PREFACE

Thank you for choosing **REJUVA FRESH** Multi-function Laser Machine for Hair Removal + Tattoo Removal + E-Light Skin Rejuvenation. This highly versatile laser beauty machine combines the technologies of E-Light, SHR, Radio Frequency, and YAG Laser to safely achieve multiple skin benefits for your spa clients.

This machine has powerful lasers with state-of-the-art cooling system that ensures efficient and effective treatment. It is portable and easy to operate. With this machine, achieve permanent hair removal, tattoo, and spot removal for your clients. Truly a good investment for your spa or salon!

Please read this User Manual carefully in order to use the machine properly and to protect the machine from unnecessary damages.

Should you encounter any issues during operation of the machine or any related questions, you can contact us at our website: rejuvafresh.com or email us at hello@rejuvafresh.com.

Thank you again, and please enjoy your Rejuva Fresh Multi-function Laser Machine for Hair Removal + Tattoo Removal + E-Light Skin Rejuvenation!

I. PRODUCT INFORMATION & SPECIFICATION

I.1 Product Information

This machine combines the technologies:

1. **E-Light:** uses an advanced combination of IPL and RF technology and achieves visible hair loss even after the first session. The hair bulb is permanently destroyed by E-Light energy as it is transformed into heat, without any damage to surrounding skin tissues, so new hair will never grow again. Hair that is currently in the growth phase normally falls out within one or more weeks following treatment. After only several treatments, all hair will be completely gone.
2. **SHR Handle:** A sweeping process of 640nm-1200nm wavelength light with continuous luminescence guarantees that the hair follicles of targeted tissue are completely deactivated so that hair will never grow back. Contact-type operation and sapphire cooling are synchronized, which ensures complete protection of skin tissue and helps you feel more comfortable during the operation.
3. **YAG Laser:** The YAG laser successfully penetrates the epidermis and dermis, as it locates and breaks up tattoo pigmentation. It not only get will remove unwanted tattoos of all colors once and for all, the laser also works effectively for removal of other unwanted spots, such as speckles and age spots, and marks on the body and face.
4. **Radio Frequency (RF):** Radio frequency radio waves accurately reach the deep layers of the skin to stimulate the ions in the body to effect the natural production and rearranging of collagen. As a result, the skin becomes more soft and firm and wrinkles less apparent. Skin elasticity is restored.

This spa machine includes a personal training session with an expert instructor. We also offer complimentary certification (certificate that you can hang on the wall).

Contact us after you receive your delivery to schedule your training session by Zoom or FaceTime.

I. PRODUCT INFORMATION & SPECIFICATION

I.2 Product Specification

Machine Power	2000 W
Voltage	100 V/110 V/ 220 V Voltage selected according to your region
3 Handles	E-Light, RF, Nd:YAG
Screen size	10.4 in
Cooling system	water cooling + air cooling + semiconductor refrigeration
Light window	10 x 40 mm
Energy density	1-50 J/CM ²
Spot diameter	1-8 mm
Wavelength	532nm, 1064nm, 1320nm
Working frequency	1-10Hz
Machine size	64 x 58 x 79 cm

I. PRODUCT INFORMATION & SPECIFICATION

I.3 List of Accessories

Item	Quantity	Image
Main Unit	1	
Nd:YAG Handle	1 set (including 532nm, 1064nm, and Black Face doll)	
E-Light Handle	1 set (including 1 each of: 640nm, 530nm, & 480nm filter slide)	
RF Handle	1 set (including for eye, face & neck, & body parts)	
Foot Switch	1	

I. PRODUCT INFORMATION & SPECIFICATION

Item	Quantity	Image
Water Funnel and Pipe	1	 A clear plastic funnel with a long, thin pipe attached to its narrow end, used for pouring liquids into narrow openings.
Operator Protective Glasses	1	 A pair of dark, wrap-around safety glasses with a protective shield on the front, designed to protect the eyes from splashes or debris.
Power Cable	1	 A black power cord with a standard three-prong electrical plug at one end and a connector at the other, used for power supply.

III. REFILLING THE MACHINE WITH WATER

WARNING!

Before you start the machine, you need to check the water injection level.

EVERY 1-2 MONTHS CHANGE THE WATER INSIDE THE DEVICE.

This is the water hole where you put water using the funnel.

Used for draining used water

Used for draining used water

After the machine water injection is finished:

1. Connect the foot switch on the machine and plug the machine on the socket.
2. Let the machine run for 1 minute then turn OFF.

IV. WARNINGS

Only the people who are professionally trained can use the device.

Only the person receiving treatment is allowed inside the treatment room.

During treatment, the operator must wear protective glasses, the person being treated must wear safety goggles

During treatment, avoid using flammable substances, such as acetone and alcohol

IV. WARNINGS

DO NOT use if experiencing fever or if with skin diseases, or any infectious disease.

DO NOT use if pregnant, menstruating, conceiving, or breastfeeding

DO NOT USE if with: heart disease, hypertension, thyroid, malignant tumor, renal failure, epilepsy and muscle strain

DO NOT use if with with metal or electronic implants (metal contraceptive ring, cardiac pacemaker, cardiac defibrillator, nerve stimulator, drug pump and stent)

IV. WARNINGS

DO NOT use if had undergone plastic surgery with unhealed wounds.

DO NOT use if having allergic reactions.

DO NOT use if with abnormal metabolism of collagen cells, including history of scar and poor wound healing.

DO NOT use if under 18.

V. MACHINE OPERATION

a. Nd:YAG Laser Handle

1. After checking that the handle is connected properly, the starting interface will appear when the power supply is turned on. Select **YAG**.

2. Energy Range: 100~1200. (500~1000 is suggested.) Adjust Energy Level according to the customer's tolerability. Start from lower energy for first use, add up slowly after adapting to the current energy. (The higher the energy, the stronger the feeling of pain.)

3. Adjust Frequency. Range: 0~10 (3~6 is suggested. The higher the frequency, the faster the output.)

Temperature
Light up when operating normally.

Water Condition
Battery Level

V. MACHINE OPERATION

a. Nd:YAG Laser Handle

4. 532 nm: For freckles and dark pigment

1064 nm: for removing tattoos and color pigments

Black face Doll: for oil control and whitening

532 nm

1064 nm

Black face Doll

5. Cleanse the face before the start of the treatment. Apply numbing cream and let it stay on the skin for 15-20 minutes before the start of the treatment.

6. During treatment, it is best to start at a low energy level and adjust to the customer's tolerability. Detailed step-by-step is shown on the chapter for Treatment Diagram.

Carbon Black Doll Facial

Effect

1. Reduce skin blemishes and shrink pores.
2. Eliminate skin dullness and dark spots.
3. Increase skin elasticity and fight skin aging.
4. Improve skin quality and fade spots.
5. Tighten the skin, and remove fine lines.

