RAINIER SERIES

All Rainier™ binoculars push the limits of optical perfection. All optical components receive our exclusive UBX™ multi-layer coating for maximum light transmission. The extra large BAK-4 roof prisms are coated with over 60 layers of Alpen’s SHR™ metallic and PXA™ phase coatings to deliver the best brightness, clarity and color fidelity. Large diameter lens elements throughout the optical system provide enhanced field of view and eye relief for easy viewing.

FEATURES
• HD – High definition, ED – Extra low dispersion optical system
• Extra large BaK-4 roof prisms with SHR™ metallic coating, PXA™ phase coating, and UBX™ multi-coating provide exquisite optical performance
• PXA™ phase coating for outstanding clarity and contrast
• A-lock™ diopter system allows you to set and lock the right eyepiece to fit your personal eye setting.
• Long eye relief which is great for eyeglass wearers
• Rubber armoring for protection and durability
• Waterproof, sealed and nitrogen filled for guaranteed internal fog free performance
• Twist up eye cups
• Eyepiece rain guards
• Limited Lifetime Warranty

FOR SALES INFO CALL 866.252.3811 OR VISIT BRESSERUSA.COM
The Teton™ binocular series delivers incredible optical performance in a lightweight yet durable body design. With ED and Abbe prism optical design, Teton delivers a bright and sharp viewing with true color fidelity at an affordable price.

Our exclusive PXA™ phase coating and SHR™ metallic coating on Abbe prism is featured for an exquisitely bright and crisp image. The composite body design provides lightweight, yet durable, performance for years of field tough performance. Compare Alpen to competitors that cost two or three times more, you won’t believe your eyes.

**FEATURES**

- **HD** – High definition, **ED** – Extra low dispersion optical system
- **Abbe prisms with Alpen’s exclusive SHR™ metallic coating for bright, sharp, high resolution images**
- **PXA™ phase coating for outstanding clarity and contrast**
- **A-lock™ diopter system allows you to set and lock the right eyepiece to fit your personal eye setting.**
- **Fully multi-coated for maximum brightness**
- **Long eye relief provides full viewing performance for eye glass wearers**
- **Waterproof, sealed and nitrogen filled for guaranteed internal fog free performance**
- **Twist up eye cups**
- **Limited Lifetime Warranty**
APEX & APEX ED SERIES

Apex XP binoculars deliver vibrant images rich in detail even in low light conditions through a combination of high resolution ED (extra-low dispersion) glass that enhances luminosity and contrast, superior BaK4 roof prisms, unique PXA™ phase coating and HR™ metallic coatings. Each rugged Apex XP binocular is waterproof for all-weather performance and purged with nitrogen gas to create an internal environment that is impervious to fogging. Although they are not outfitted with ED glass, the models in the standard Apex line feature most of the same premium features as the Apex XP.

FEATURES

- HD – High definition, ED – Extra low dispersion optical system on selected models
- BaK4 roof prism for clear, bright, high resolution images
- PXA™ phase coating for superior resolution and color fidelity
- HR™ metallic prism coating for enhanced light transmission and brightness
- Fully multi-coated lenses
- Waterproof, sealed and nitrogen filled
- Super close focus on selected models
- Lightweight, ergonomic styling, roof prism design
- Twist up eye cups
- Eyepiece rain guards
- Limited Lifetime Warranty

FOR SALES INFO CALL 866.252.3811 OR VISIT BRESSERUSA.COM
ALPEN’s high performance Shasta Ridge binoculars are fully waterproof, fully multicoated, have long eye relief, and feature BaK4 roof prism optics that allow hunters, shooters, birders, boaters, and outdoor enthusiasts clearer, brighter viewing under all conditions.

Shasta Ridge binoculars meet the extreme all-weather needs of today’s active adventurers. When your goal is top performance and great value, the ALPEN Shasta Ridge is your best choice.

• BaK4 roof prism for clear, bright, high resolution images
• PXA™ phase coating for superior resolution and color fidelity
• Fully multi-coated optics for maximum brightness
• Waterproof, sealed and nitrogen filled
• Long eye relief for full field of view for eyeglass wearers on most models
• Stylish ergonomic design
• Twist up eye cups
• Eyepiece rain guards
• Limited Lifetime Warranty

WINGS SERIES

Available in apertures ranging from a compact 26mm that slips easily into a coat pocket to an impressive 56mm that gulps in light, Wings waterproof binoculars have fully multi-coated optics and premium BaK4 roof prisms that produce bright, high-contrast images even in twilight conditions.

