

# Volume 3 Block Index

## The Encyclopedia of Patchwork Blocks

WOW! 19 different block sizes!  
Including 4" and 6" mini blocks

Volume 3 features 8-pointed stars to make with Perfect Patchwork Template Set E or the paper patterns included in the book. There are 50 blocks in the book; this page includes several more blocks that can be made with Set E.

Volume 3 isn't just diagrams of blocks

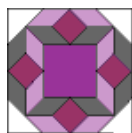

Italics indicate, to the best of our knowledge, a new name in the book and often a new design or a slightly altered familiar one. NOTE: Blocks are not shown in proportion to each other.
