I. Machine Specifications

5900 Schooner St, Belleville MI 48111 – USA
TEL (800) 422-2558 – FAX (734) 665-9099
www.Eberbachlabtools.com

I.a Mechanical Specifications

- Stroke: 2.00" +/-0.04"
- Speed: Set to 1-300 RPM, set speed will be +/-2 RPM
**speeds over 150 RPM are not recommended without specifically engineered tops*
- Length: 43.12" +/-0.50"
- Width: 43.12" +/-0.50"
- Height Unloaded: 33.50" +/-1.00"
- Weight Unloaded: 2350lb +/-10lb
- Max Capacity: 500 lbs (See load chart for speed specific limits)
- Tailgate Loading Capacity: 150lbs
- Base: Features included for use of narrow (21") forklift or pallet jack
- CFD engineering services available upon request

I.b Electrical Specifications

- 230-240V Power Cord (Plug Type F)
- 750W, IP65 Servo Motor with 10:1 Gear Box
- 13.2A Max amperage draw. This calculation is based on a motor overload (maximum amps, not normal running conditions) and max outlet amperage draw. Eberbach recommends a 15A outlet
- 1.6kWh max. This calculation is based on a motor overload (maximum wattage, not normal running conditions) and max outlet amperage draw
- Emergency Stop Button
- RJ45 Ethernet Port for accessing ProfiNet system
- USB Port for accessing Data Logs on HMI
- Washdown 4" HMI touch panel for controlling machine
- IP66 Enclosures for the drive & low voltage electronics
- Remote diagnostic functionality available upon request

I.c Maintenance

- Wipe exposed surfaces of machine with isopropyl alcohol twice per month or as needed.
- Keep touch screen free from dirt/debris.
- Verify E-Stop functionality once every three months unless local safety ordinances require otherwise.
- Ensure Cord Jacketing is not frayed or Broken.
- Replace the USB port caps when the ports are not in use.

I.d Loading Capacity Chart

Always place containers in such a way as to balance the load in the center of the carrier.

