

## Bracelet Size Guide

Measure your hand where your hand is the widest by bringing your thumb and little finger together. Use the sample chart to choose the correct bracelet size based on the circumference.

Bracelet Size	Fitting Size (Extended up to 6cm)
17cm	17-23cm
18cm	18-24cm
19cm	19-25cm
20cm	20-26cm

There's no need to untie the bracelet to adjust. In order to tighten your bracelet, pull on the small dangling beads in opposite directions. To loosen your adjustable cord bracelets, pull on the beads closest to the lock in opposite directions.

Adjust the size of the bracelet