Applicable Range

1. Those with excessive oil secretion and are prone to acne.
2. Those with enlarged pores and blackheads.
3. Those with dull, coarse skin and fine lines.
4. Those with lax skin.
5. Those who want to improve their skin tone.

V. MACHINE OPERATION

a. Nd:YAG Laser Handle

Inapplicable Range

1. Those whose skin is having an allergic reaction or extremely sensitive.
2. Those in pregnancy, menstruation, or those with heart disease, '3 Hs' (high blood pressure, high cholesterol and high blood sugar).
3. Those who have just undergone plastic surgery and are still recovering.
4. Use with caution for patients with skin diseases and infectious diseases.
5. Those with metal implants or fillers on the treatment area.
6. Those who are allergic to light (solar urticaria, lupus erythematosus) have symptoms such as redness, swelling and oxygen after exposure to the sun.

Reminder after Treatment

1. One week before the operation, do not do the following beauty treatment such as laser, dermabrasion, AHA skin rejuvenation.
2. Do not overly expose under the sun, sunbathe or SPA within one month before treatment.
3. Keep regular life schedule after treatment and pay attention to the combination of work and rest.
4. Apply at least one hydrating mask every day for one week after operation.
5. Do not go to sauna, soak in hot spring or swim within 7 days after the treatment.
6. Use sunscreen whose SPF level is between 30-50. Use physical measures too, like using umbrella when you're out under the sun.
7. Avoid stimulant skin care products and cosmetics, such as those containing AHA, salicylic acid (BHA) and alcohol, for one week after treatment.

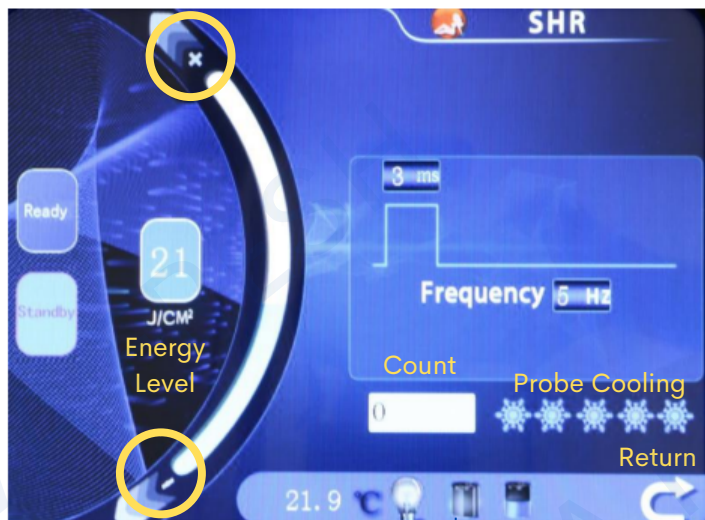

V. MACHINE OPERATION

b. SHR Handle

1. After checking that the instrument is connected properly, the starting interface will appear when the power supply is turned on. Select **SHR**.

2. Energy Range: 0~50 (20~40 is suggested). Adjust Energy Level according to the customer's tolerability. Start from lower energy for first use, add up slowly after adapting to the current energy. (The higher the energy, the higher the temperature).

3. Adjust Probe Cooling. Click the snow icon to adjust. Cooling Range: 0~5 (2~4 is suggested). The more the snow icons appear, the cooler. Adjust subjecting to the customer's tolerability. 3~4 will be okay, and those with stronger tolerability can use 4~5).

Temperature
Light up when operating normally.
Water Condition
Battery Level

V. MACHINE OPERATION

b. SHR Handle

Wavelength	Skin Type	Energy Level Range
480nm~1200nm	For telangiectasia, couperose, inflammatory acne, pimples, etc.	15~35
530nm~1200nm	For dullness, sallowness, wrinkles, fine lines, enlarged pores, etc.	15~40
640nm~1200n	For rejuvenation, hair removal (armpit, limbs, back, hairline, lip hair, bikini, etc.)	20~40

Note: The above data are for reference only and they could be adjusted subjecting to clients' tolerable level to avoid scald.

Full-body Hair Removal

Effect

1. Remove unwanted hair on limbs.
2. Adjust hairline on forehead and neck.
3. Remove fine hair on the chest and back.
4. Remove facial fine hair and smooth skin.
5. Shrink pores and refine skin.
6. Remove hair around the mouth and chin.
7. Brighten and whiten skin.

Applicable Range

1. Those with excessive hair growth on limbs.
2. Those with unwanted hairline on the forehead.
3. Those with unwanted hairline on the neck.
4. Those with excessive hair growth around the mouth and chin.
5. Those with excessive hair growth on the back and large pores and dull skin.
6. Those with excessive hair growth on the face and uneven skin tone.
7. Those with excessive hair growth on the body and private parts.

V. MACHINE OPERATION

b. SHR Handle

Inapplicable Range

1. Those in pregnancy and lactation; those with heart disease, malignant tumor, folliculitis, vascular disease, severe hyperlipidemia, hypertension, hyperglycemia, and other serious diseases.
2. Those with abnormal metabolism of collagen cells, including history of scar and poor wound healing.
3. Those with infected treatment area, herpes simplex, and skin lesion, etc.
4. Those who have just undergone plastic surgery with unhealed wounds.
5. Those who are having allergic reactions.
6. Those with pacemakers.
7. Those who are photosensitive (solar urticaria, lupus erythematosus), and experience swelling, itch and redness when exposed under the sun.
8. Those who have just undergone photoelectric therapy in 30 days.
9. Those who are in their childhood, not yet hit puberty or under 18.

Reminder after Treatment

1. No contact with hot water on treatment area in 6 hours.
2. Avoid sauna, hot spring and swimming in 7 days.
3. If redness appears on face, wait for 1 day before applying make-ups.
4. Use sun protection, such as sunscreen or umbrella after treatment.
5. Avoid applying any products that contain irritating ingredients (e.g. alcohol, acid) on body and limbs in 3 days.

V. MACHINE OPERATION

b. SHR Handle

Photon Rejuvenation

Effect

1. Improve skin blemishes and shrink pores.
2. Eliminate skin dullness and dark spots.
3. Increase skin elasticity and fight skin aging.
4. Help smooth wrinkles and improve skin quality.
5. Effectively tender skin, remove wrinkles and spots.
6. Improve telangiectasia and couperose.

Applicable Range

1. Those with sagging facial skin and fine lines.
2. Those with senile skin changes.
3. Those who want to change the texture of skin, hoping for better elasticity and smoother skin.
4. Those with pigmented spots on the face, such as freckles, sunspots, etc.
5. Those with coarse facial skin, large pores, acne pits and couperose.
6. Those with uneven and dark skin and wish for fairer skin.

