[B-S1179]

# MAVERICK R DASHBOARD DISASSEMBLY

## TOOLS NEEDED FOR INSTALLATION

- T30 Torx Driver

- Phillips Screw Driver

- Pry Tool

A. Use a plastic pry tool to remove the driver and passenger side front trims.

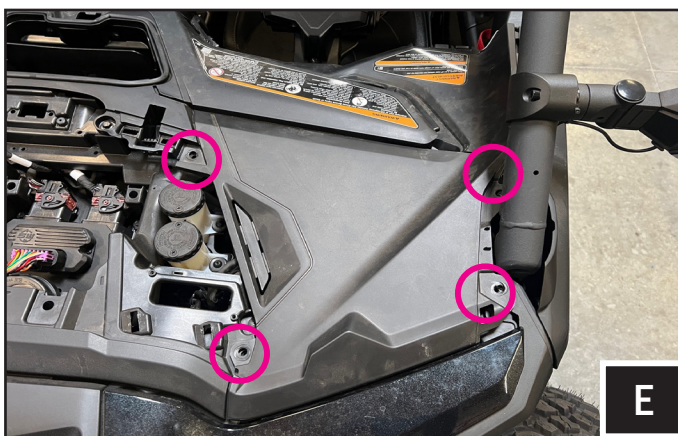

B. Remove the front fuse box cover.

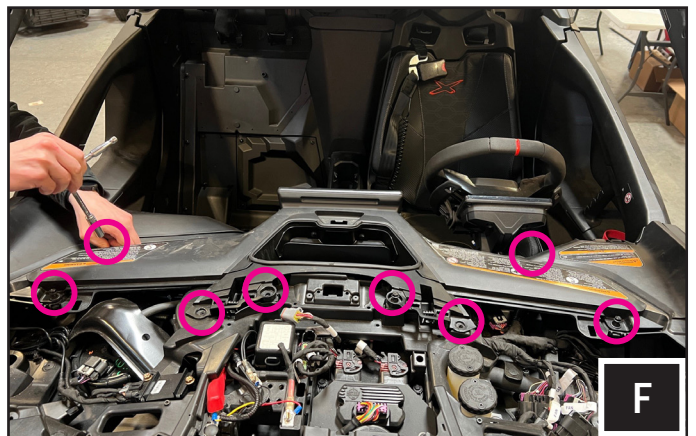

C. Use a plastic pry tool to remove the left and right side center panel trims.

D. Remove the left and right side corner trims using a 3mm allen wrench.

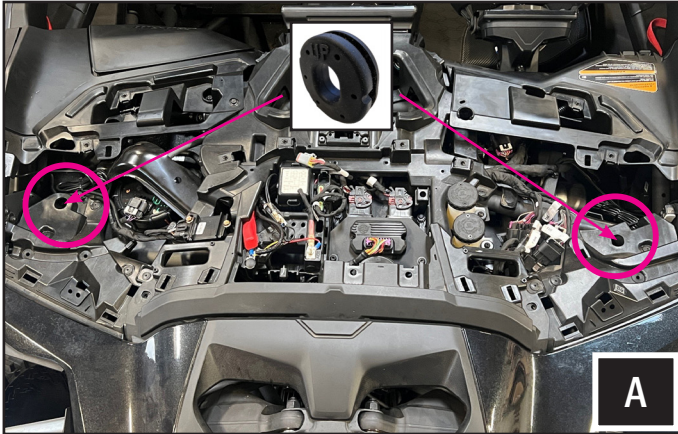

E. Remove the left and right side dashboard panels.

F. Remove the central dashboard.

# MAVERICK R DASH SPEAKER PANEL ASSEMBLY

A. Insert the speaker bucket grommets (included in the kit) to the front dashboard support holes encircled above.

A1. Remove the driver side under seat storage bin by removing the 2 screws fastened to the floor.

B. Hold the speaker bucket to the back side of the Mav R speaker panel.

B. Line up the alignment peg of the speaker bucket to the oval hole on the Mav R speaker panel.

C. Put the panel on the dash and press in the bucket to the rubber grommet. Run the speaker wire to the speaker bucket.

D. Plug in the speaker and mount it to the driver and passenger side Mav R speaker panels using the screws included with the speakers.

# MAVERICK R DASH SPEAKER PANEL ASSEMBLY

Reassemble the dashboard by reversing the disassembly procedure.

A photograph of two Polaris Maverick R vehicles parked in a desert landscape with sand dunes in the background. The vehicles are white with red and black accents. One vehicle has a spare tire mounted on the back. A large, stylized red and white 'THANK YOU!' graphic is overlaid on the bottom left of the image. To the right of the graphic, there is contact information for SSV Works, including a QR code, a website URL, a phone number, and an email address. Below the contact information, there is a small disclaimer about returns.

**THANK YOU!**

We are committed to your satisfaction and we know you will enjoy our products. If you have questions or need any assistance, please let us know.
