

Tessellating Windmill

8 Finished Block Sizes
from 2" square to 9" square

New Tool—New Method

Step 1. Stack all fabrics for each row. Cut squares $1\frac{1}{2}$ " larger than desired finished size.

Step 2. Use our new tool to cut 4 Windmill blades—*on grain!* Cut and rotate 4 times for each row.

Step 3. Lay out stacks for all rows in one vertical row. This quilt has 5 rows (6 rows when the "built in" border pieces are added).

Step 4. Follow instructions to play "Leap Frog."

Step 5. Add border pieces to the stacks. Add to the top of the left hand stacks and bottom of the right hand stacks.

Step 6. Chain piece each stack separately to make horizontal rows.

Step 7. Join the rows to complete the quilt top.

For more detailed instructions, see the booklet in the Tessellating Windmill tool package.