Inapplicable Range

1. Those whose skin is having an allergic reaction or extremely sensitive.
2. Those in pregnancy, menstruation, or those with heart disease, '3 Hs'(high blood pressure, high cholesterol and high blood sugar).
3. Those who have just undergone plastic surgery and are still recovering.
4. Use with caution for patients with skin diseases and infectious diseases.
5. Those with implants or fillers at the operating site.
6. Those who are allergic to light (solar urticaria, lupus erythematosus) have symptoms such as redness, swelling and oxygen after exposure to the sun.

V. MACHINE OPERATION

b. SHR Handle

Reminder after Treatment

1. For those who have used topical retinol acid ointment or freckle-removing product before operation, it is recommended to stop taking the medicine for 1 week before doing photon skin rejuvenation.
2. One week before the operation, do not do the following beauty treatments such as laser, dermabrasion, AHA skin rejuvenation.
3. Keep regular life schedule after treatment and pay attention to the combination of work and rest.
4. Apply at least one hydrating mask every day for one week after the treatment.
5. Do not go to sauna, soak in hot spring or swim within 7 days after the treatment.
6. Use sunscreen whose SPF level is between 30-50. Use physical measures too, like using umbrella when you're out under the sun.
7. Avoid stimulant skin care products and cosmetics, such as those containing AHAs, salicylic acid(BHA) and alcohol, for one week after treatment.

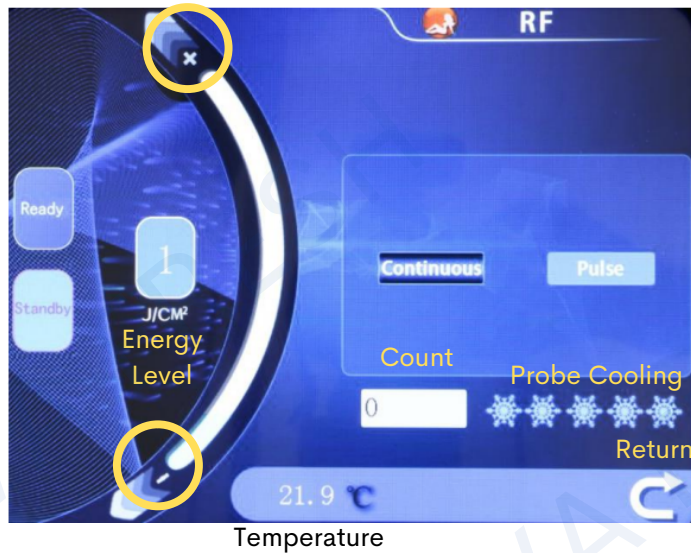

V. MACHINE OPERATION

c. RF Handle

1. After checking that the handle is connected properly, the starting interface will appear when the power supply is turned on. Select **RF**.

2. Energy Range: 0~20 (5~15 is suggested). Adjust Energy Level according to the customer's tolerability. Start from lower energy for first use, add up slowly after adapting to the current energy. (The higher the energy, the higher the temperature.)

3. Select "Continuous" for large treatment area. This makes the pulse energy output continuously. Select "Pulse" for small treatment area. This makes the pulse energy output on every operation.

4. Adjust Probe Cooling. Click the snow icon to adjust. Cooling Range: 0~5 (2~4 is suggested). The more the snow icons appear, the cooler. Adjust subjecting to the customer's tolerability. 3~4 will be okay, and those with stronger tolerability can use 4~5).

V. MACHINE OPERATION

c. RF Handle

Full-body Shaping

Effect

1. Relieve stretch marks and marks caused by weight reduction.
2. Tighten the skin, anti-aging.
3. Stimulate collagen regeneration and improve skin metabolism.
4. Tighten the back and improve the shape.
5. Shape the waist and abdomen, and eliminate excess fat on the waist.
6. Tighten excess fat on the legs and improve leg shape.
7. Remove flabby and jiggly arms, and improve cellulite.

Applicable Range

1. Those with loose and saggy skin, lack elasticity.
2. Those with excess fat on the waist and abdomen due to sitting for long hours.
3. Those with relaxation waist and back.
4. Those with collagen loss and poor skin metabolism.
5. Those with postpartum saggy skin.
6. Those who have postpartum stretch marks on the abdomen and legs and want to look better.
7. Those with coarse and dull skin.

Inapplicable Range

1. Those who are in menstruation, pregnancy, lactation and operation recovery.
2. Those with hypertension, heart disease, diabetes, severe thyroid gland, malignant tumor, etc.
3. Those with skin diseases, patients with infectious diseases and skin sensitive period.
4. Those with wounds during recovery from surgery.
5. Those with allergic and severely sensitive skin.
6. People who have just had liposuction.

V. MACHINE OPERATION

c. RF Handle

Reminder after Treatment

1. Keep warm after operation. Avoid cold food, cold air.
2. Shower after 4-6 hours.
3. Drink more warm water to replenish water and speed up metabolism.
4. Avoid overeating or staying up late.
5. Avoid sauna, hot spring or strenuous exercise for 7 days after operation.
6. Avoid miniskirts, shorts, crop top, and short sleeves.

Body-shaping: Legs

Effect

1. Tighten skin and prevent sagging.
2. Stimulate collagen regeneration and increase skin elasticity.
3. Remove the excess fat on the legs.
4. Repair obesity lines and postpartum leg stretch marks.

Applicable Range

1. Those with loose and saggy skin on the legs after childbirth.
2. Those with poor leg proportions.
3. Those with coarse and dull skin.
4. Those with no excess fat on the legs, but with saggy skin.
5. Those who opt for better shape after weight loss.

Inapplicable Range

1. Those who are in menstruation, pregnancy, lactation and operation recovery.
2. Those with hypertension, heart disease, diabetes, severe thyroid gland, malignant tumor, etc.
3. Those with skin diseases, patients with infectious diseases and skin sensitive period.
4. Those with wounds during recovery from surgery.
5. Those with allergic and severely sensitive skin.
6. Those who have just had liposuction.

V. MACHINE OPERATION

c. RF Handle

Reminder after Treatment

1. Keep hips warm, avoid cold food, cold air.
2. Shower 4–6 hours after operation.
3. Drink plenty of hot water to accelerate metabolism.
4. Avoid overeating, staying up late.
5. Avoid sauna, hot spring or strenuous exercise for 7 days after operation.
6. Avoid wearing miniskirts and shorts after treatment.

Shaping Buttocks

Effect

1. Improve blood circulation and speed up metabolism.
2. Improve saggy buttocks, tighten the skin.
3. Stimulate collagen regeneration and increase skin elasticity.
4. Repair obese and postpartum stretch marks.
5. Tighten buttocks, improve the shape.

Applicable Range

1. Those with sagging buttocks and excess fat.
2. Those who opt for good shape, and with flat buttocks.
3. Those with postpartum loose and saggy buttocks.
4. Those with postpartum stretch marks.

