

Oh joy – eco-conscious Christmas toys!

Flying Tiger Copenhagen has designed a toy collection that makes you wish you were a child again. It's made of fine materials, so you'll be hugging the planet too. A richer life doesn't have to cost a fortune.

There's no time like the present to spoil your favourite people, and at Flying Tiger Copenhagen we have gifts for everyone! For children Christmas is extra-special, so we couldn't help making them something exceptional. Here are some of the toys from our eco-conscious Christmas collection – they'll fire up a child's imagination for sure.

For the little chef we suggest a play-and-pretend kitchen and a true-to-life toaster. Both kitchen toys are made of wood from sustainable forestry. The Christmas collection also offers a doctor's play set with medical devices made of renewable materials and a musical suitcase with four instruments made of endlessly recyclable metal and FSC®-certified wood – isn't that music to your ears?

Available online and in stores from November, prices from €3
