Fire Bird Abrasives

Cutting Discs

Fire Bird metal cut-off discs are designed for fast performance and long life when cutting mild steels, sheet metals and stainless steels. Perfect for cutting profiles and pipes. Designed to perform burr free cutting. The latest generation of high performance cutting discs.

Part Number	Description	Wrap	Box	Carton
ABCDFB115X1	115 X 1 X 22.2	10	100	400
ABCDFB125X1	125 X 1 X 22.2	10	50	400

ABCDFB230X3.2	230 X 3.2 X 22.2	10	50	100

Grinding Discs

Fire Bird grinding disc designed for fast removal of material made to be used on mild steels, sheet metals and stainless steel. Designed to be fast and aggressive with a high material removal rate. Maintains an aggressive grinding edge with less wear and a dramatically longer life than standard aluminum oxide disks.

Part Number	Description	Wrap	Box	Carton

Fire Bird Brushes

4 Row Wire Scratch Brushes

Stainless Steel

Mild Steel

Fire Bird hand brushes are ideal for rust removal, paint and dirt from any kind of surface. Stainless steel brushes are best suited when working on stainless, aluminum and other nonferrous metals to eliminate the chance of after-rust appearing on the work surface.

Angle Grinder Brushes

Fire Bird wire brushes are an excellent choice for scraping corrosion and decay, dust, slag, weld splatter, and other unwanted surface particles with angle grinders. The Fire Bird Wire wheels for Grinders are ideal for different types of handheld grinders. The Wire Brush is an abrasive tool used for rust cleaning and paint removal.

Fire Bird Burrs

Double Cut Tungsten Carbide Burrs

Fire Bird Tungsten carbide burrs are used for rapidly shaping, cutting, removal of sharp edges, burrs and smoothing welds. They're able to be used on a wide range of materials including stainless steel, aluminum and cast iron, acrylics, fibreglass and plastics. The 'double cut' style will leave a smoother finish than single cut due to producing smaller chips as they cut away the material.

Five Piece Set - CFBKIT-5PC

Fire Bird Drills

SDS+ Concrete Drill Bits

Fire Bird SDS+ Cross-head Concrete Drill Bits are designed for smooth drilling, maximum spoil/material removal and long life. They have four tungsten carbide cutting edges to penetrate the hardest of masonry materials. Made to be used on concrete, brick, block and a wide range of other masonry materials.

7pc SDS+ Concrete Drill Bit Set

Fire Bird Annular Cutters

Fire Bird annular cutters (also called a core drill, core cutter, broach cutter, trepanning drill, hole saw, or cup-type cutter) are a form of core drill used to create holes in metal. An annular cutter, named after the annulus shape, cuts only a groove at the periphery of the hole and leaves a solid core or slug at the center. Fire Bird Annular Cutters are quality high speed steel with vacuum quenching and a tempering process, effectively improve the wear resistance of the cutting edge. Multilayer cutter geometry, improve the centering and chip removal, many types of product performance can drill to meet the needs of the different materials.

Fire Bird High Speed M2 Drill Bits

Fire Bird high speed drill bits are made with accuracy and durability for drilling steel, wood, plastics and a wide range of other materials. Ideal for fixing holes, tapping & clearance and perfect for automotive maintenance, engineering, workshops, plumbing & electrical applications. The split point tip is an extra facet ground on to the end of the drill bit causing it to be more pointed rather than having a straight edge, which assists in centering the drill accurately and reducing wander. The combination of 135° angle and split point design improves penetration rates for faster drilling. Fire Bird reduced shank drill bits have three flat edges ground into the shank, which eliminates the chance of slipping in the jaws of a chuck. Each drill bit is laser etched for fast and lasting size identification.

135° Split Point 1-13mm

Fire Bird HSS Taps

HSS Straight Flute Short Machine and Hand Taps

Fire Bird taps are ideal for creating new threads in a wide variety of materials. HSS taps provide a high hardness to toughness ratio, compressive and tensile strength, good abrasion resistance and resistance to micro-chipping, ensuring a long tool life.

TAPER TAPS have a lead of eight threads and are used as a starting tap in difficult or high precision holes.

INTERMEDIATE TAPS have a lead of four threads and are used in most general purpose applications to cut a thread true to a pre-drilled pilot hole.

BOTTOMING TAPS have a lead of two threads and are used to ensure minimum thread run-out when tapping to the bottom of a blind hole. Bottoming Taps are typically preceded by the use of a Taper or Intermediate Tap.

Cleaning & Tape

Industrial Hand Cleaner

Fire Bird heavy duty hand cleaner with a fresh lime fragrance .
All natural walnut micro beads.
For grease, grime Tar paint many other soils.

Part Number	Description
CHFBHCM4-4L	HAND CLEANER 4L DISPENSER PODS
CHFBHCM-5L	HEAVY DUTY NATURAL HAND CLEANER 5L
CHFBHCM-18KG	HEAVY DUTY NATURAL HAND CLEANER 18KG

Industrial Degreaser

Fire Bird industrial degreaser removes Grime, oil, Diesel, Grease, fat, carbon, cooking oils, Dirt, grass stains.
So many different uses, designed to be sprayed on, most surfaces
use with care: diluted with water.

