

How to Use

- 1 Plug the Type-C connector into the corresponding slot on your mains plug or computer.
- 2 Position your MagTec wireless charger in the central area on the back of your phone and allow the magnets to lock on (iPhone 12 Mini, 12, 12 Pro & newer models).
- 3 Your phone will begin charging.

Notes:

iPhone 12 & newer models can be charged wirelessly by direct magnetic attraction; other mobile phones that support wireless charging can be charged by placing the MagTec Wireless charger flat on the table/desk and positioning the central area of the back of the phone onto the MagTec Wireless charger

Notes:

The effectiveness of the magnetic connection is weakened when using with a protective phone case. Only original iPhone MagSafe® cases guarantee compatibility with the magnets in the MagTec Wireless Charger. Third-party magnetic cases can't guarantee full compatibility.

Designed in the UK. Product made in China.
Design & specification may be subject to change without prior notice. @Juice. Compatibility	7.5W Max for Apple devices, 10W Max for Samsung devices, 2.5W Max for TWS

MagTec

WIRELESS CHARGER

Precautions

1. Please confirm whether your mobile phone supports wireless charging. Otherwise it will not be able to charge your mobile phone.
2. Avoid putting any metal materials, magnets or credit cards on your phone or protective case, as this may affect the wireless charge.
3. Use a protective case no larger than 2mm thickness to ensure both the magnetic connection and wireless charging functions properly.
4. Do not attempt to disassemble this product yourself due to risk of electric shock.
5. Do not use this product in severe high temperatures, humidity or corrosive conditions to avoid electrical leakage & circuit damage.
6. Do not splash water or liquids on the wireless charger. If you need to clean up, please make sure the power is disconnected first.
7. When charging, please keep the distance between implanted medical equipment (pacemaker, implantable cochlea, etc.) and wireless charger at 20cm to avoid potential interference to medical equipment.
8. Keep out of reach of children.
