LCG) RAFTS**

5 PERSON LCG RAFT 102" diameter x 16" high Item# WP-1049

6 PERSON LCG RAFT

108" diameter x 16" high Item# WP-1052

**MAMMOTH BLAST** 

102" diameter x 21" high Item# WP-1051

- Foam-filled raft floors provide comfortable ride
- Quality construction, durable materials and size options
- Overlapping hot-air welded seams with inner taping for added durability
- Tubes constructed with 28-gauge, K-80 UV-treated reinforced PVC
- Bottom layer 40-gauge, K-80 reinforced PVC with 16 water drainage holes
- Double-stitched reinforced foam-filled handles with EVA knuckle guards
- 1 Halkey-Robert inflation valve

# HEAVY DUTY ROUND RAFTS

GET GUESTS IN AND OUT QUICKLY TO REDUCE WAIT TIMES AND INCREASE YOUR WATER PARK'S PRODUCTIVITY

- Foam-filled floors provide comfortable ride
- 78" & 96" Premium Rafts

4 PERSON 78" HEAVY DUTY ROUND RAFT

Item# WP-0037

5 PERSON 96" HEAVY DUTY ROUND RAFT

Item# WP-0038

- Constructed of durable 30-gauge, K-80 reinforced PVC made to last
- Extra large drain holes around raft floor perimeter for fast drainage
- Tamper-resistant Boston valve for quick inflation
- Foam-filled continuous webbing handle for riders of all sizes to easily grip
- Weighs only 19 lbs

## **LIGHT DUTY ROUND RAFT**

#### LIGHTWEIGHT AND EASY TO CARRY UP STAIRS TO SLIDE

- Premium overlap construction throughout
- Double layer material along bottom surface of tube to resist abrasion if conveyed to top of slide
- Continuous foam-filled webbing handle provides convenient and comfortable hand holds for riders of various sizes / ages
- 67" diameter, 13" high

## STANDARD TUBE SPECIFICATIONS:

- Constructed of durable 28 gauge, K-80 PVC for commercial usage
- Anti-UV, anti-mold / mildew treatment to resist fading
- Heavy duty handles ergonomically positioned for a comfortable ride
- Single main air chamber with standard push-in valve
- Packaged five tubes per carton

#### STANDARD

- Pinch weld seam
- Ripple edge
- Standard valve

#### **PREMIUM**

- Double/overlap weld seam
- Smooth edge = comfortable ride
- Tamper resistant safety valve
- Fills 4x faster

## STANDARD TUBES

THE CLASSIC WATER PARK TUBE THAT STARTED IT ALL! WE OFFER A COMPLETE SELECTION OF SIZES AND OPTIONS FOR MOST CITY POOLS, WATERPARK SLIDES, AND CAMPGROUNDS

- Pinch weld seam
- Ripple edge
- Standard inflation valve
- Four color options
- Other sizes available; contact us for more details including item #s, size options, custom printing and specialty designs

48" Round in-stock - inquire for more sizes by special order

**DOUBLE STANDARD TUBE** 79" long x 48" wide in-stock

## PREMIUM TUBE SPECIFICATIONS:

- Constructed of durable 28 gauge, K-80 PVC for commercial usage
- Anti-UV, anti-mold / mildew treatment to resist fading
- Heavy duty handles ergonomically positioned for a comfortable ride
- Single main air chamber with tamper-resistant inflation valve
- Packaged five tubes per carton

## **PREMIUM TUBES**

ALL RAVE SPORTS TUBES ARE MANUFACTURED WITH SUPERIOR, HEAVY-DUTY MATERIALS AND CONSTRUCTED WITH THE QUALITY THAT YOU CAN EXPECT FROM RAVE SPORTS.
OUR TUBES ARE MADE TO LAST!