Designed with versatility in mind, these binoculars have an open bridge for steady gripping and feature twist-up eyecups to comfortably accommodate observers with or without eyeglasses. In addition to being waterproof, Wings binoculars have rubber armoring for protection against minor bumps and are purged with an inert gas to prevent internal fogging.

FEATURES

• BaK4 roof prism for clear, bright, high resolution images
• Fully multi-coated lenses
• Waterproof, sealed and nitrogen filled
• Lightweight and ergonomic open hinge body design
• Twist up eye cups
• Rubber armoring for holding comfort and shock protection
• Limited Lifetime Warranty

KODIAK SERIES

Kodiak binoculars produce luminous images rich in contrast and color through a combination of fully multi-coated optics, premium BaK4 roof prisms and a generous 42mm aperture. Available in magnifications of 8x and 10x, Kodiak binoculars deliver excellent views of the details sought by birders, sports enthusiasts and outdoor adventurers of all types.

The binoculars in this series have a durable rubber armoring for a steady grip and are sealed and nitrogen-purged to create an internal environment that is both waterproof and fogproof for all-weather performance. They also offer above average eye relief so eyeglass wearers can enjoy a fuller field of view, twist-up eyecups and a tripod thread.

**FEATURES**

- BaK4 roof prism for clear, bright, high resolution images
- Fully multi-coated optics for maximum brightness
- Waterproof, sealed and nitrogen filled for guaranteed internal fog free performance
- Ergonomic comfort-fit grip
- Rubber armoring for protection and durability
- Twist up eye cups
- Soft rubber eye piece rain guard and objective covers protect lenses from the elements
- Limited Lifetime Warranty
MAGNAVIEW SERIES

ALPEN MagnaView binoculars offer performance and value for today’s sports optics user who demands a binocular that delivers day in and day out. Durable, yet comfortable, with quality optics, ALPEN MagnaView binoculars offer more features than other binoculars in their price class. MagnaView binoculars offer enhanced value at the mid and lower price range.

FEATURES

• BK7 roof prism for clear, bright and crisp images on selected models
• Fully multi-coated for maximum brightness
• Long eye relief which is great for eyeglass wearers
• Ergonomic comfort-fit grip
• Rubber armoring for protection and durability
• Foldable or Twist up eye cups
• Eyepiece rain guards
• Stylish and functional carrying case
• Limited Five Year & Lifetime Warranty

ALPEN SPOTTING SCOPES

Available in four different series, Alpen spotting scopes combine impressive aperture and multiple magnification options in a highly portable unit that is the perfect observation companion for outdoor enthusiasts of all types. All Alpen spotting scopes generate brilliant images full of crisp details with fully multi-coated optics.

The Rainier models take this already excellent optical performance to an even higher level through the use of extra-low dispersion (ED) glass that minimizes chromatic aberrations for truer color and clarity. Each Alpen spotting scope has a built-in zoom eyepiece and rubber armoring and is waterproof for optimal outdoor performance and purged with nitrogen to prevent distracting internal fogging.

• HD – High definition, ED – Extra low dispersion optical system on Rainier models
• BaK4 roof prism for clear, bright and crisp images on selected models
• Fully multi-coated for maximum brightness
• Adjustable collars that let the eye piece be repositioned with a simple twist of the barrel providing ease of viewing whether sitting or standing on most models
• O-ring sealed and nitrogen filled for waterproof and fog proof security
• Includes field carrying case with selected models
• Limited Lifetime Warranty
KODIAK RIFLESCOPES

Kodiak riflescopes feature multi-coated optics, wide angle viewing, easy-adjustable windage and elevation dials, easy to read magnification markings, fast focus eyepiece, and AccuPlex™ tapered reticles. Kodiak riflescopes cover a wide variety of shooting and hunting situations, including big game, varmint hunting, shotgun and slug hunting and target shooting. ALPEN Kodiak riflescopes are priced for value conscious shooters.

For sales info call 866.252.3811 or visit bresserus.com
**M-SERIES**

Superior ED glass, super high reflection coatings and lightweight but rugged magnesium frames on the 45mm models elevate Bresser Montana binoculars above the competition in their price class.

You’ll appreciate the crisp, high-contrast views the extra-low dispersion optics provide, and because sometimes, looking at life through rose-colored glasses is not always best, you’ll enjoy the true-to-life colors depicted through the Bresser Montana binoculars as well.

**FEATURES**

- ED – Extra low dispersion optical system
- BaK4 roof prism for clear, bright, high resolution images
- Fully multi-coated lenses
- Locking diopter system allows you to set and lock the right eyepiece to fit your personal eye setting.
- Long eye relief which is great for eyeglass wearers
- Ergonomic comfort-fit grip
- Rubber armoring for protection and durability
- Twist up eye cups
- Eyepiece rain guards
- Bresser’s Lifetime Warranty

---

**P-SERIES**

Bresser’s Pirsch Series binoculars are waterproof and feature superior optics that generate bright, rich images. Available in a broad range of magnifications and apertures, these binoculars can meet the diverse needs of birders, hikers, hunters and amateur astronomers.

