CANVAS

THE ZOE CANVAS CONCEPT

The ZOE Canvas Concept was built around the idea of offering an affordable & basic machine with the option of creating a unique design identity for each client. Allowing each client to have a “Show Piece” coffee identity on their bar.

Due to the ZOE’s simple & clean cut outer shell, it allows us to create unique and professional design on the ZOE chassis that fits the clients restaurant design, imagery and aesthetics.

*****Pricing to brand machine is dependent on customer design and colour scheme**
