

BENCH SEAT ASSEMBLY INSTRUCTIONS

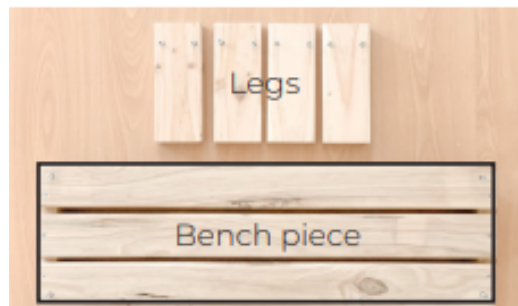

Pippy Play
DESIGNS

Included in the box for assembly:

- 1 x bench seat piece
- 4 x legs with pre drilled screws
- 4 x loose screws

You will need:

- Drill (recommended)
- OR a Phillips head screwdriver
- Tip: If using a drill ensure it's on the slow setting

It's as easy as 1, 2, 3, 4!

Okay, so the bench seat assembly is even EASIER than the table, how good is that!

All the legs are numbered and will match up with the stickers on the top & bottom pieces.

Flip the bench seat on its side.
Line up the corresponding numbers and attach the legs by screwing in the 2 screws.

Repeat for the other 3 legs.

Once all the legs are on flip the bench seat upright and use the 4 x loose screws provided (using a screwdriver so the wood doesn't split) and screw in the 4 corner screws.

Easy peasy! If you need any help just send us a message :)

Thank you so much for supporting our small family business!
