

juice 2

5,000mAh powerbank

Juice® has built the Juice®#2 power bank with you in mind. Speed is important when charging and when on the go, both ports on the Juice®#2 will charge your device at a speedy 2.4A and will allow around 2 full charges of an average mobile.

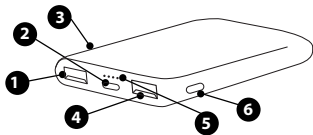

- Micro USB Input and USB C Input
- 2x USB A (2.4A) and 1x USB C Output (2.4A)

Contents

- Juice®#2 power bank
- Micro USB to USB A cable (for charging)
- User Manual

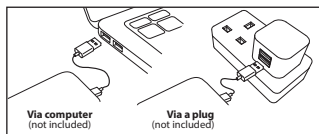

Overview

1. USB A output port
2. USB C input port
3. Micro-USB input port
4. USB A output port 2
5. LED lights indicate battery percentage
6. Power On/Off

How to charge the Juice®#2 power bank

Ensure to fully charge the Juice®#2 power bank before first use, the four LEDs will light up. Do this by charging and draining the power bank 3 to 4 times, this will ensure the Juice®#2 is fully optimised. To charge the Juice®#2 simply connect the supplied Micro USB cable into the power bank and the other end into your computer or to a mains plug (plug not supplied). The LEDs will be white when charging, and will stay white once fully charged.

Checking the remaining charge

Charge Time : 3-4 hrs (DC5V, 2A input)

To check the energy levels press the button on the side, the four LEDs will indicate the remaining power.

Note: It is normal for the Juice®#2 and your device to get warm during charging. They may get even warmer if you use your device to play videos or for gaming while charging.

Charging your gadgets

Always check the voltage your device can accept before charging with any Juice product, this will ensure full compatibility

1. Connect your device via the cable to the USB A ports or USB C port. For Apple devices you will need to use your original cable that was supplied with your device. The 2.1A ports will charge your device quickly if you are not charging from both ports. When using 2 or 3 ports the output from each port will drop so that the total output is 2.4A, this ensures safe charging to both devices.

2. Press the power button to turn the Juice®#2 on, now you can charge. Your device will show you when it is being charged via the four LEDs on the front. The numbers on the LEDs lit up will decrease to show that power is being transferred from the power bank to your device.

3. When your device is fully charged or you want to stop charging, disconnect the cable.

4. In order to charge your device(s), you will need a cable compatible with your device. These come included as standard when purchasing most devices. Plug the device's standard USB A or USB C end in to the Juice®#2, then plug the other end of the cable into the device you wish to charge.

5. Once charged, simply unplug your device and store your Juice®#2 power bank until you are ready to use it again, ensure to charge the power bank fully every 3 months to ensure it is kept in optimum condition.

NOTE: The maximum output current of the Juice®#2 is 2.4A. This occurs when charging one device from either the USB A ports or USB C port, when charging 2 or 3 devices from USB ports the power bank will output a maximum of 2.4A. Power cannot be discharged to your device requiring an amperage of more than 2.4A.

NOTE: Mobile and gadget device manufacturers have different requirements to charge their products, they may also use different cables to charge their devices.

These manufacturers may vary the specifications of how to charge a device and they may also introduce other charging methods on their new products, therefore we can not guarantee that the Juice®#2 power bank will be able to charge all devices. Juice® always suggests that you use the original charging cable included with your device to charge.

Lets get techy

Input	Micro USB - DC5V/2A USB-C - DC5V/2A
Output	Output 1 USB C: DCV5/2.4A (Max 2.4A) Output 2 & 3 USB A: DC5V/2.4A Max Outputs (output 1 + 2 + 3): 2.4A (12W max)
Dimensions	92 x 63 x 13 mm
Net Weight	106g
Capacity	5,000 mAh / 18.5Wh (Lithium polymer battery cell)

Safety notes

IMPORTANT: Read all information and warnings before using the Juice®#2. Improper use of this product may lead to the product being damaged and you (the buyer, not the dealer) will be held responsible for damages such as over heating, the release of toxic fumes, fire or explosion.

- Do not attempt to charge the Juice®#2 by using any other method other than a USB charger or computer.
- Do not modify or disassemble the battery.
- Do not dismantle or modify the Juice®#2 in any way.
- Do not use this charger in bathrooms etc.
- Do not expose the Juice®#2 to moisture or immerse it in liquid.
- Keep the product dry at all times.
- Do not keep the Juice®#2 in an environment that has excessively high temperatures, including intense sunshine.
- Do not throw this product into a fire or leave in a hot environment. Avoid dropping or any other impact or friction to this product.
- Do not place the Juice®#2 on flammable materials, such as bedding or carpets during charging.
- Do not touch the Juice®#2 with wet hands.
- Disconnect the cable from the Juice®#2 once you have charged the device.
- Only use this product within the following temperatures: 0° to 40°.
- Do not connect input and output in reverse.
- Do not charge the Juice®#2 in excess of the rating suggested.

- If any issue arises when using the Juice®#2, disconnect the cable from the computer port and contact your dealer.
- In the unlikely event that any liquid from the inside of this product gets into your eyes, do not rub them. Wash your eyes immediately with clean water and consult a physician.
- All Juice®#2's have been tested comprehensively to ensure quality. If you encounter any unusual heat, discolouration or product distortion during charging or storage, please stop using it immediately and contact the dealer. These issues may cause leakage, heat, smoke or ignition of the Juice®#2.
- The Juice®#2 is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities (or lack of experience and knowledge) unless they have been given supervision or instructions concerning the use of the Juice®#2 by a person responsible for their safety.

Children should be supervised to ensure that they do not play with the Juice®#2, this is not a toy.

Legal liability

The Juice®#2 can be used only with compatible products. Please read your equipments compatibility instructions to determine whether this Juice®#2 matches your equipment. The manufacturer will not be liable for any damage to your electronic equipment during the use of this product. Juice will not be held responsible for any equipment or accessories not suitable for use with the Juice®#2. The manufacturer will not be held liable for damage caused by misuse or damage incurred by the buyer or the third party rising from any intentional or unintentional use of the Juice®#2.

Average charge amounts shown (2 charges for the Juice®#2 power bank) are estimated on charging an iPhone 12 mobile.
