Raffle Tickets - How to set the print adjustment

For the Video: https://raffleticketsoftware.com/pages/how-to-adjust-the-printing-video-tutorial-6

Every desktop printer is a little different, so we highly recommend that you do a printing test before you send the whole job to print. This will help to save your valuable time, ink, and paper.

Please go to Ticket> Print Preview to see a close approximation of what your ticket sheet will look like.

Up at the top menu, click Ticket > Print Preview

Tick	et Edit View Help

	3 B:\CamStudio 2.7\\Test			
	Exit			

Top menu drop-down - Print Preview...

A large window pops up showing you what your tickets will look like when printed.

Print Preview Window

If this looks good, you are probably close, but we still recommend that you print a single test page to make sure you have your paper loaded in the correct direction and face up or down depending on your printer.

If you are using the Raffle Ticket brand pre-perforated ticket paper with stubs we always include a few extra sheets to make sure you'll get the full 1,000 tickets even if you have a couple of false starts. But, you don't have to use the pre-perforated paper for these tests. You can test on regular paper then place the test in front of the perforated paper, and hold both up to a bright light to see where the perforations will line up. This will ensure that your 8 tickets per sheet are positioned correctly on the page.

First, make sure that your printer settings are correctly setup.

Go to the top menu and click **Ticket > Print Setup**

Here you can choose your printer, the paper type, and the orientation. When using Raffle Ticket paper, your orientation should be set to "Landscape."

Help	Network	OK Cancel

Print Setup Window

When you are ready to print a test page, go to the top menu and click **Ticket > Print**

The Print window will pop up. Choose your printer from the drop-down menu, and change the Print range to be from Pages 1 to 1. This ensures that only one page will print.

Up at the top menu, click **Ticket > Print Adjustment**

Top menu drop-down - Print Adjustment...

This will bring up the **Printer Adjustment Panel** window.

You will see two tabs - Print Nudge and Print Size.

In the **Print Nudge** tab, you can adjust the position of the content of your ticket vertically and horizontally by using the two sliders.

NameAddress	Date: Saturday, April 1st Time: 9am to 5pm Where: West Parking Lot Cost: \$5 per ticket Please bring this ticket on the day of the event. Thank you for your support!! TICKETS MUST BE PURCHASED PRIOR TO THE EVENT	Print Rojustment Pare Print Nudge Print Size: Printers can vary greatly as far as positioning and how close they can print to the edge of a sheet. You may adjust the positioning both vertically and horizontally. You may also wish to reduce the size of the image slightly so everything will print using the controls on the sizing tab.
NameAddress	Senior Class Fundraiser Date: Saturday, April 1st Time: Sam to 5pm Where: West Parking Lot Cost: \$5 per ticket Please bring this ticket on the day of the event. Thank you for your support!! TICKETS MUST BE PURCHASED PRIOR TO THE EVENT No. 08899	Vertical Nudge: Up 1/2" Horizontal Nudge: Left 1/2" Defaults OK Cancel

Printer Adjustment Panel - Vertical Nudge maximum, Horizontal Nudge to the left

Printer Adjustment Panel - Vertical Nudge minimum, Horizontal Nudge to the right

If you do not like how the preview looks, you can always start over by clicking the **Defaults** button. This will reset both Nudge values to their original centered values.

In the **Print Size** tab, you can change the vertical and horizontal size of the ticket design and stub sections by moving the sliders.