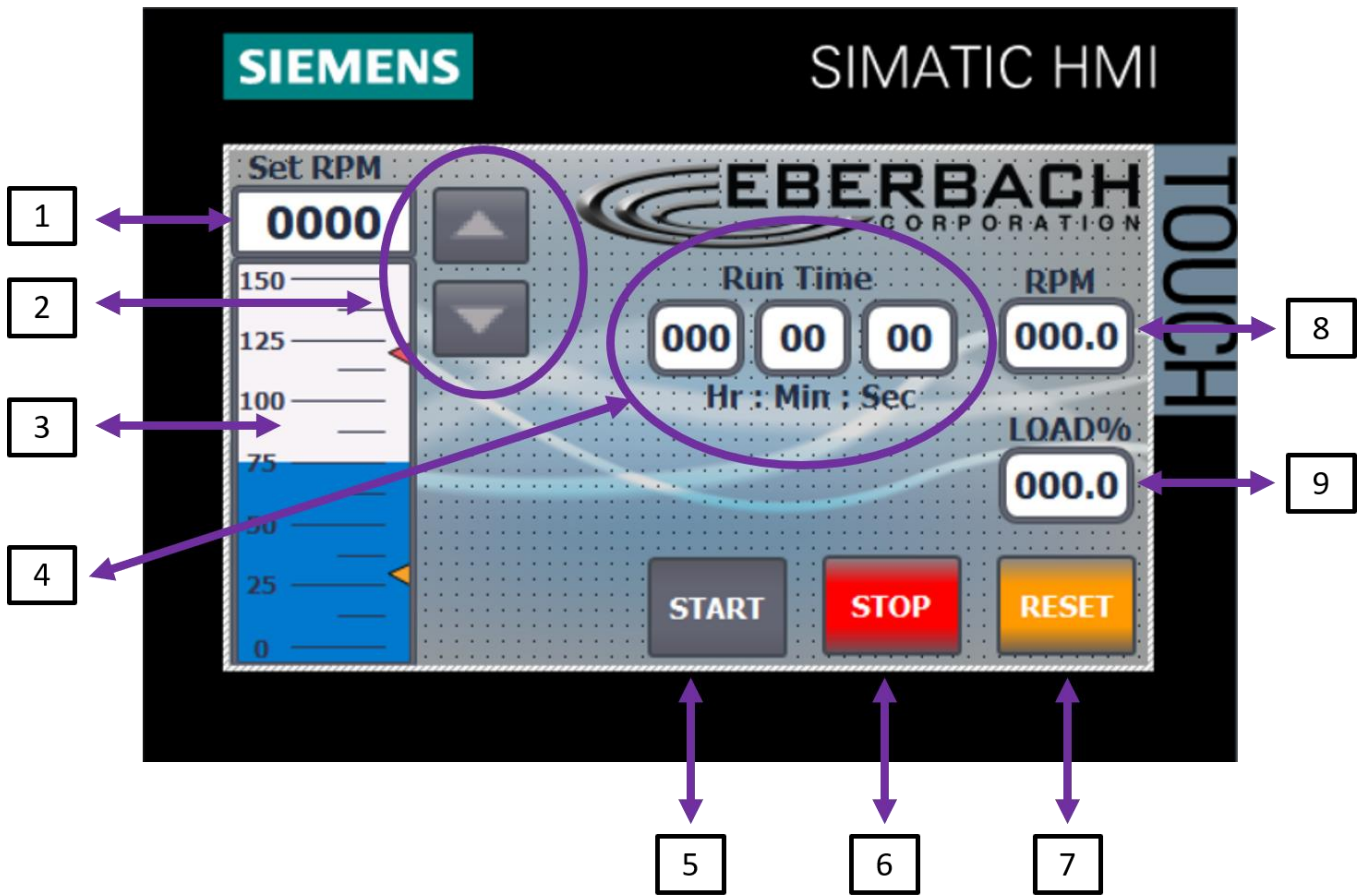

I.e Controls

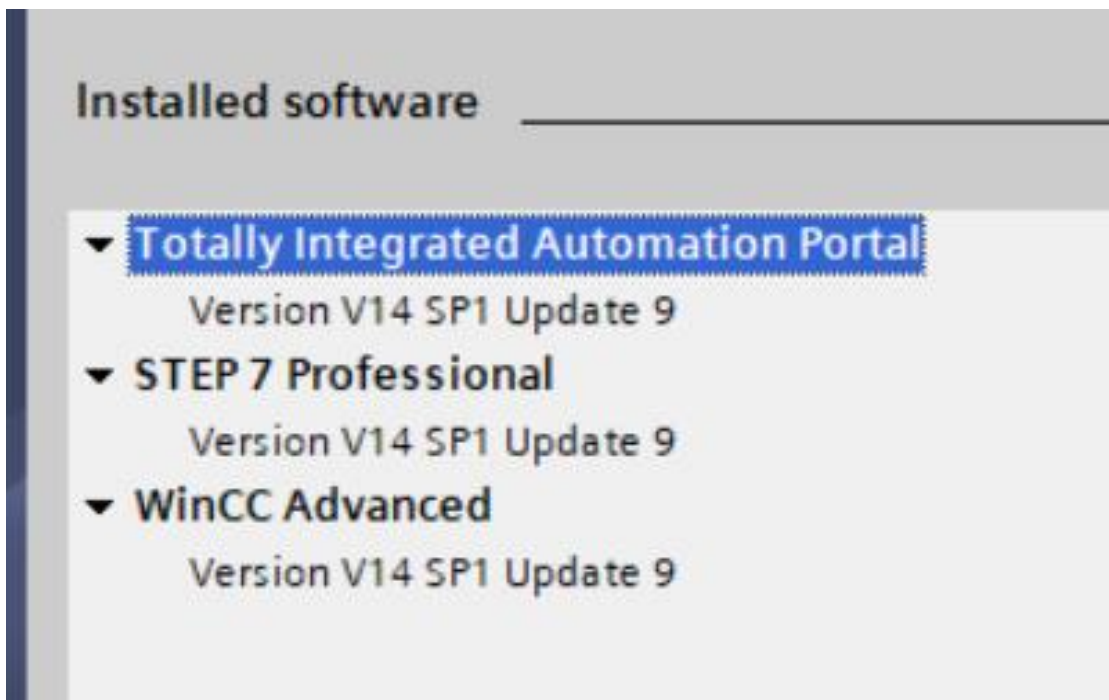

WELCOME SCREEN. Welcome screen is accessed by pressing F4. You will be able to end Simatic RUN TIME by pressing the Power button in the bottom left of the screen. 'Run' button goes to RUN SCREEN. 'Timed Run Button' goes to TIMED RUN SCREEN. 'Alarm' button goes to PLC ALARM BUFFER SCREEN. 'Info' button will take users to Machine specs.

