Remember

- Please use the USB power adapter of the cell phone or other digital device to charge the power bank. We recommend an adapter with at least 5V/1A. You can also use your computer USB port.
- Make sure the input voltage of your digital products fits the output voltage of the power bank.
- Please make sure to remove the adapter after the power bank is fully charged.
- Do not drop, disassemble, crush, bend, deform, puncture, shred, microwave, paint or insert foreign objects into this power bank.
- Do not put this product into liquids, fires, or a high temperature environment.
- Power adapters with less amps will charge battery more slowly.
