OUTDOOR LIFESTYLE

COMFORT - LUXURY - RELAXATION

Discover the latest designs and materials for a relaxed outdoor lifestyle in the SUNS collection: eye-catching, spacious and extremely comfortable. From stylish lounge- and dining sets, gazebos and daybeds, to mood makers such as cushions, poufs, carpets, solar lighting and candles.

Maximalism

Maximalism is our theme. A mindset. An attitude that revolves around versatility, personality and fun. Have fun with colors, patterns, designs, materials and decoration. Express yourself and create the ideal outdoor space with SUNS.

Balance between form and function

We are constantly looking for the perfect balance between form and function, in combination with the sustainable use of materials. This results in outdoor furniture that is characterized by absolute comfort, high-quality materials and a long lifespan.

Highlights collection 2024

Highlights include: terrazzo and marble look table tops made of durable Neolith®. Lounge sets with a full aluminium frame in different colors like the latest trend color, camel sand. All-teak tables with organic or very sleek shapes. Dining chairs beautifully finished with rope in various weavings such as cross, fishbone, knot and macramé weaving. And fully upholstered lounge sets with strikingly playful details. Everything stylish and maximum weatherproof!

GET INSPIRED

Get advice from a SUNS specialist

SUNS is available worldwide. We have shops in the Netherlands – where SUNS's head office is located – and throughout Europe, but also across the seas, like in America and Australia.

You will find SUNS at the more exclusive garden furniture specialists and home furnishing stores. We are also working together with different landscape architects and project developers with personal furnishing and design advice. And SUNS has its own Experience Centers, which are growing rapidly all over the world.

Visit a SUNS Experience Center

Interested in experiencing the entire SUNS collection presented stylish in an atmospheric setting? Then visit one of our SUNS Experience Centers, the ideal place to get inspired. See, touch and try all SUNS products and ask all your questions to our experts. Learn about our designs, materials and possibilities, so you can experience SUNS to the fullest and make an informed choice. For our Experience Centers it is recommended to make an appointment in advance.

Find a nearby SUNS store or partner

To find a nearby SUNS store or partner, visit hello-suns.com. Here you will find all our official partners, dealers, Shop-in-Shops and Experience Centers.

Visit one of our SUNS Experience Centers, the ideal place to get inspired.

YOUR STYLE

A SUITABLE MATCH FOR EVERY STYLE

SUNS has four different styles: Pure, Allure, Urban and Classic. Each style has its own distinctive features, from classic simplicity to trendy and unique. Depending on your personal taste, there is a suitable match for every one.

What is the ideal style for your outdoor space?

LOUNGING & DINING

The garden as an extension of the interior

Without a lounge- and dining set, your garden is not finished. Increasingly, we are turning our outdoor spaces into an extension of our interior. We happily invest in beautiful designed and comfortable outdoor furniture, add accessories for extra coziness, and stay outside as long as possible.

Lounging is relaxing

To fully enjoy your outdoor space, a lounge set is an absolute must. Lounging equals relaxing. Comfortable cushions and high-quality materials make a SUNS lounge set the ideal outdoor furniture to unwind on. Remarkable in the SUNS collection are the designs with extra low and deep seats, also known as 'low loungers'.

This trend is reflected in the popular platform lounge sets, where tables and the seating area are a seamless and sleek ensemble.

From traditional dining to 'low dining'

A decent dining table is solid and stylish. SUNS dining tables can withstand a drop of rain. The same goes for our dining chairs. And years of experience, refined design, and high-end materials provide SUNS dining chairs with an unequalled seating comfort. SUNS has both regular dining chairs as well as stackable ones, or with an adjustable backrest. But 'low' is the latest trend in dining. The comfort of a lounge set is combined with the practical aspect of classic dining. Ideal for hours of dining and relaxing with friends and family.

YOU CREATE

THE PERFECT SET-UP

With many of our lounge set series, the 'You create' concept offers plenty of options for creating the ideal set-up for your lounge set. Just mix and match the different combinations of 2-seater and 3-seater sofas, loungers, and matching tables.

What about a loungy corner set-up with a chaise longue, or an Ibiza set-up with two separate sofas facing each other? When you have chosen your basic configuration, you can add various armrests, side tables and hockers.

Get inspired and create your perfect and personal set-up.

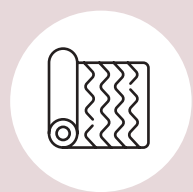

Cushions

WATER REPELLENT FABRIC

SUNS understands it is impossible to store your cushions dry and safe every time a bit of rain falls out of the sky. Therefore all cushions from the SUNS collection are equipped with water repellent fabric.

Textile

INNOVATION IN WEATHER-RESISTANCE

In a search for the best materials the SUNS collection features Sunproof®. This premium and innovative textile is renowned for its excellent outdoor properties. Sunproof® is a.o. weatherproof, colorfast, wear- and UV-resistant and easy to clean.

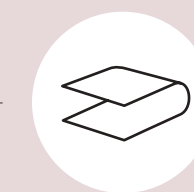

Teak

THE FINEST TYPE OF WOOD

Strong, durable, maintenance free and extremely weather-resistant. Teak is probably the finest type of wood available. Aging nicely in warm grey tones. What beauty nature brings!

SUNS works exclusively with certified teak, originating from controlled plantations in a.o. Indonesia. SUNS teak furniture is machine made. Our craftsmen combine traditional workmanship, passion and cutting edge process techniques to create furniture of excellent quality and looks.

