

# MERCO TAPE – TECHNICAL DATA SHEET

## Merco MD series Multi-Roll Desk Top Tape Dispenser *Made in Italy*

**Merco MD Series Multi-Roll Desk Top Tape Dispensers** are manufactured in Italy with users of a multiple variety of tapes in mind. Each is suitable for Masking Tape, Polyethylene, Polypropylene, PVC, Kapton, PTFE and just about any tape up to 25mm (1") wide. Put each tape on its own spindle and you are ready to get to work.

The strong body is made of a very high-quality sheet steel (4mm thick) and coated with a hard, durable epoxy-polyester powder paint. No sand base: the weight of the body and the soft rubber base under it give these dispensers the necessary stability and heft so they don't go bouncing around your desk. No sand means these can be used in production departments, laboratories and clean rooms without fear of an accident or product failure contaminating your work.

Two or four core holders each spin independently of one another and each has their own blade. Ideal for using just the tape you want or need, and for ease in replacing exhausted rolls. **We offer both Toothed and Razor bladed models:** toothed blades for regular cuts. Razor bladed for films, graphic artists and Felix Unger neatness. Each blade is a tough, durable German steel, so sharp there is a cute pictograph warning you to keep your fingers away. Replacement blades are available.

### **MD-2 Double Spindle Dispenser**

**Both Toothed Blade and Razor Blade avail.  
from Stock in Orange, Blue and White**  
packed 12 per case – open stock available
