## portable speaker

stream your music wirelessly

### Package Contents

- Juice®boom portable Bluetooth® speaker
- Mini USB charging cable
- 3.5mm aux cable
- Rechargeable battery
- Disc/speaker stand
- Juice® carry pouch
- Instruction booklet

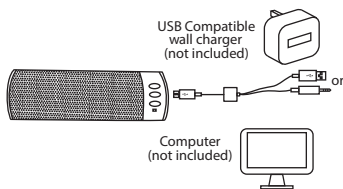

### Overview

### How to charge your Juice®boom

1. Ensure the battery supplied is inside the Juice®boom battery compartment.
2. Plug the Mini USB end of the charging cable into the Juice®boom.
3. Plug the standard USB end into either a computer or a USB mains charger.
4. The LED status light will go red when charging and go off once fully charged.

Note: A full charge takes approximately 3 hours. The charge will last for around 20 hours of playback.

### Play audio from your Bluetooth® device

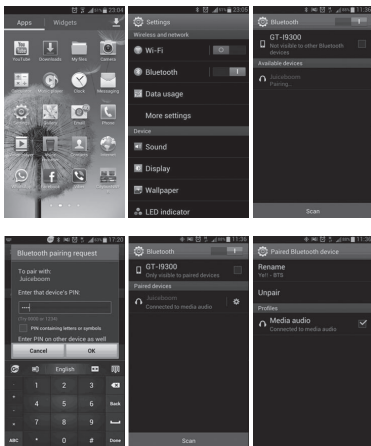

1. Switch the Juice®boom speaker on and wait for about 8 seconds. Then press (do not hold) the Play/Pause/Pair button. The LED status light will flash red and blue alternatively.
2. On your Bluetooth® device, turn on Bluetooth® and scan for devices in the Bluetooth® menu.
3. When the 'Juiceboom' appears, select it and if asked for a pass code please enter 0000. The Juice®boom is now paired to your device.
4. If you are using an A2DP Bluetooth® enabled device, you will be able to use the following functions:  
Play/Pause - short press  
Next Track - short press  
Previous Track - short press

**Please note:** we recommend not turning the volume of your device up to 100% as this may distort the sound quality sent to the speaker, please keep to maximum 95% maximum volume for best quality.

Example: iPad / iPhone / iPod Touch  
Press Settings > General > Bluetooth® > Bluetooth® ON > Juiceboom > Enter PIN: 0000 > Pair

Example: Android 4.0.3 Ice Cream Sandwich Smartphone  
Press Settings > Bluetooth ON > Scan > Juiceboom > Enter PIN: 0000 > Settings > Check the media audio box

### Reconnecting the Bluetooth® device

Keep in mind that the Juice®boom speaker has a 33 feet range in open field. If you move out of range or turn off the Bluetooth® feature on your Bluetooth® device, the Juice®boom will disconnect from your device. To reconnect, simply follow the instruction in the 'Play audio from Bluetooth® device' section.

### Change the connected Bluetooth® device

1. Disable the Bluetooth® function of your Bluetooth® device.
2. The Juice®boom can now be paired to a different Bluetooth® device.

### Play audio from a non-Bluetooth® device

1. Switch the Juice®boom on and using the provided aux cable, connect your device directly to the Juice®boom.
2. When playing music using the aux cable you will not be able to use the Play/Pause/Next Track/ Previous Track functions or change the volume on the speaker

### Hands-free Calls

The Juice®boom comes equipped with a microphone for taking calls when paired to a Bluetooth® device. When receiving a call the Play/Pause button becomes Answer/End call button. Music will resume playing when your call ends.

Specifications	Juice®boom

### Troubleshooting

**No connection between Bluetooth® Speaker and your Bluetooth® device.**

- Check the Juice®boom is fully charged.
- Make sure your Bluetooth® device is available and supports Bluetooth®
- Make sure the Juice®boom is within range your Bluetooth® device.

**Audio is not coming out of the Juice®boom after the Bluetooth® device has been successfully paired.**

- Make sure the Bluetooth® device volume is set to a reasonable listening level.

**Audio is not coming out of the Juice®boom after the non-Bluetooth® device is connected via the mini USB to USB and 3.5 mm splitter cable.**

- Make sure the mini USB to USB and 3.5mm is correctly and firmly connected to the Juice®boom and non-Bluetooth® device.
- Make sure the non-Bluetooth device is set to a reasonable listening level.

### Precautions

1. The radio waves emitted by the Juice®boom and the Bluetooth® device can affect operation of nearby electronics including medical devices.
2. Keep Juice®boom in a cool, dry place.