Inapplicable Range

1. Those who are in menstruation, pregnancy, lactation and operation recovery.
2. Those with hypertension, heart disease, diabetes, severe thyroid gland, malignant tumor, etc.
3. Those with skin diseases, patients with infectious diseases and skin sensitive period.
4. Those with wounds during recovery from surgery.
5. Those with allergic and severely sensitive skin.
6. Those who have just had liposuction.

V. MACHINE OPERATION

c. RF Handle

Reminder after Treatment

1. Keep hips warm and avoid wearing miniskirts and shorts.
2. Shower 4-6 hours after the treatment.
3. Drink plenty of hot water to avoid cold air.
4. Avoid staying up late, drinking and overeating.
5. Avoid eating raw, cold and spicy foods and get enough sleep.
6. Avoid sauna, hot spring or strenuous exercise for 7 days after operation.

Shaping Back

Effect

1. Tighten the skin and shape the back.
2. Firm skin and increase skin elasticity.
3. Prevent skin relaxation and sagging.
4. Improve excess fat on the back.
5. Increase blood circulation and metabolism.
6. Improve coarse skin on the back

Applicable Range

1. Those with postpartum back atrophy, sagging, lack of elasticity.
2. Those with excess fat on waist and back.
3. Those with coarse, dull skin, acne scars on the back.
4. Those with no excess fat on the waist and abdomen, but with saggy skin.
5. Those with thick back and want to look better in clothes.

Inapplicable Range

1. Those with metal implants in the body, such as stents and pacemakers, are allergic to metal.
2. Those who are having pregnancy, menstruation and lactation.
3. Those whose surgical wound is healing or convalescence.
4. Those who has heart disease, epilepsy and severe diabetes and hyperthyroidism.
5. Those with malignant tumor and hemophilia or severe bleeding.
6. Those with skin diseases and infectious diseases.

V. MACHINE OPERATION

c. RF Handle

Reminder after Treatment

1. Keep warm, avoid cold air and drink plenty of hot water.
2. Shower 4-6 hours after the treatment.
3. Avoid staying up late, drinking and overeating.
4. Avoid raw, cold and spicy foods and get enough sleep.
5. Avoid shoulder-baring and backless clothing.

Shaping Arms

Effect

1. Stimulate collagen hyperplasia in the bottom of the skin to shape and firm it.
2. Improve loose skin.
3. Improve flabby arms and thick arms.
4. Soothe and firm loose skin.
5. Tighten skin.

Applicable Range

1. Those with thick arms and want to look better in clothes.
2. Those with jiggy and flabby arms.
3. Those with loose arm skin.
4. Those with no excess fat on arms, but with jiggy arms.

Inapplicable Range

1. Those who have just had plastic surgery.
2. Those with hypertension, heart disease, diabetes, severe thyroid gland, malignant tumor, etc.
3. Those who are allergic and has severely sensitive skin.
4. Those with skin trauma or cut.
5. Those who are overly old.
6. Those who are pregnant and who are recovering from surgery.
7. Those with skin diseases and infectious diseases.

V. MACHINE OPERATION

c. RF Handle

Reminder after Treatment

1. Keep warm after operation. Do not eat cold food.
2. Shower 4-6 hours after the treatment.
3. Drink plenty of warm water to stay hydrated.
4. Avoid overeating or staying up late.
5. Avoid sauna, hot spring or strenuous exercise within one week after operation.

Shaping Breasts

Effect

1. Adjust chest type and reduce accessory breast.
2. Improve breast laxity, sagging.
3. Reduce chest expansion.
4. Alleviate postpartum breast atrophy, breast relaxation

Applicable Range

1. Those who want to improve breast shape.
2. Those with breast laxity, expansion.
3. Those who postpartum breast atrophy, breast relaxation.
4. Those with breast sagging.
5. Those with breast relaxation and wrinkles.

Inapplicable Range

1. Those with cardiovascular and cerebrovascular diseases, diabetes mellitus, abnormal coagulation function and impaired vital organ function.
2. Those who are long-term or ongoing users of anticoagulants, vasodilators, corticosteroids and other drugs.
3. Those with infectious lesions on the chest skin.
4. Patients with severe thoracic proliferative or fibroma or cyst.
5. Those in pregnancy and lactation.

V. MACHINE OPERATION

c. RF Handle

Reminder after Treatment

1. Keep warm and drink more lukewarm water.
2. Wear styled and comfortable underwear. Don't press your chest hard.
3. Avoid getting cold. Take a bath after 4-6 hours.

Shaping Waist & Abdomen

Effect

1. Tighten the skin on the waist and abdomen.
2. Reduce lumbar and abdominal fat, such as beer belly and love handles.
3. Tighten skin and increase skin elasticity.
4. Relieve stretch marks, obesity lines.
5. Accelerate metabolism.

Applicable Range

1. Those with lumbar and abdominal fat.
2. Those with sagging skin after birth.
3. Those who sit for a long time, or with unideal waistlines.
4. Those with striae due to obesity and pregnancy.
5. Those with no excess fat on the waist and abdomen, but with saggy skin.

Inapplicable Range

1. Those with "3 H" (hypertension, hyperglycemia, hyperlipidemia) and who have heart disease.
2. Those in pregnancy, menstruation or lactation.
3. Those who have just undergone surgical wounds or convalescents.
4. Those with epilepsy and severe diabetes and hyperthyroidism.
5. Those with malignant tumors, hemophilia or severe bleeding.
6. Those with skin diseases and infectious diseases.
7. Those with severe gynecological diseases.
8. Those whose gynecological diseases are being treated.

V. MACHINE OPERATION

c. RF Handle

Reminder after Treatment

1. Avoid crop top or anything exposing waist and abdomen as well as cold and windy environment.
2. Avoid binge eating or drinking. No alcohol, no spicy and greasy food. Staying up late should be avoided. Drink warm water.
3. Keep abdomen warm. Take a bath after 4-6 hours.
4. Steam sauna, hot spring or strenuous exercise should be avoided within 7 days after operation.
5. Before going to bed at night, you can rub your abdomen clockwise with your hands, so as to better the effect of weight loss.

Face & Neck Wrinkle Removal

Effect

1. Promote collagen regeneration and increase skin elasticity.
2. Improve loose and saggy skin, firming skin.
3. Lift triangle subalar and eye corner.
4. Build the facial contours.
5. Reduce law lines, glabella lines, eye lines, etc.
6. Improve skin quality, delicate skin, shrink pores.
7. Remove double chin, neck lines, wrinkles, etc.

Applicable Range

1. Those with loose, saggy skin, and skin lack of elasticity.
2. Those with collagen loss.
3. Those with wrinkles, fine lines, etc.
4. Those with unclear facial contours and jawlines.
5. Those with double chin and neck lines.
6. Those with dull skin.

