

The Treadmill Factory will bring the best out of your Club

The Treadmill factory has been supplying industry-leading equipment and accessories to Fitness Centres across the country for decades. Our massive warehouse is always fully stocked, where you can expect quick, dependable delivery and service, and helping you as Club operators minimize disruption to members as much as possible.

A Club needs reliable, dependable equipment that will last, work for its members, and be easy to manage for staff, as we understand the importance of keeping equipment downtime to a minimum.

By building this partnership together, The Treadmill Factory will help ensure that your members work with the finest equipment, with state-of-the-art features, and deliver the best results. With our assistance, we can provide that you have the right mix of equipment and accessories to satisfy the varied needs of a Club like yours.

Facility Planning & Design for Success

For new builds, we offer complete Project management services, including 3D floor plan designs and layout ideas for you, helping you turn your visions into reality.

What we offer will help you attract new members to your facility while also helping you retain your current ones. We will work with you to focus on the needs of your members and the things they are looking for in a great gym.

Installation & Project Management

From coordinating flooring to ensuring your equipment package is properly installed, our installation professionals will also have your layout spatially configured for aesthetics as well as optimal functionality and usage. Plus, we can provide training for your staff to ensure proper use and care for machines and accessories to maximize safety and longevity.

Service

The Treadmill Factory initially began its operations by repairing treadmills for other stores and end users in 1988. Today, we can proudly say that our company has one of the most advanced service departments in all of North America providing customers with access to knowledgeable technicians in addition to offering the best service possible. Our nearly 80,000 sq.ft facility in Markham, Ontario allows us to:

- » Respond to service calls within a 24-48hr period
- » Provide senior technicians managed by the VP of Commercial Sales
- » Stocked parts to provide faster turn over time
- » Repair electronic boards in house to help save huge repair costs
