

# Enjoy an eco-friendly Easter

**Tweet! Treat yourself to an eco-friendly feast with Flying Tiger Copenhagen. We have lots of extraordinary things to celebrate the season.**

A little bird told us that an unforgettable spring feast is on its way. We'll be keeping traditions and a keen eye on the environment. You and your loved ones truly have something to look forward to!

Celebrate the movable feast with an epic Easter egg hunt! Place festive paper signs in the garden and let them lead the way to the carefully hidden cardboard eggs. Our Easter products are designed with love and made from sustainable forest paper. What's more, they'll easily do for Easter next year as well. We wish everyone a happy hunt – and if the kids find more eggs than they can carry, this Easter cotton bag is fab!

**Available online and in stores from February, from €2.**