Part Number	Description
CHFBHD-5L	EXTRA HEAVY DUTY DEGREASER 5L
CHFBHD-20L	EXTRA HEAVY DUTY DEGREASER 20L

Cloth Tape

Part Number	Description	Sold Each	Carton
TACTFB48X30BLACK	Black 48mm x 30M x 0.25mm	Yes	48
TACTFB48X30BLU	Blue 48mm x 30M x 0.25mm	Yes	48

TAITFB19X20YEL	Yellow 19mm x 20M x 0.13mm	Yes	10

Compressed Workshop Rags

Part Number	Description	Sold Each	Pallet Size
MPFBRAGS-MIX2.5KG	Mixed Cotton Compressed 2.5kg	Yes	
MPFBRAGS-MIX10KG	Mixed Cotton Compressed 10kg	Yes	45
MPFBRAGS-MIX16KG	Mixed Cotton bag 16kg	Yes	45
MPFBRAGS-WH10KG	White Cotton Compressed 10kg	Yes	45
MPFBRAGS-TWL5KG	White Toweling Compressed 5kg	Yes	45

Paint Rollers

GRIZZLYPRO

Ultra Glide Lite Roller Frames

GrizzlyPRO ultra glide-lite aluminium frames makes for 30% lighter use, reducing fatigue and increasing productivity.

Ultra glide-lite double-bearing roller system comprises 6 wire cages (on 230mm and 270mm models) for superior smooth gliding.

We also have the mini version for the 110mm mini-rollers and the adjustable version for size 250mm to 400mm.

Professionals simply need to slide their desired paint rollers into the arms, and for the extendable version, secure the wingnut grip, and they are away!

With a universal threaded handle based on all models, professionals can simply install a GrizzlyPRO extended pole for greater control over your work area.

Product Name	Code
Roller frame 110mm	GZ-RF110
Roller frame 230mm	GZ-RF230MM
Roller frame 270mm	GZ-RF270
Roller frame adjustable 250mm-400mm	GZ-RFADJ250-400

Microfibre Paint Roller Sleeves

Microfibre rollers are suitable for water-based and oil-based paints; they are at best for light to medium-textured surfaces, resulting in the smoothest finish and the thickest coverage. With this soft, porous material, paint is evenly and densely coated over the surfaces.

A 6MM nap roller will produce the smoothest finish as the shorter nap generates fewer bubbles. It is best suited for gloss and semi-gloss paints. Ideal for use on walls, ceilings, cabinetry, wood, and other surfaces without texture, including metal.

A 10MM nap roller is best suited for light to medium textured surfaces and produces seamless results. Ideal for use on ceilings, drywall, and lightly textured surfaces, including most interior walls.

A 15MM nap roller is a good length for moderately textured walls, paneling and painted brick or concrete. Professionals prefer a much thicker nap (or length of fabric) as it is able to hold more paint, meaning fewer trips to the paint tray and a wetter edge for seamless results.

Product Name	Code	Carton Size
1PC OF 10 110mm Microfiber sleeves 10mm nap	GZ-REDLABEL11010-1	48
1PC OF 10 110mm Microfiber sleeves 6mm nap	GZ-REDLABEL11006-1	48
1PC 270mm Microfiber sleeves 10mm nap	GZ-REDLABEL27010-1	48
1PC 230mm Microfiber sleeves 10mm nap	GZ-REDLABEL23010-1	48
1PC 270mm Microfiber sleeves 15mm nap	GZ-REDLABEL 27015-1	48
1PC 270mm Microfiber sleeves 6mm nap	GZ-REDLABEL 27006-1	48

1PC 360mm Microfiber sleeves 15mm nap	GZ-REDLABEL36015-1	48

Ultra Premium Draylon Rollers

Draylon is a synthetic and lint-free fabric, providing a smooth and even finish; best suited for water-based and oil-based paints.

A draylon 10mm nap roller is best suited for medium-textured surfaces.

With a 270mm width, this offers optimum balance between coverage and maneuverability.

Product Name	Code	Carton Size
1PC 270mm Draylon sleeves 10mm nap	GZ-BLUELABEL27010-1	48

Industrial Paint Roller Extendable Poles

GrizzlyPRO extendable painters' poles are durable, lightweight but strong without compromising on grip and comfort.

Professionals can easily extend or retract the pole to their desired reach. With increments each of 100mm, set the pole to the desired length, once selected it instantly locks securely into place to avoid twisting or loosening during use.

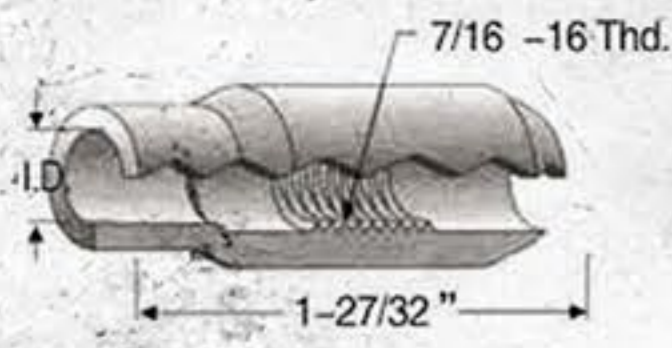

GrizzlyPRO extension poles offer greater stability and smoother rolling application, to give superior results at a realistic price point.

Every pole comes with two bonus universal threads for use with all standard roller frames (with one thread secured at the base of the pole) and another one on the tip of the pole.

Product Name	Code
Extendable Pole 0.3M-0.6M	GZ-POLE1
Extendable Pole 0.6M-1.2M	GZ-POLE2