- Double / overlap seam throughout
- Smooth edges for a more comfortable ride
- Tamper resistant safety valve that inflates 4 times faster
- Contact us for more details including item #s, size options, custom printing and specialty designs

**SINGLE PREMIUM TUBE** 

48" Round in-stock

#### **DOUBLE PREMIUM TUBE**

79" long x 48" tall in-stock Available with or without floors

- Unique overlapped welding construction for a comfortable seamless seat
- Tapered main air chamber creates back support
- Heavy duty handles ergonomically positioned for a comfortable ride
- Single main air chamber with standard inflation valve
- Packaged five tubes per carton

**U-TUBE** 

## UNIQUE U-SHAPED DESIGN PROVIDES BACK SUPPORT AND SEAT FOR COMFORTABLE LAZY RIVER RIDES

- Also provides extra support for those riders with disabilities
- Pinch weld outer seam
- Heavy-duty 28-gauge PVC with anti-UV fading and anti-mold / mildew coating
- 7mm stem valve for easy inflation
- Inflated size: 45" wide x 38" long x 13" high

**U-TUBE** Item# WP-0180

- Construction similar to quality and durability of our Premium Tubes
- Anti-UV, anti-mold / mildew treatment to resist fading
- Controller (Item #WP-0189) is packaged and sold separately
- Auto On / Off via photocell light sensor to conserve battery life. Automatically turns on tube in dark tunnels and off again in bright light
- Illumination time: 10-11 hours in constant Blue illumination mode (worst case); much longer for other illumination modes

## **LUMA TUBE**

THE ONE AND ONLY INFLATABLE GLOWING WATERPARK TUBE THAT WILL LIGHT UP THE LAZY RIVER! THE OPAQUE TUBE FEATURES A LED LIGHT SENSOR INSIDE THE TUBE THAT CREATES MULTIPLE COLOR OPTIONS

- Great for indoors or outdoors where a more dramatic effect is desired
- Constructed of heavy-duty 28-gauge PVC material with hot air welded seams for smooth edges
- Includes two comfortable handles for extra security
- Easily swap out batteries for recharging with controller compartment (requires 4 AA alkaline or rechargeable batteries. Batteries not included.)

#### **5 COLOR OPTIONS!**

- Constant red
- Constant blue
- Constant green
- Slow transition rainbow
- Alternating pulse red, blue, green

## **LUMA TUBE CONTROLLER & BATTERY** Item# WP-0189

Item# WP-0186

- High-density, closed cell blue EVA foam 1" thickness
- Handles are custom molded HD polyethylene with non-slip TPR grip
- Four large snap fasteners secure each left and right handle plate for quick and easy assembly without tools
- Two sizes designed to comply with the world's leading waterpark slide manufacturer specifications
- Packaged in 12 foam pieces per carton and 4 handles per carton

## **TOBOGGAN RACER MATS**

### SUPER DURABLE FOAM AND STRONG, **COMFORTABLE HANDLES**

- Super durable EVA foam
- Custom comfortable handles with non-slip grip snaps together for quick and easy assembly
- Grooves on one side allow glide control (face up for more glide and speed, face down for more traction and control) and increased exit pool braking
- Available in two sizes: 51.5" x 20.5" mat 60" x 22" mat

**51.5" TOBOGGAN RACER MAT** 51.5" X 20.5" Mat

Item# WP-1043

**60" TOBOGGAN RACER MAT** 60" X 22" Mat Item# WP-1050

### **LIFE VESTS**

## U.S. COAST GUARD APPROVED SIZES: INFANT, CHILD, YOUTH, AND ADULT

- INFANT: less than 30 lbs. (14 Kg)/16-20" (41-51cm) chest. Item# 02434
- CHILD: 30-50 lbs. (14-23 Kg)/20-25" (51-64cm) chest. Item# 02435
- YOUTH: 50-90 lbs. (23-41 Kg)/25-29" (64-74cm) chest. Item # 02436
- ADULTS: Fits adults more than 90 lbs. (41 Kg)/ 30-52" (76-84cm) Item # 02437

### INFLATOR / DEFLATOR

- High Speed Inflator/Deflator
- Heavy-duty reinforced hose
- 36" long hose
- 4 standard adaptors
- 1 Halkey Robers adaptor
- Max 3.0 PSI to prevent over-inflation
- 110 & 220 volt available

110V HIGH SPEED INFLATOR / DEFLATOR

Item# 01083

220V EUROPEAN HIGH SPEED INFLATOR

Item# 01090