V. MACHINE OPERATION

c. RF Handle

Inapplicable Range

1. Those who have just undergone plastic surgery which have implanted prostheses, metal materials and so on.
2. Those who have done injection products recently, such as hyaluronic acid, intradermal injection, wrinkle removal, or plastic surgery.
3. Those with hypertension, heart disease, diabetes, severe thyroid and malignant tumors.
4. Those who are having an allergic reaction, or people with severe sensitive skin or allergic to metals.
5. Those with skin trauma or wound.
6. Those in menstruation, pregnancy, lactation, surgical recovery.
7. Those with skin diseases and infectious diseases.

Reminder after Treatment

1. Do not wash your face with hot water within three days (lukewarm or cold water is recommended).
2. Use moisturizer and sunscreen, avoid overly expose under the sun.
3. Use facial mask and neck mask at least 3 times a week.
4. It is best not to use alcohol, fruit acid and scrub products within 1-3 days after the treatment.
5. Avoid washing your face with hot water, steaming sauna, hot springs or strenuous exercise within 7 days after the operation.
6. Spicy, greasy food should be avoided. Staying up late, smoking and drinking are prohibited. Eat more vegetables, fruits, and less greasy food.
7. Keep the neck warm.
8. Apply neck essence or cream.
9. Avoid bowing the head for a long time.

V. MACHINE OPERATION

d. E-LIGHT

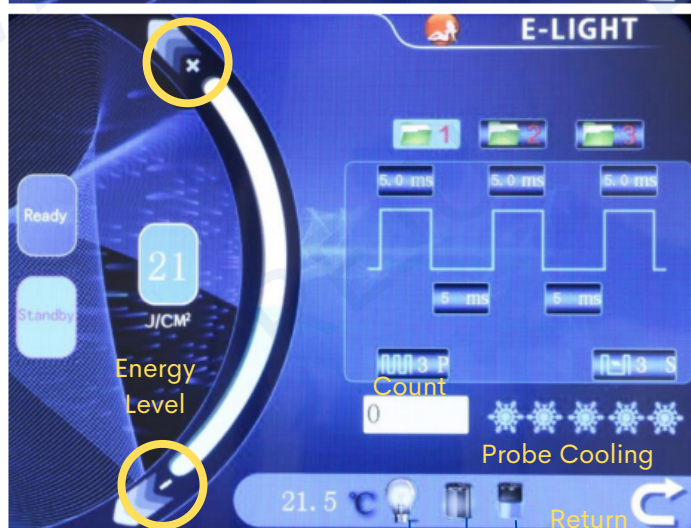

1. After checking that the handle is connected properly, the starting interface will appear when the power supply is turned on. Select **E-LIGHT**.

2. Select the type of treatment according to the client's needs.

3. Energy Range: 0~50 (20~40 is suggested.). Adjust Energy Level according to the customer's tolerability and hair thickness. Start from lower energy for first use, add up slowly after adapting to the current energy. (The higher the energy, the higher the temperature).

Temperature
Light up when operating normally.
Water Condition
Battery Level

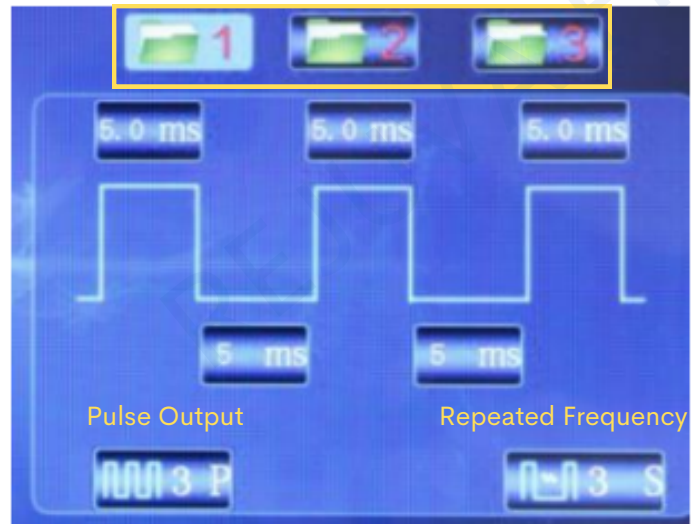

V. MACHINE OPERATION

d. E-LIGHT

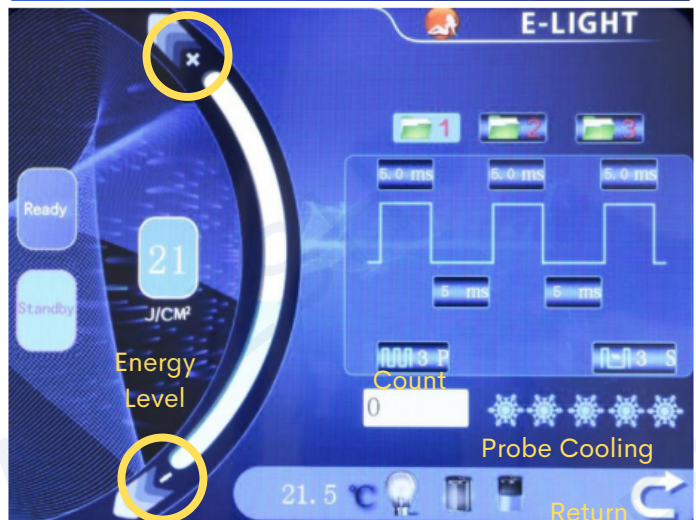

4. Select the mode of treatment according to the client's needs.

This has three modes:

- 1: Suitable for those who have thin and light hair.
- 2: Suitable for those who have thick and dark hair.
- 3: Suitable for those who have thick and light hair

5. Adjust Probe Cooling. Click the snow icon to adjust. Cooling Range: 0~5 (2~4 is suggested). The more the snow icons appear, the cooler. Adjust subjecting to the customer's tolerability. 3~4 will be okay, and those with stronger tolerability can use 4~5)

Detailed step-by-step is shown on the chapter for Treatment Diagram.

VI. TREATMENT DIAGRAM

Parameters	Product	Techniques	Diagrams
Carbon Black Doll Facial: 50 min, once/3weeks			
Probe: 1320nm (Black) Energy: 300~1000 Frequency: 3~6	Makeup remover+ Cleanser+ Hot steam+ Carbon powder+ Facial mask+ Goggles	<ol style="list-style-type: none"> 1. Remove makeup and clean, 5 min. 2. Facial hot steam, 10 min. 3. Apply a thin layer of carbon powder evenly on face. 4. Wait for 10-20 min for the carbon powder to completely dry. 5. Put on protective eyewear for the customer. Adjust energy level, mode and start. 6. Put the device to the treatment area and depress the foot pedal to start operation. 7. Move slowly from the chin in lines. 8. Absorb all carbon powder with device. 9. Take off the goggles. 10. Wash face with cleanser, 3 min. 11. Apply soothing&repair face mask+cold steam, 15 min. 12. Wash face, 2 min. 13. Apply toner, hydrating essence, hydrating cream and sunscreen. 	No diagrams
<p>Suggested Treatment: 5 treatments account for one full course. After one treatment, skin will be slightly red but skin tone is brighter. After 3-4 treatments, skin appears to be translucent, and hydrated. After one full course, fine lines and dark spots are gradually disappearing, and pores are refined. 2 courses help consolidate the effects and delay skin aging.</p>			

