

Making tickets is easy with raffle ticket software

Video: <https://raffleticketsoftware.com/pages/introduction-video-tutorial-1>

Raffle ticket software is a very easy-to-use PC program that within just a few minutes and with very basic computer knowledge you can be designing tickets like this.

You have the body of your ticket, you can decide what kind of information you want to put on the stub, and you'll get matching numbers for added security. Raffle ticket software can be used for event tickets with admission, you can do raffle fundraisers with them, you can use them for valet parking, just about any kind of a ticket that you can think of, raffle ticket software can handle that for you.

And we also have a line of perforated papers where it's nice and easy to tear apart in the field, and you get 8 tickets per sheet. Each package has 130 sheets and they are very simple to use with your home printers.
