Easy pairing

1. Turn the headphones on with the power button, they will automatically enter pairing mode
2. Keep the headphones & your Bluetooth® device as close as possible during the pairing process.
3. Turn on the Bluetooth® mode on your device & select 'Juice Cans Ultra' to pair. The indicator light will slowly flash blue once successfully paired.
4. If necessary, enter passcode '0000' to pair and connect the headphones to your device.

Note: To clear any existing Bluetooth® connection, press and hold the volume up & volume down buttons simultaneously for 5 seconds.

AUX Wired connection

The headphones support AUX wired input for wired external audio source connection. Simply power off the headphones & plug in the audio cable.

Note: Wired mode is not available when the headphones are out of battery. The buttons & microphone on the Juice@Cans Ultra will not work when connected as wired headphones

Troubleshooting questions

Q Why aren't the headphones working when using the audio cable?

A If the battery is completely drained, the headphones can't be used in wired mode. Charge the headphones for 10 minutes and then connect the audio cable to use in wired mode.

Q Why can't I pair my headphones with my mobile phone?

A Check if your headphones are in pairing mode or reconnection mode. Ensure your device is in Bluetooth® searching mode. Delete/forget 'Juice Cans Ultra' from the list and reconnect them.

Q Why aren't the headphones turning on?

A Please double check the battery status of your headphones.

Q Why can't I hear any voice from my computer or mobile phone?

A Check if the output channel of your computer supports the A2DP Bluetooth® profile. ensure the volume is high enough on the headphones and computer/phone.

Q Why aren't the buttons on my headphones controlling the playback from the music app on my phone?

A Due to the configuration of some phone apps, the headphone controls may not be fully compatible.

Q What can I do if the Bluetooth® appears to have crashed/lost functionality?

A You can reset the Bluetooth® settings by inserting the audio cable into the audio jack and removing it.

Q Why can't I connect to Bluetooth® while the audio cable is connected?

A All of the Juice@Cans Ultra's Bluetooth® functions and controls stop working while the user is connected via the audio cable - removing the cable allows the headphones to revert to full Bluetooth® functionality.

Important safety information

Hearing Safety

1. Avoid listening to music for long periods at a high volume to reduce the risk of hearing damage.