VI. TREATMENT DIAGRAM

Tattoo Removal: 60 min, once/45-90 days			
Probe: 1064nm (Red) 532nm (Blue) Energy: 500~1000 Frequency: 3~6	Anesthetic+ Ultra Repair liquid recovery	<ol style="list-style-type: none"> 1. Wipe the treatment area with wet towel and apply anesthetic. 2. Cover preservative film on the anesthetic to strengthening the effect, wait for 25-30 min. 3. Wipe anesthetic off and clean the treatment area. 4. Select probe (1064nm) and install. 5. Adjust energy parameters and start. 6. Both the customer and the operator wear goggles. 7. Wear disposable sterile gloves. 8. Operate black part of the tattoo with the device: Pinpoint treatment area with the probe, depress the foot pedal, and move accordingly, covering the black part of the tattoo. 9. Click pause to change the probe (532nm) and adjust energy parameters. 10. Operate colored part of the tattoo with the device: Pinpoint treatment area with the probe, depress the foot pedal, and move accordingly, covering the colored part of the tattoo, 1-2 times. 11. Dab repair liquid on treated area. 	No diagrams
Suggested Treatment: Complete removal of one tattoo requires around 3-6 treatments (varies according to the tattoo color and each individual's metabolism). After 1-2 treatments, pigments are

visibly faded. Tattoo is gradually disappearing around 3-4 times. Tattoo will be completely removed after 5-6 treatments.

Tattooed Eyebrow Removal: 60 min, once/45-90 days

Probe: 1064nm	Anesthetic+ Disposable tissue+ Ultra Repair liquid recovery	<ol style="list-style-type: none"> 1. Wipe the treatment area with wet towel and apply anesthetic. 2. Cover preservative film on the anesthetic to strengthening the effect, wait for 25-30 min. 3. Wipe anesthetic off and clean the treatment area. 4. Select probe and install. 5. Adjust energy parameters and start. 6. Both the customer and the operator wear goggles. 7. Wear disposable sterile gloves. 8. Operate tattooed eyebrows part with the device: Pinpoint treatment area with the probe, depress the foot pedal, and move accordingly, covering the tattooed eyebrows part, 1-2 times. 9. Dab repair liquid with cotton swab and apply gently on treated area. 10. Do the same on the other side. 	No diagrams
------------------	--	--	-------------

Suggested Treatment:

Complete removal of tattooed eyebrow requires around 3-6 treatments (varies according to the tattoo color and each individual's metabolism). After 1-2 treatments, pigments are visibly faded. Tattoo is gradually disappearing around 3-4 times. Tattoo will be completely removed after 5-6 treatments.

Mole Removal: 50 min, once/month

Probe:	Anesthetic+	1. Wipe the treatment area	No Diagrams
--------	-------------	----------------------------	-------------

VI. TREATMENT DIAGRAM

532nm Energy: 500~1000 Frequency: 3~6	Disposable tissue+ Ultra Repair liquid recovery	with wet towel and apply anesthetic, wait for 25-30 min. 2. Wipe anesthetic off and clean the treatment area. 3. Select probe (532nm) and install. 4. Adjust energy parameters and start. 5. Both the customer and the operator wear goggles. 6. Wear disposable sterile gloves. 7. Operate the mole part with the device: Pinpoint treatment area with the probe, depress the foot pedal, and move accordingly, covering the mole part, 2-5 times. 8. Dab repair liquid with cotton swab and apply gently on treated area.	
Suggested Treatment: Complete removal of mole normally takes 3-4 treatments. After 1 treatment, pigments are visibly faded. Tattoo is gradually disappearing around 3-4 times. Tattoo will be completely removed after 5-6 treatments. Chorioplague and active moles take around 3-6 treatments. After one treatment, pigments are visibly faded and are gradually disappearing after 2-3 treatments. Pigments will be completely removed after 4-6 treatments.			
Note: Techniques of dark spots, birthmark removal is the same as mole removal.			
Full-body Hair Removal: 100 min, 3 times/week			
Energy: Arms: 30~55 Armpits: 25~40 Legs: 30~50 Frequency: Arms: 2~5 Armpits: 3~8 Legs: 2~5	Razor+ Gel	1. Shave arm: shape hair on arms and fingers with razor. 2. 			<p>Technique 16</p> 
			<p>Technique 17</p> 
			<p>Technique 18</p> 
			<p>Technique 19</p> 
<p>Suggested Treatment:</p> <p>Ten treatments account for one full course of treatment. Once done, abdomen is heating up, metabolism is accelerated. After one course, fat slowly reduce through metabolism, body starts to slim down. Constipation and other issues are addressed at the same time. After 2 courses the effect gradually becomes obvious, skin is tightened and lifted, skin collagen increased. Stretch marks and flabby skin are also improved. 3 courses help reinforce the effect. Redundant adipose gradually disappear, lumbar abdomen curve starts to take in shape, and slim waist starts to show.</p>			

VI. TREATMENT DIAGRAM

Shaping Breasts: 60 min, once/2 weeks			
<p>Probe: Big</p> <p>Energy: 5~15</p> <p>Mode: Constant mode</p>	<p>Massage cream (essential oil)+ Gel+Towel</p>	<ol style="list-style-type: none"> Stand at the head of the bed, both hands from Shanzhong (Ren-17), zhong point began to rub oil to armpit up at the same time lift the suspension ligament (this is to caress treatment area) 3 times. Both hands thumb point: Shanzhong (Ren-17), Rugen (St-18), Dabao (SP-21), Yingchuang (St-16), Zhongfu (LU-1), Yunmen (LU-2), 3 times. Caress the treatment area, 3 times. Overlap both palms from Shanzhong (Ren-17) point to chest both sides back and forth as if writing an "8" number, 3 times. Lift the accessory breast to the suspensory ligament alternately with both hands, first left, then right, 10 times. Caress the treatment area, 3 times. Sit beside the customer, first left, then right, with both hands to soothe and lift the chest, 3-5 times. Alternately push the breast duct around the chest (one circle of the chest), 3-5 times. Use the thumb to dredge the nodules in the chest, 3 times. Do the same on the 	<p>Technique 1, 3, 6, 11</p>  <hr/> <p>Technique 2</p>  <hr/> <p>Technique 4</p>  <hr/> <p>Technique 5</p>  <hr/> <p>Technique 7</p>  <hr/> <p>Technique 8, 13</p>