RUN SCREEN

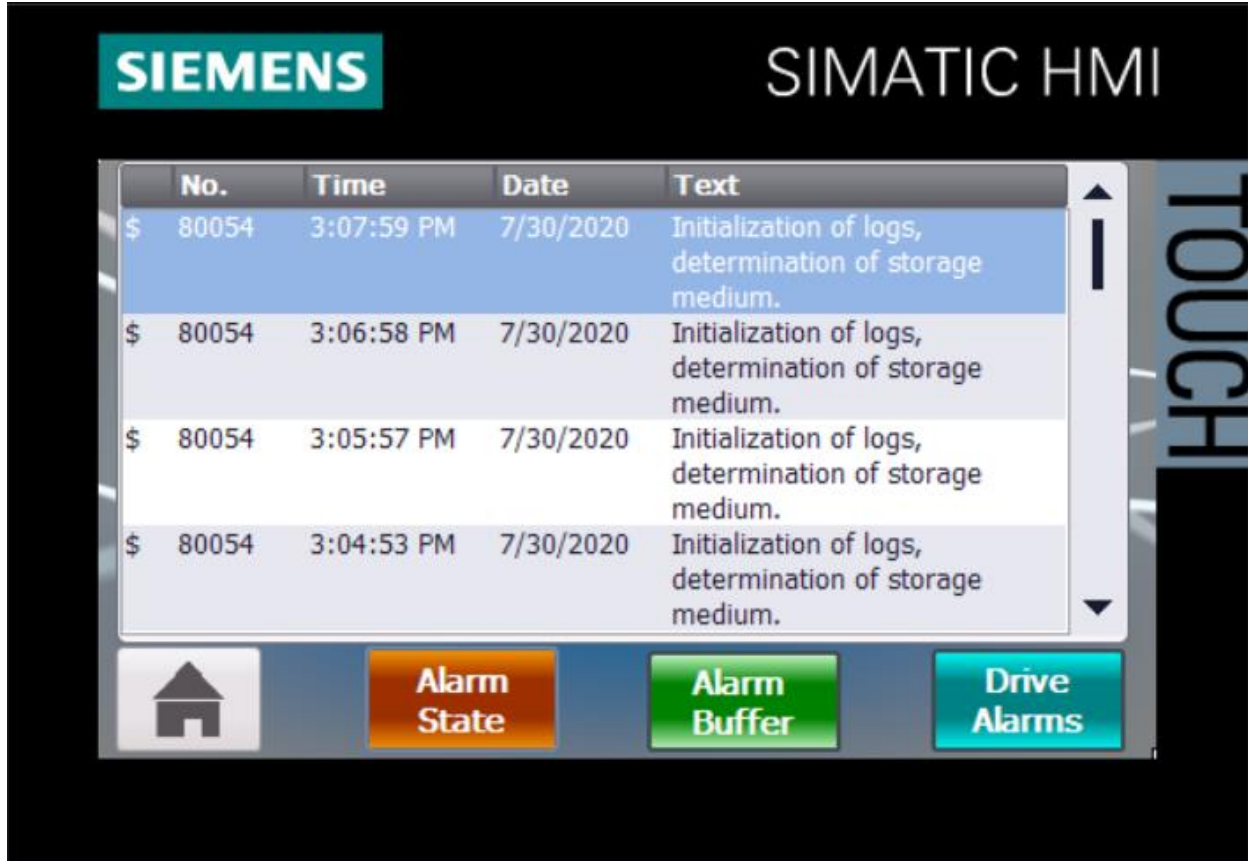

- 1) Set Speed Input Box
- 2) Set Speed Adjustment Arrows (1 RPM increments)
- 3) Set Speed Indicator
- 4) Elapsed Run Time (999:59:59) max value
- 5) Start Button (starts rotation)
- 6) Stop Button (stops rotation)
- 7) Elapsed Run Time Reset Button. Resets Time to (0:00:00)
- 8) Tachometer Box (displays actual speed of machine)
- 9) Load Meter (monitors torque load as percentage)

Programing Software

I.f Alarms & Faults

PLC ALARM BUFFER SCREEN. Shows PLC Alarms. Press the Home Icon to go to 'WELCOME SCREEN.' Press the 'Drive Faults' button to go to 'DRIVE ALARMS' screen.

