

WHERE LEARNING IS FUN

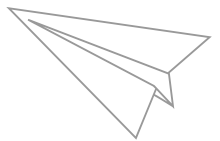

ABOUT

learnngrow, where education and play unite to ignite young minds and pave the way for lifelong learning. Our extraordinary range of educational toys has been designed to captivate, engage, and inspire children on their educational journey.

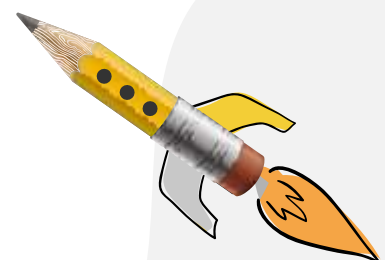

With meticulous care and expertise, we have been designing a captivating toy lineup that seamlessly blends fun and learning. We witnessed firsthand how these engaging toys capture children's attention, encourage exploration, and nurture important skills such as critical thinking, problem-solving, and creativity.

Founded by Ritu Kukreja Rawtani and Reenu Kedia, who quit their day jobs and recognised the importance of play as a powerful tool for learning. We have created a range of educational toys across categories like wooden toys; Animal puzzles; Montessori Products & more.

Together, we have been working on developing and devising learning processes that spark curiosity, foster creativity, and ignite a love for knowledge in children; since 2021!

With this intent of shifting a child's focus from screens to learning while having fun, ilearnngrow makes education more experiential, learner-oriented, and enjoyable.

HOW IS ilearnngrow ENHANCING THE EDUCATIONAL SYSTEM?

1 Ignite Curiosity: Our carefully curated collection of educational toys is crafted to spark curiosity and encourage children to explore the world around them. From colourful building blocks to interactive puzzles, each toy stimulates young minds and fosters a love for learning.

2 Playful Learning Experiences: At ilearnngrow, we believe that learning should be fun! Our toys seamlessly blend play with educational concepts, making every playtime session an enriching experience. Children engage in hands-on activities that develop critical thinking, problem-solving, and creativity, all while having a blast.

3 Holistic Development: We understand that education goes beyond academic subjects. Our toys are thoughtfully designed to promote holistic development, and nurturing cognitive, social, and emotional skills. Through imaginative play and interactive experiences, children develop confidence, empathy, and resilience.

4 Supporting Parents and Educators: We are committed to providing comprehensive support to parents and educators through activity guides and educational materials.

5 Showcasing ilearnngrow Products During Parents Teachers Meet: We serve to promote the habit of learning through toys and games in school-going children. By offering children a wide selection of toys and related materials through the school system, we wish to allow them to learn by choice and not by compulsion.