VI. TREATMENT DIAGRAM

	<p>other side with technique 8 and 9, 3 times each.</p> <p>11. Lift the whole chest with hands, 3-5 times.</p> <p>12. Wipe clean the breasts with towel and apply gel evenly.</p> <p>13. Snow ice cooled RF First left, then right, from the bottom to the top along the direction of the chest to the nipple, combined with hand pacification, 5-8 times.</p> <p>14. Draw half a circle along the chest to lift and pull from the bottom to the collarbone, combining with hand comfort, 5-8 times.</p> <p>15. Make small circles to clear the nodule site for 3-5 times.</p> <p>16. The customer lies on her side and stands up with her arms. The device burns fat in circles at the position of auxiliary breast, 5-8 times.</p> <p>17. The instrument is pushed from the position of underarm auxiliary breast to the chest (shaping and receiving auxiliary breast), 5-8 times</p> <p>18. The technique on the other side is the same as above.</p> <p>19. Clean with hot towel.</p>	 <p>Technique 9, 15</p>  <p>Technique 14</p>  <p>Technique 16</p>  <p>Technique 17</p> 
<p>Suggested Treatment: 10 times account for a course of treatment. After a full course, breasts will experience heat, blood circulation is boosted, and a certain improvement effect will be seen. After a course of treatment, the effect is more obvious, nodules are improved. 3 courses help tighten the skin and consolidate shaping effect, and increase the elasticity of the breasts. Regulating endocrine makes women more attractive.</p>		

VI. TREATMENT DIAGRAM

Shaping Arms: 60 min, once/2 weeks			
<p>Probe: Big</p> <p>Energy: 5~15</p> <p>Mode: Constant mode</p>	<p>Essential oil (Massage cream)+ Ultrasonic gel</p>	<ol style="list-style-type: none"> 1. Left-right order: lay the arm flatwise, apply and rub oil in from lower arm to the entire arm and slide to the fingers, 3 times. 2. Push the entire arm with both palms, 3 times. 3. Push hands upwards tracing three main collateral channels: Large Intestine Meridian (LI) - Triple Energizer Meridian (TE) - Small Intestine Meridian (SI) to armpits with fingers spread and hukou pointing upwards, 3 times. 4. Caress the treatment area, 3 times. 5. Trace and rub three main collateral channels on arms with kneeling finger back and forth till them turn hot, 3 times. 6. Caress the treatment area, 3 times. 7. Lay inner arm upwards, and push hands tracing three yin channel on inner arm: Lung Meridian (LU) - Pericardium Meridian (PC) - Heart Meridian (HT) to armpit, with hukou pointing upwards, 3 times respectively. 8. Rub three channels back and forth with kneeling fingers, 3 times. 9. Caress the treatment area and slide to fingers. 10. Repeat the previous operation on another side. 11. Wipe clean arms and 	<p>Technique 1</p>  <hr/> <p>Technique 2, 3, 4, 5, 6</p>  <hr/> <p>Technique 7</p>  <hr/> <p>Technique 8</p>  <hr/> <p>Technique 9</p>  <hr/> <p>Technique 12, 15</p>

VI. TREATMENT DIAGRAM

		<p>apply gel evenly.</p> <p>12. Snow ice cooled RF Lay arms flatwise and start from fat part of lower arm, tracing three channels to armpit, 3 times.</p> <p>13. Move the device in annular motion, tracing three channels to armpit, 3 times.</p> <p>14. You may double the operation on flabby arms, 3 times.</p> <p>15. Trace three channels to armpit, 3 times.</p> <p>16. Lay inner arm flatwise and push three channels on upper arm to armpit, 3 times.</p> <p>17. Trace three channels on upper arm and move the device in circles to armpit, 3 times.</p> <p>18. Trace three channels from upper arm to armpit.</p> <p>19. Wipe clean the arm with hot towel.</p> <p>20. Do the same on the other side.</p>	 <p>Technique 13, 14</p>  <p>Technique 16, 18</p> 
<p>Suggested Treatment: 10 treatments account for a full course. Once done, it will feel warm and tight, and the arms will be relaxed. A course of treatment help reducing excessive arm fat and the skin appear to be tight and plump. 2 courses of treatment began to shape the arms, strengthen the effect, dredge meridians, and enhance the physique. 3 courses help consolidate stability and prevent rebound.</p>			
<p>Shaping Back: 60 min, once/2 weeks</p>			
<p>Probe: Big</p> <p>Energy: 5~15</p> <p>Mode: Constant</p>	<p>Essential oil (Massage cream)+ Gel</p>	<p>1. Apply oil on back and press Fengchi (Gb-20), Fengfu (Du-16) points.</p> <p>2. VI. TREATMENT DIAGRAM

<p>Suggested Treatment: 10 treatments account for a full course. After one treatment, leg is relaxed, and circulation is accelerated. After a course of treatment, leg becomes thin, skin collagen tissue experience contraction due to heat effect, and tightening effect can obviously be felt on the skin. After 2 courses, leg is tight and slim, and obvious results are seen. Obesity patterns and stretch marks are faded. 3 courses help consolidate the effect and avoid rebound.</p>			
<p>Full-body Shaping: 180 min, once/2 weeks</p>			
<p>Probe: Big Energy: 5~15 Mode: Constant mode</p>	<p>Essential oil (massage cream)+ Gel</p>	<ol style="list-style-type: none"> 1. Left-right order: lay the arm flatwise, apply and rub oil in from lower arm to the entire arm and slide to the fingers, 3 times. 2. Push the entire arm with both palms, 3 times. 3. Push hands upwards tracing three main collateral channels: Large Intestine Meridian (LI) - Triple Energizer Meridian (TE) - Small Intestine Meridian (SI) to armpits with fingers spread and hukou pointing upwards, 3 times. 4. Caress the treatment area, 3 times. 5. Trace and rub three main collateral channels on arms with kneeling finger back and forth till them turn hot, 3 times. 6. Caress the treatment area, 3 times. 7. Lay inner arm upwards, and push hands tracing three yin channel on inner arm: Lung Meridian (LU) - Pericardium Meridian (PC) - Heart Meridian (HT) to armpit, with hukou pointing upwards, 3 times respectively. 	<p>Technique 1</p>  <hr/> <p>Technique 2, 3, 4, 5, 6</p>  <hr/> <p>Technique 7</p>  <hr/> <p>Technique 8</p>  <hr/> <p>Technique 9</p>

			<p>Technique 80</p> 
<p>Suggested Treatment: 10 treatments account for a full course. After one treatment, body is relaxed and firmed. One course of treatment helps tighten the skin, reduce stretch marks, the back becomes firm and smooth, and the skin tone is brighter. 2 courses of treatment help tighten the limbs and back, reduce excess fat. 3 courses of treatment help strengthening the effect, shape the body, show obvious curve lines.</p>			

VII. FREQUENTLY ASKED QUESTIONS

1. Q: Can you see results after just one treatment of the black doll facial?

A: Black doll facial integrates skin rejuvenation with RF, medical-grade skin care, and so on. One treatment will bring a significant change in the skin. skin appears to be dehydrated, and bright. Fine lines, spots, and pores are visibly improved.

