

How to make your own raffle tickets

Click here for the Video: <https://raffleticketsoftware.com/pages/intro>

In this video series I will show you how you can make professional tickets in just a few minutes right from your home computer. You can download a free demo version from our website and see how easy it is for yourself.

This video will demonstrate how to use Raffle Ticket Software to make professional-quality, custom tickets in just a few minutes. First we will go over how to create the body of the ticket, then the stub, and finally how to set up the ticket numbers. Keep in mind that this is only one style of ticket. There are many design choices you can make that do not have to exactly be like the one I will demonstrate. That is the beauty of this program.

You can download a free demo version of the Raffle Ticket Software and try it out risk free right now. If you like it, you can purchase the program from our web site: <https://raffleticketsoftware.com>. After purchase, we will send you registration information so you can start making tickets right away.

We've broken the videos down into the three main parts of the program. The ticket body, the ticket stub, and the numbering specification.
