## Charging your device

Use the USB-C cable and connect the headphones to a charging adapter or computer made for USB charging. A red LED indicator will turn on when the headphones are charging. The red LED light will turn off when headphones are fully charged.

## Pairing device

1. Make sure your phone, computer or music device is turned on and within 1 metre of each other.
2. Hold down multifunction on/off button for about 3 seconds until LED light starts to flash BLUE and RED quickly.
3. Activate the Bluetooth® feature on your phone or device and set it to search for BT devices (discoverable).
4. Select 'Juice cans play' from the list of found devices.
5. If necessary, enter passcode '0000' to pair and connect the headphones to your device.
6. Once successfully paired, the LED light will turn solid BLUE then flashing BLUE when playing music.

## Playback and controls

1. Press multifunction button play/pause to start and pause audio.
2. Press and hold down to skip forward to the next track. Press once to increase volume.
3. Press and hold down to go back to previous track. Press once to decrease volume.

Note: The controls will not function when charging.

## Calls

1. To answer an incoming call, press the multifunction play/pause button
2. To end the call, press the button again.
3. To decrease or increase the volume during the call, press and hold down or

## Power on device

Press and hold the multifunction button to turn the headphones on. The LED indicator will flash BLUE and RED when headphones are on.

## Power off device

Press and hold the multifunction button to turn the headphones off. The LED indicator will stop flashing when off.

## Using in passive mode (wired)

You can use the headphones as wired headphones to save battery. Simply connect one end of the 3.5mm cable to the bottom of the ear cushion and the other end to your phone or device.

Note: The controls will not function when in this mode.

## Important safety information

### Listen Responsibly

To avoid hearing damage, make sure that the volume on your music player is turned down before connecting your headphones. After placing your headphones in/on your ears, gradually turn up the volume until you reach the comfortable listening level. Noise levels are measured in decibels (dB), exposure

to any noise at or above 85dB can cause gradual hearing loss. Monitor your use; hearing loss is a function of loudness versus time. The louder it is, the less time you can be exposed to it. The softer it is, the more time you can listen to it.

### Use Responsibly

Do not use headphones when it's unsafe to do so - while operating a vehicle, crossing streets, or during any activity or in an environment where your full attention to your surroundings is required.

It's dangerous to drive while wearing headphones, and in many places, illegal because it decreases your chances of hearing life-saving sounds outside of your vehicle, such as another car's horn and emergency vehicle sirens. Please avoid wearing your headphones while driving.

## Legal Liability
