

juice wired

Package contents

- Juice@Wired headphones
- Instruction booklet

Using your headphones

Simply connect the 3.5mm cable to the AUX port of your phone or device.

Important safety information

Listen Responsibly

To avoid hearing damage, make sure that the volume on your music player is turned down before connecting your headphones. After placing your headphones in/on your ears, gradually turn up the volume until you reach the comfortable listening level. Noise levels are measured in decibels (dB), exposure to any noise at or above 85dB can cause gradual hearing loss. Monitor your use; hearing loss is a function of loudness versus time. The louder it is, the less time you can be exposed to it. The softer it is, the more time you can listen to it.

Use Responsibly

Do not use headphones when it's unsafe to do so - while operating a vehicle, crossing streets, or during any activity or in an environment where your full attention to your surroundings is required.

It's dangerous to drive while wearing headphones, and in many places, illegal because it decreases your chances of hearing life-saving sounds outside of your vehicle, such as another car's horn and emergency vehicle sirens. Please avoid wearing your headphones while driving.

Legal Liability

Juice@ Headphones can only be used with compatible products. Please read your devices instructions to determine whether this product matches your devices requirements. The manufacturer will not be liable for any damage to your electronic equipment during the use of this product. Juice will not be held responsible for any equipment or accessories not suitable for use with these headphones. The manufacturer will not be held liable for damage caused by misuse or damage incurred by the buyer or the third party rising from any intentional or unintentional use of this product.