II. Machine Testing Qualification & Validation

5900 Schooner St, Belleville MI 48111 – USA
TEL (800) 422-2558 – FAX (734) 665-9099
www.Eberbachlabtools.com

	Client:	
	Number: C6155.006	
	Document Number: 1	

1. Objective

The purpose of this protocol is to provide comprehensive document that validates the C6155.006 conforms with the quoted specifications; after manufacturing (FAT), prior to shipping (IQ), upon receipt at client's facility(OQ), and after installation at client's facility (SAT).

2. Scope

This technical data package includes inspection procedures and acceptance criteria of tests to be performed. The scope of this document is limited to the C6155.006.

3. Responsibilities

Responsibilities between Eberbach and Client are defined as follows:

Task	Responsible Group
Prepare FAT/IQ/OQ/SAT Documentation	Eberbach
Perform FAT	Eberbach
Provide FAT Data to Customer	Eberbach
Perform IQ/OQ/SAT	Client
Review & Verify the IQ/OQ/SAT	Client
Approve the IQ/OQ/FAT/SAT	Client

- Eberbach is responsible for:
 - Preparing the IQ/OQ/FAT/SAT documentation
 - Performing FAT
 - Provide FAT documentation to customer
 - Installation support
 - Use and Care manuals
- Client is responsible for:
 - Reviewing and approving this IQ/OQ/FAT/SAT documentation
 - Performing the IQ/OQ/SAT
 - All rigging activities required
 - All electrical installation requirements

4. Reference

- C6155.006 Use and Care

II.a Factory Acceptance Test

(Eberbach's Responsibility)

C6155.006 230-240V 50/60Hz

Serial#: _____

Production Order#: _____

Step	Description	Specification or Acceptance Criteria	Result	
			Pass	Fail
1	Validate Run, unloaded	Set machine to run at 50 rpm. Speed must be within +/- 2 rpm for 5 min	<input type="checkbox"/>	<input type="checkbox"/>
2	Validate Run, unloaded	Set machine to run at 100 rpm. Speed must be within +/- 2 rpm for 5 min	<input type="checkbox"/>	<input type="checkbox"/>
3	Validate Run, unloaded	Set machine to run at 300 rpm. Speed must be within +/- 2 rpm for 5 min	<input type="checkbox"/>	<input type="checkbox"/>
4	Validate Timed Run, unloaded	Set Machine for a 5 minute timed run @ 50rpm. Verify the machine stops after 5 minutes.	<input type="checkbox"/>	<input type="checkbox"/>
5	Verify E-stop (if applicable)	During machine operation, verify E-stop functionality (at all locations if multiples exist).	<input type="checkbox"/>	<input type="checkbox"/>
6	Confirm machine finish	Machine panels and base are free from scratches. (cGMP compliant SS if applicable).	<input type="checkbox"/>	<input type="checkbox"/>
7	Confirm machine finish	Confirm that there are no sharp corners on machine / accessories.	<input type="checkbox"/>	<input type="checkbox"/>
8	Validate stroke	Does the machine provide a 2" displacement? Must be within +/- .04"	<input type="checkbox"/>	<input type="checkbox"/>
9	Verify firmware version	Verify the firmware version _____	<input type="checkbox"/>	<input type="checkbox"/>
10	Cumulative Run Time Validation	Machine Run Off Time, min 8hrs: _____	<input type="checkbox"/>	<input type="checkbox"/>
11	Vibration Analysis	Vibration Analysis Completed: _____	<input type="checkbox"/>	<input type="checkbox"/>
12	Machine documentation Completed	Verify the Use and Care for the machine is completed and packaged with the machine.	<input type="checkbox"/>	<input type="checkbox"/>

Checked by: _____

Date: _____

II.b Installation Qualification

Eberbach will provide on-line execution of the IQ & OQ with customer team for 1 day.

