VERONA CHANDELIER FIVE LIGHT LL-CH17-3SB/LL-CH17-6DB-LED

ASSEMBLY INSTRUCTIONS

REMOVE ALL PARTS FROM PACKAGE, BE CAREFUL NOT
TO DAMAGE ANY COMPONENTS

PROFESSIONAL INSTALLATION RECOMMENDED

LINEA ■ LIGHTING

VERONA CHANDELIER FIVE LIGHT

LL-CH17-3SB/LL-CH17-6DB-LED

REMOVE ALL PARTS FROM PACKAGE, BE CAREFUL NOT TO DAMAGE ANY COMPONENTS

1. Measure area and determine desired hanging height. Product comes with two (2) sets of three (3) 12", one (1) 8" and one (1) 4" hard stems [A] for adjustable hanging height. Determine the stems you will use to achieve desired height. Threads are removable from the stems and thread removal may make it easier to thread wire.

2. Thread wire (E) from frame stem [B] through one side only of the light fixture through the first stem [A]. Continue to add stems on that side, threading the wire and screwing each stem together and repeat as necessary to achieve desired hanging height.

3. On non - wire side, continue to add stems, screwing each stem together. Repeat as necessary to achieve desired hanging height.

4. Detach mounting plate [C] from canopy [D].

5. Locate two (2) canopy stem connectors [H]. Remove nut [K], washer [J] and washer [I] from both connectors.

6. Screw the finished side of the canopy stem connector [H] into stem assembly on each side, threading wire through the connector on the appropriate side.

7. Thread wire [E] through canopy [D] on one side.

8. Place canopy holes over stem assembly threads. Place washer [I], then washer [J] over thread. Secure with nut [K]. Be sure to thread wire through washers and nut on wired side. Repeat on second side.

9. Install light to ceiling. Linea Lighting recommends installation by a qualified electrical professional. Canopy screws [F] are used to tighten light to ceiling.

10. Install bulbs max 60W max (not included with LL-CH17-3SB). Place glass shade [G] over bulbs and onto base.

Note: Turn off switch before replacing the bulb. Make sure the bulb has sufficient time to cool down. Do not subject the lamp to any shock while lit as shattering of glass shade may result.
