ONDERDELEN

MONTAGE-AANWIJZINGEN

- 1** Het frame van de kooi (A) is een compleet stuk, afgezien van de plastic hoeken (B). Hierdoor is het heel gemakkelijk op te bergen wanneer het niet wordt gebruikt.

- 2** Leg de kooi op zijn kant en maak de grendel bij het handvat los.

- 3** Zodra u de grendel heeft losgekoppeld, vouwt u voorzichtig één kant uit en legt u deze voorzichtig neer.

- 4** Trek deze kant vervolgens vanaf het scharnier in het midden omhoog.

- 5** Trek de zijpanelen aan beide kanten omhoog.

- 6** Elk zijpaneel heeft aan de bovenkant 2 haken die, om ze op hun plaats te bevestigen, naar buiten en over de bovenkant van de kooi moeten worden getrokken. Er zijn ook 2 haken aan elke kant van de hoofdconstructie.

BELANGRIJK: pas op dat uw handen en vingers niet klem komen te zitten.

- 7** Plaats de 4 plastic hoeken (B) rond de bovenkant om het frame vast te zetten.

- 9** De kooi gaat open aan zowel de smalle zijde als de lange zijde. Om het hek aan de smalle zijde te openen, moeten de 2 grendels omhoog, en vervolgens naar links worden getrokken.

- 10** Om het hek aan de lange zijde van de kooi te openen, moeten de 2 vergrendelingen omhoog worden getrokken. Trek vervolgens de bovenste grendel naar rechts en trek de onderste grendel naar links.