The prisms are made of BaK-4 barium crown glass for maximum light transmission and are phase-coated to provide truer color. All of the optical elements are fully multi-coated for crisp images with excellent contrast.

**FEATURES**

- ED – Extra low dispersion optical system on selected models
- BaK4 roof prism for clear, bright, high resolution images
- Fully multi-coated lenses
- Waterproof, sealed and nitrogen filled for guaranteed internal fog free performance
- Long eye relief which is great for eyeglass wearers
- Ergonomic comfort-fit grip
- Rubber armoring for protection and durability
- Twist up eye cups
- Eyepiece rain guards
- Bresser’s Lifetime Warranty

---

*FOR SALES INFO CALL 866.252.3811 OR VISIT BRESSERUSA.COM*
**E-SERIES**

Offering an ideal combination of superior optics, extra-low dispersion (ED) glass and sleek design, Bresser’s Everest Binoculars are engineered to produce precision images with intense color in any viewing situation.

To maximize light transmission, Bresser Everest Binoculars use full broadband multi-coatings, which means all glass-to-air surfaces have multiple layers of anti-reflection coatings. The roof prism is made of barium crown glass (Bak-4), which further heightens the contrast and clarity of the image.

**FEATURES**

- ED – Extra low dispersion optical system
- BaK4 roof prism for clear, bright, high resolution images
- Fully multi-coated lenses
- Long eye relief which is great for eyeglass wearers
- Ergonomic comfort-fit grip
- Rubber armoring for protection and durability
- Fold down or twist up eye cups
- Eyepiece rain guards
- Bresser’s Lifetime Warranty

---

**C-SERIES**

Bresser’s waterproof C-Series binoculars come in a versatile selection of sizes from compact 25mm models perfectly sized to slide into a backpack or pocket to the larger 50mm models that drink in light and are great for astronomy.

In addition to a sleek roof prism design that is unobtrusive and easy to grip, all models are made with premium BaK-4 roof prisms that are fully multi-coated for brilliant images rich in contrast.

**FEATURES**

- BaK4 roof prism for clear, bright, high resolution images
- Fully multi-coated lenses
- Waterproof, sealed and nitrogen filled for guaranteed internal fog free performance
- Ergonomic comfort-fit grip
- Rubber armoring for protection and durability
- Fold down or twist up eye cups
- Eyepiece rain guards
- Bresser’s Lifetime Warranty
SPOTTING SCOPES

Make professional observations of nature in the forest and field possible with a Bresser spotting scope. Each scope has multiple magnification options and a broad aperture with excellent light-gathering capability. Each is also tripod adaptable for long observing sessions.

FEATURES
- Fully multi-coated lenses for added brilliance
- Waterproof, sealed and nitrogen filled for guaranteed internal fog free performance
- Rubber armoring for protection and durability

CONDOR RIFLESCOPES

Available in a wide range of apertures, Condor riflescopes offer fully multi-coated precision optics for brilliant images, a one-piece aluminum tube assembly and multiple premium features that enhance accuracy and performance.

FEATURES
- Fully multi-coated lenses for added brilliance
- One-piece aluminum tube assembly that is sealed with O-rings and purged with inert gas to prevent internal fogging
- Condor riflescopes have a digital rheostat that allows users to easily adjust dot brightness
- Each model offers a ¼ click mode of adjustment with true rezeroing capability to quickly adapt to wind and elevation changes.

AUTO-OFF FEATURE
Condor riflescopes have a battery-powered digital rheostat with an auto-off feature

1 CLICK = ¼ MOA
Condor riflescopes with MOA adjustments use ¼-minute clicks

OMNI RED DOTS

Designed for fast target acquisition, a Bresser Red Dot sight can help hunters and competitive shooters respond quickly and accurately when the next shot has to count.

FEATURES

• Fully multi-coated lenses
• Shockproof sights for most semi-auto & shotguns
• Two mounts included with select models
• 300-3000 hour battery life

LASER RANGEFINDERS

Whether you’re in the field, on the trail or on the course, success often hinges on knowing the distance to a particular target. With their multi-coated optics and clear LCD readouts, Bresser’s rangefinders can help you make that coveted connection by providing the accuracy you need at lightning fast speeds.

FEATURES

• Multi-coated optics
• Accuracy +/- 1 Yard
• Tripod threaded on selected models
• Rubber armoring for protection and durability