2. Q: Does a black doll facial hurt?

A: It shouldn't hurt in general. Some parts may have a bit prickly feeling. Each person's skin sensitivity is different and feels different.

3. Q: How long is one treatment? How many treatments do I need?

A: Under the general circumstance, if you begin by cleaning your face and end with a facemask, the whole process takes around 40 minutes. The number of treatments depends on the skin condition of each person. Generally, one treatment will have obvious effects. Experts recommend more than three treatments for better results according to the individual's situation and needs.

4. Q: Will E-light photon rejuvenation make skin thinner?

A: A lot of people think E-light photon rejuvenation will burn the skin, and destroy already very flimsy cuticles, like chipping off thin wallpapers. But it's not the case here. Intense pulsed light activates the growth of fibroblasts in the skin, increasing the synthesis of collagen and elastic fibers, and hyaluronic acid. When these newly formed collagen and elastin are rearranged, the skin becomes more elastic, bright and firm, with fewer wrinkles and fine pores. Therefore, E-light photon rejuvenation will not make the skin thinner, but increase the thickness of the skin, and make it more compact and elastic.

5. Q: When can I start seeing results of E-light photon rejuvenation?

A: E-light photon rejuvenation penetrates the skin, treats deep skin pathological changes, and causes collagen fiber and the elastic fiber to rearrange, restores the elasticity. After receiving photon rejuvenation treatment, it can effectively improve skin color and remove skin impurities, so after each treatment, the skin will be improved, some wrinkles, freckles, black spots, irregular pigmentation,

VII. FREQUENTLY ASKED QUESTIONS

the capillary expansion will gradually disappear. And the skin will become much brighter, and there are even other improvements such as smaller pores and younger and more elastic skin tissue.

6. Q: How often can I do E-Light photon rejuvenation treatment?

A: Compared with other treatments, photon skin rejuvenation treatment is shorter, and each treatment only needs 15-20 minutes to complete. A course of treatment is generally 5 times, each treatment interval is about 3 weeks. In order to be able to better maintain the effect, a course of treatment should be followed by touch-up treatments and every treatment interval should be around 4-6 months, which also suits the busy urban lifestyle.

7. Q: Will I grow dependent on E-light photon rejuvenation?

A: People who hold this view do not have a clear understanding of the law of aging. The aging of human skin is continuous and will not be stopped because of anything. All of our efforts can only slow down the pace of aging, so E-light photons will not be relied on to rejuvenate the skin.

8. Is E-light hair removal permanent after one treatment?

A: No. Depilation needs you to consistently complete the full course of treatment so as to achieve satisfactory result. When undertaking laser depilation, one treatment is needed every 3-6 weeks (decide on the interval time according to different treatment area). Hair growth consists of 3 periods, namely anagen, catagen and telogen phase. Depilation is optimal only in the growth period, and owing to the fact that time span of hair growth varies among different parts of the body, and that's why we'll provide you with a customized treatment plan according to your hair growth, hair density on different parts of the body.

9. Q: What is the difference between black doll facial and E-light photon rejuvenation, which one is better?

A: Black doll facial integrates skin rejuvenation with RF, medical-grade skin care and so on. By irradiating carbon, high heat energy is generated, which is transmitted to the dermal layer and completely removes the aging cut-in and

VII. FREQUENTLY ASKED QUESTIONS

fully stimulates the skin cells' regeneration, restores collagen fibers, and elastic fibers. Black doll facial can repair the collagen fibers and initiate the orderly deposition and arrangement of new collagen with the body's repair function, thereby instantly whitening the skin, shrinking pores, and making the skin regain its original elasticity. Photorejuvenation penetrates the epidermal layer with specific broad-spectrum strong pulsed light, and the energy is absorbed by the pigment clusters in the skin to solidify the blood vessels, and the pigment clusters and pigment cells are broken and decomposed, so as to achieve the treatment of telangiectasia and fade spots, whitening and rejuvenating skin, removing fine lines. Black doll facial can boost collagen regeneration, firming and softening the skin, and shrinking pores. The main function of the first treatment of black doll facial is to deep cleansing so that the essence and skin care products that you applied are really absorbed; after 5-6 treatments, it improves enlarged pores. Photon rejuvenation can selectively decompose melanin and hemoglobin in the skin, thereby fading spots, red blood streaks, and acne marks, making the skin bright. In summary, photon rejuvenation and black doll facial are different, but both have good effects, and the effects will be better if you use them together.

10. Q: What is the difference between E-light and SHR hair removal?

A: E-light outputs evenly with a square pulse of flat top and cut-off dual wavelength with obvious effects; SHR supports sliding treatment with high power and fast output, and the effect is obvious. The effects will be better if you use them together.

11. Q: What function does this instrument have?

A: This instrument can be used for skin rejuvenation through laser, and it can also wash tattoos, eyebrows, eyeliner, spots, moles and birthmarks, etc. It can also resist aging, remove wrinkles, and tighten skin.

12. Q: How long can the effect of snow ice cooled RF treatment last?

A: The effect after treatment is related to the aging degree. After a course of

VII. FREQUENTLY ASKED QUESTIONS

treatment, the skin is firmer and smoother. Consistent use makes the skin young, and the aging is delayed.

13. Q: Does Snow Ice Cooled RF burn the skin at a temperature of 45-60°C?

A: No, the treatment process is very safe. When the instrument is operated, the epidermis is cooled to about -26°C to avoid epidermal damage and push most of the RF energy to the deep fibrous tissue.

14. Q: How long after treatment can I see the effect?

A: From the day of treatment to one week, the collagen tissue is immediately contracted by heat, so the skin feels tight, and the snow ice cooled RF will stimulate the collagen in the dermis to produce long and continuous rejuvenation, so the improvement will be more obvious after 2-6 months of treatment.

VIII. TROUBLESHOOTING

1. The instrument cannot be started, but the key light on the back of the instrument does not work.

- A. Make sure the power cord is connected to a valid power socket.
- B. Whether the fuse tube on the back of the instrument is loose or burnt out.
- C. Check if the emergency button is on.

2. No light flash?

- A. Check whether the start button is pressed after the parameters are adjusted.
- B. Turn off the device and restart.
- C. Check if you forget to push the foot pedals.

3. Carbon powder cannot be spread out?

- A. Please check whether the selection mode is wrong.
- B. Please check whether the carbon powder is completely dry.

4. There's an unpleasant odor coming from the handles

- A. Check if the probe is clean or if there's hair residue.
- B. Wipe the probe clean.

5. I can't install the filter?

- A. Please check whether the filter is installed inversely.

6. There is no energy output from snow ice cooled RF handle?

- A. Please check whether the instrument handle and the plug connected to the machine,
- B. Please check whether the treatment part has been cleaned. Grease or oily essential oil products may cause poor contact between the treatment handle and the human body, resulting in no RF output.