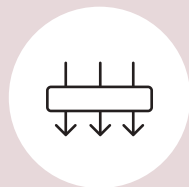

Aluminium

INDUSTRIAL QUALITY

Strong, durable and weatherproof. Aluminium is the perfect outdoor material.

SUNS uses industrial aluminium profiles with a thickness 1,5 mm above average, resulting in a more solid construction and longer lifespan. Moreover, the aluminium is double-coated to further improve lifespan, weather-resistance and attractiveness of the frame.

Core

RAPID DRYING TECHNOLOGY

SUNS makes use of special foam cores that dry in no time. Fast Dry Foam has a spacious cell structure. This guides rainwater through the cushions with ease and enhances air circulation, with rapid dry seats as a result. Outdoor furniture with a rapid drying core is comfortable, weatherproof and can be left outside all year round.

Rope

PREMIUM ACRYLIC

Next to its elegant looks, ropework made from premium quality acrylic offers excellent outdoor properties.

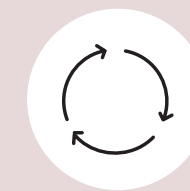

SUNS uses premium acrylic ropes in its furniture. The ropes are strong, durable, weatherproof, colorfast, easy to clean and dry quickly. Thanks to its tight weaving, ropework seats offer a pleasant sitting comfort.

Neolith®

NATURE MEETS INNOVATION

Neolith® consists of 100% natural raw materials. Neolith® is formed through an innovative process of sintering and high-pressure. The result is a very hard, impermeable and scratch-resistant material that can withstand all weather influences: cold, heat, moisture, drought and UV light. Neolith® table tops have a long lifespan and retain their attractive appearance.

PET

RECYCLED PLASTIC BOTTLES

SUNS goes circular! Within the PET product line we offer a number of out- and indoor products made from recycled PET bottles. In an innovative process, the used PET bottles are converted into fibers that we use to make cushions, poufs and carpets. The material feels soft like fabric, but is just as weather- and water-resistant as the former PET bottle.

DESIGNED FOR RELAXATION

LOUNGING & DINING COLLECTION

PURE

LOUNGING & DINING

With solid teak designs inspired by elements from nature, the Pure series is characterized by organic materials and shapes. These organic materials and shapes go perfectly together with distinctive design elements and high-end outdoor materials. Pure combines comfort with character.

This lounge set owes its stylish appearance to its beautiful use of teak, strong angles and richly filled cushions.

that accentuate the
natural character of
the wood.

Sophistication in the details

WOUT BEKKERS | DESIGNER AT SUNS

At SUNS we have a creative approach toward
comfort and experience.

SUNS is known for its use of distinct shapes and materials. This is also reflected in the 2024 collection. The collection consists of pleasant light color schemes, natural materials and stylish combinations of organic and clean shapes.

Wout Bekkers: “At SUNS we do not see ourselves as a garden furniture brand, but much more as a lifestyle brand. We are a brand for people who consciously choose for luxury outdoor furniture and lifestyle products, and we offer the possibility to add a personal touch. Our credo is therefore ‘Maximalism’. We translate this into remarkable designs and generously sized furniture. Lounge- and dining sets that catch the eye and offer maximum comfort. Where possible, we provide the designs with functionalities that increase ease of use. We continuously search for innovative techniques and materials to further improve our products and the user experience.

As a designer you hope to give users the feeling that real attention has been given to the design. I try to add a deeper layer to each product, a hint that every detail has been thought through. A good example is the Palermo dining table. We incorporated a subtle play of lines in both the design of the table top and the design of the frame, making the table exciting to look at. We also use this tension by combining different textures in the upholstery of our outdoor furniture.

At SUNS, we think that outdoor spaces could be as attractive as indoor spaces. Therefore, we create products that require little maintenance and offer our users every convenience. In addition to quality and comfort, it is our sophistication in design that sets SUNS apart from other brands.”

The latest teakwood designs are more stylish than ever.

Kim Kötter

Dream garden by the water

Kim Kötter and Jaap Reesema bought a house on a true dream location. The house is located by the water and overlooks a protected nature reserve. After a tasteful metamorphosis of the house, it was now the garden's turn. With a private beach and heated swimming pool, it always feels like a holiday here.

ABOUT US

SUNS, A BRAND OF SUNSIT

Design, quality, price and availability. These are the fundamentals for success of an outdoor lifestyle brand.

And these are exactly the areas where we know how to score. Discover our brand, SUNS, which caters to your outdoor lifestyle needs and excels in providing quality products.

Our company, Sunsit, is an international enterprise specialized in crafting exceptional outdoor furniture and lifestyle products. We oversee the entire process, from design to manufacturing, boasting our own research and development department and manufacturing facilities in the Far East. Our success is rooted in commitment to design, quality, and a keen understanding of market trends, coupled with a rapid response time.

We not only monitor the market and listen to our customers but also operate as a responsible enterprise. By offering durable products, exploring eco-friendly materials, and implementing

initiatives to reduce CO₂ emissions, such as covering our warehouse with solar panels, we have earned a solid brand reputation.

Product availability

Because we prioritize customer satisfaction, we are always focused on product availability. Our dealers are empowered to showcase the collection, place orders, and re-order directly from local stock. Therefore we can ensure fast delivery.
