Information for Crusader Kings III Game:

Paradox Development Studio brings you the sequel to one of the most popular strategy games ever made. Crusader Kings III is the heir to a long legacy of historical grand strategy experiences and arrives with a host of new ways to ensure the success of your royal house.

- Choose a royal or noble house from a number of realms on a map that stretches from Iceland to India, from the Arctic Circle to Central Africa.
- Guide a dynasty through the centuries, ensuring the security and power of each new generation. Gather new lands and titles to cement your legacy.
- Be a pious king to bring the religious powers to your side, or strike out on your own, designing your own splinter religion and earning everlasting fame or eternal damnation.
- Knights, peasant revolts, pilgrimages, Viking raiders... experience the drama and pageantry of the Middle Ages.
- Adopt one of five different lifestyles, perfecting your skills in military strategy or kingdom management.
- Acquire character traits that will guide your actions, but beware if you act against your nature! The stress from denying your truest self could bring a new host of troubles!
- Choose appropriate guardians for your heirs, or train them yourself. But what do you do if the legal heir is not quite up to the job?
- Violent characters may develop a fearsome reputation, cowering your timid subjects into obedience with the dread you inspire.
- Recruit men-at-arms units and powerful knights to supplement your royal levies.
- Research new technologies to increase the wealth and military might of your realm.
- Hire mercenaries and Holy Orders for your major wars.
- Supplement your income with ransomed prisoners or raiding parties on neighboring realms.
- Use your spymaster to discover plots against your dynasty and your rule.
- Recruit agents to assist your schemes to undermine or murder anyone who stands between you and power.
- Seduce other characters for love or political power.
- Gather information for blackmailing purposes or call in favors whenever your plans need an extra bit of influence.

Crusader Kings II Linux – Another global strategy by Paradox Interactive, this time with an emphasis on management and feudalism dynasty. Timeline affect the era of the Dark Ages (Charlemagne, Viking Age) to the late Middle Ages (the Hundred Years War and the beginning of the Renaissance).

Lead the Empire, the pagan army or the poorest of the lot in the God-forsaken land, and after – to lead his race to dominate the world. Empty the Holy Septre, leading the Crusaders through the hot sands. Embark on Dark, rob wealthier overseas neighbors to the glory of the Old Gods. Become the great Khan and ravaged the whole of Europe. All in your hands.