Step	Description	Specification or Acceptance Criteria	Result	
			Pass	Fail
1	Space Requirements	Measure installation space for placement of equipment. 45" x 45" (Width x Depth)	<input type="checkbox"/>	<input type="checkbox"/>
2	Electrical Power	Check for electrical requirements. 230-240V, 50/60 Hz, 1-Phase	<input type="checkbox"/>	<input type="checkbox"/>
3	Equipment Inspection	Inspect shipped products for signs of damage that may have occurred during shipping. Keep packaging material until Operation Qualifications has been complete. Contact Eberbach if any shipping damage has occurred.	<input type="checkbox"/>	<input type="checkbox"/>
4	Equipment documentation provided by Eberbach	Verify receipt of Use and Care from Eberbach	<input type="checkbox"/>	<input type="checkbox"/>
5	Review FAT	Verify that FAT has been completed by Eberbach	<input type="checkbox"/>	<input type="checkbox"/>

II.c Operation Qualification

Eberbach will provide on-line execution of the IQ & OQ with customer team for 1 day.

Step	Description	Specification or Acceptance Criteria	Result	
			Pass	Fail
1	IQ completed	Has the IQ been performed by the client?	<input type="checkbox"/>	<input type="checkbox"/>
2	Inspect equipment upon receipt	Validate that the equipment was received in good condition and that there is no damage to the equipment or packaging.	<input type="checkbox"/>	<input type="checkbox"/>
3	Equipment set up	Unpack and assemble the equipment per IQ.	<input type="checkbox"/>	<input type="checkbox"/>
4	Equipment set up	Verify the equipment/machine set up is completed.	<input type="checkbox"/>	<input type="checkbox"/>
5	Begin SAT	Client to conduct SAT	<input type="checkbox"/>	<input type="checkbox"/>

II.d Site Acceptance Test

(Clients Responsibility)

C6155.006 230V-240V 50/60Hz

Serial#: _____

Step	Description	Specification or Acceptance Criteria	Result	
			Pass	Fail
1	Validate Run, unloaded	Set machine to run at 50 rpm. Speed must be within +/- 2 rpm for 5 min	<input type="checkbox"/>	<input type="checkbox"/>
2	Validate Run, unloaded	Set machine to run at 100 rpm. Speed must be within +/- 2 rpm for 5 min	<input type="checkbox"/>	<input type="checkbox"/>
3	Validate Run, unloaded	Set machine to run at 300 rpm. Speed must be within +/- 2 rpm for 5 min	<input type="checkbox"/>	<input type="checkbox"/>
4	Validate Timed Run, unloaded	Set Machine for a 5 minute timed run @ 50rpm. Verify the machine stops after 5 minutes.	<input type="checkbox"/>	<input type="checkbox"/>

SGM7J Gear Motors

The SGM7J gear motor product family pairs SGM7J servo motors with high precision, low backlash inline planetary gear heads resulting in a portfolio of rotary actuators fit for a wide range of applications. The family of gear motors has been thoroughly tested and adheres to the high levels of quality and performance expected from Yaskawa.

The high precision gear heads offer a variety of application advantages:

- **Quiet operation** – helical cut gears contribute toward reduced vibration and noise
- **High precision** – a standard backlash of 5 arc-min make this gear head ideal for the most accurate applications
- **High rigidity and torque capacity** – achieved with a design which incorporates uncaged needle roller bearings
- **Optimized adapter bushing** – minimizes inertia allowing for more output torque to be realized
- **No leakage through the seal** – high viscosity, anti-separation grease does not liquefy and does not migrate away from the gears
- **Maintenance-free** – no need to replace the grease for the life of the unit. The reducer can be positioned in any orientation

Model Designations

S7J 01 A C - VL 050 - 05

1st+2nd digits Rated Output

Code	Specification
01	100 W
02	200 W
04	400 W
08	750 W
15	1.5 kW

3rd digit Power Supply Voltage

Code	Specification
A	200 VAC battery type
B	200 VAC batteryless type
D	400 VAC battery type

4th digit Brake Option

Code	Specification
Blank	No brake
C	24 V Brake

5th digit Gear box backlash

Code	Specification
VL	5 arc-min backlash

6th digit Gear head frame size

Code	Specification
050	50 mm
070	70 mm
090	90 mm
120	120 mm
155	155 mm

7th digit Gear Ratio

Code	Specification
03	3:1 Ratio
05	5:1 Ratio
10	10:1 Ratio
25	25:1 Ratio
50	50:1 Ratio
