## TESTIMONIALS

My wife, Morgan and I, had a stellar experience working with Made By Marcus last year to add a special touch to our wedding. During the COVID lock downs, Made By Marcus was an easy go-to for dates and so when we learned that you could rent a cart full of MBM ice cream, we couldn't say no to it.

The process was as simple as choosing the flavours and quantities, and because we'd been to MBM so many times and were well-acquainted with all the flavours, we didn't need to schedule a tasting.

The cart and ice cream showed up on-time the day of our wedding with plenty of time for it to be integrated into the decorations. This was such a fun alternative to a wedding cake and our guests loved the little single-serving cups! We would highly recommend anybody who loves ice cream to reach out and for those couples who are on a budget this is a great option to consider!

We truly loved having your ice cream at our event and it was so fun to share our favourite kinds with family and friends who have never tried Made By Marcus!
