Office 2019 contains a number of key features previously available through Office 365. Such enhancements include improved inking capability, updated PowerPoint animation tools such as morph and zoom capabilities, and modern Excel templates and data analysis maps. Windows 2019 Office needs Windows 10, Windows 2016 or Sierra macOS. OneNote is incomplete as OneNote's UWP packaged edition removes it within Windows 10. An extra feature in Office 2019 can be configured as OneNote 2016. Office 2019 will be supported over five years but will receive extended support of only two years.

The latest Microsoft Office offers revamped Word, Excel, PowerPoint, OneNote and Outlook models and you will feel the difference right upon launching the applications. A refreshed work panel interface makes it easy to position, resize or rotate graphics so that you can exactly create the layout you like. And new subjects and styles help you to create amazing, professional documents. It offers MS Excel for managing complex records and calculations. Users can analyze, visualize and calculate data with the help of MS Excel. Its shiniest features include Analysis Toolpak, Formula Builder and slicers.
