**Joint Company Secretary**

Amanda Wilton-Heald

Amanda is a Chartered Accountant with over 20 years of accounting, auditing (of both listed and non-listed companies) and company secretarial experience within Australia and the UK. Amanda has been involved in the listing of junior explorer companies on the ASX and has experience in corporate advisory and company secretarial services.

**RESULTS OF OPERATIONS**

The net loss of the Group for the six months to 31 December 2021 is \$1,331,965 (2020: profit of \$377,229).

Following shareholder approval at two General Meetings held on 5 July 2021, a number of approved corporate status changes were finalised, including:

- conversion of the Company from a public no liability company to a public company limited by shares;
- a capital restructure, whereby partly paid shares in the capital of the Company were cancelled and replaced with newly issued exchange options; and
- a change of the Company's name from "Parkway Minerals NL" to "Parkway Corporate Limited".

Subsequent to the completion of the corporate status changes outlined above, on 8 July 2021, the Company announced the preliminary launch of Parkway Process Solutions (PPS), to target a range of industrial water treatment related opportunities, initially in Australia. In addition to generating revenue through the provision of conventional water treatment solutions, the establishment and growth of PPS is intended to support the commercialisation of the Company's next-generation technology portfolio, including the delivery of highly differentiated integrated water treatment related solutions. The recently launched PPS business (inclusive of recently announced acquisitions, including Mawpump), has enabled the Company to achieve increased deal flow, including opportunities to quote and/or tender for a range of industrial-scale water transfer and treatment related applications.

**DIRECTORS' REPORT**

---

**RESULTS OF OPERATIONS (continued)**

Following the launch of PPS, the Company has successfully secured new business from a range of companies, for the provision of industrial water treatment related products, services, and solutions, in line with the stated objectives of establishing PPS. PPS is also developing a range of modular water treatment systems, which will further support a range of ongoing business development efforts.

To further support the growth of PPS, on 3 September 2021, the Company announced the acquisition of 100% of Mawpump Pty Ltd ("Mawpump"), for up to \$1.3 million (before agreed adjustments). Mawpump is an established Darwin based supplier of pumping related products, services and packaged solutions, with a primary focus on the mining industry in Northern Australia. Mawpump has been successfully operating since 1996, during which time it has provided various products and/or services, to most of the major mining operations in the Northern Territory of Australia. Mawpump operates a fabrication and maintenance workshop, and also maintains a large product inventory (together with associated plant and equipment), enabling Mawpump to provide a fast and reliable service and maintain its position as a preferred vendor for various mining operations predominantly in the Northern Territory of Australia. Mawpump has recently been successfully integrated into the regular operations of PPS.

As part of the Company's commitment to continuous improvement and industry best practices, the Company recently developed an Integrated Management System, to facilitate and achieve certification for:

- ISO9001:2015, Quality Management System;
- ISO14001:2015, Environmental Management System; and
- ISO 45001:2018, Occupational Health & Safety Management System.

The Company expects the recent implementation of the Integrated Management System and corresponding certification (achieved after the balance date), will further support the establishment of PPS as a qualified vendor, and assist in a range of business development related initiatives.

In addition to generating growing revenues through the provision of conventional water treatment solutions, PPS is also increasingly supporting the commercialisation of the Company's next-generation technology portfolio, including the delivery of highly differentiated integrated water treatment and industrial process solutions.

The technology division of the Company, Parkway Process Technologies (Parkway Process Technologies Pty Ltd, PPT) also continued to make progress in leveraging its proprietary (core) process technology platform to support existing and emerging business development initiatives. PPT also made progress with a range of third-party process technologies, that enable the Company to provide a broader range of synergistic industrial process technologies.

Recent highlights include testwork confirming that in addition to achieving significant wastewater volume reductions, the adoption of the iBC<sup>®</sup> technology is likely to be able to achieve a highly desirable zero-liquid discharge (ZLD) solution for certain applications. Given the highly encouraging results, as well as positive industry feedback, the Company has finalised the design for a scaled-up iBC<sup>®</sup> pilot plant, with procurement of long-lead items well underway, and construction of the new pilot plant scheduled to commence in March 2022. The new iBC<sup>®</sup> pilot plant will assist the Company perform larger scale testwork and produce product samples, for industry evaluation.

**DIRECTORS' REPORT**

---

**RESULTS OF OPERATIONS (continued)**

By leveraging the process engineering capabilities of the Company, PPT has been able to develop innovative applications of additional water treatment processes, to achieve improvements in the processing and treatment of challenging industrial wastewater streams. In addition, the Company continues to develop new technologies as well as identify additional applications for its portfolio of proprietary process technologies, to solve high-value problems facing industry. More broadly, the Company continues to perform a range of evaluations to demonstrate the substantial operational, financial and sustainability advantages of the technology portfolio, incorporating both the core and third-party technologies.

In addition to the industrial water treatment related activities, the Company also holds an equity interest in the Karinga Lakes Potash Project (KLPP), in the Northern Territory of Australia. As a result of an ongoing tenement rationalisation process that was completed during the half year to 31 December 2021, no substantive mining exploration activities occurred in relation to this project.

As a result of the Covid-19 induced pandemic, the Company continued to experience a range of disruptions, including delays in the transportation of goods and restrictions impacting the movement of staff to support various project and business development related activities. The Melbourne based operations of the Company have been particularly impacted, resulting in only limited access to both the PPS facility, as well as research and development facilities located at Victoria University, where most pilot scale studies are ordinarily performed by the Company.

**Events subsequent to balance date**

Subsequent to the balance date, the Company announced that it had achieved ISO certification, as well as an expansion of the strategic partnership with global engineering services company, Worley.

Other than the above, there have not been any other matters that have arisen after balance date that have significantly affected, or may significantly affect, the operations and activities of the Company, the results of those operations or the state of affairs of the Company in future financial years other than disclosed elsewhere in this half-year report.

**CONDENSED NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE HALF-YEAR ENDED 31 DECEMBER 2021**

---

**Note 1: Basis of preparation of the half-yearly financial report**

This interim condensed financial report for the half-year ended 31 December 2021 was authorised for issue in accordance with a resolution of the directors on 15 March 2022. The financial report has been prepared in accordance with AASB 134 *Interim Financial Reporting* and the Corporations Act 2001.

It is recommended that the half-year financial statements be read in conjunction with the annual financial report for the year ended 30 June 2021 and considered with any public announcements made by Parkway Corporate Limited during the half-year ended 31 December 2021 in accordance with continuous disclosure obligations of the *ASX Listing Rules*.

The half-year financial statements do not include all notes of the type normally included within the annual financial report and therefore cannot be expected to provide as full and understanding of the financial performance, financial position and financing and investing activities of the Company as the full financial report which is available at [www.parkway-corp.com](http://www.parkway-corp.com).

The half-year financial statements have been prepared on the basis of accrual accounting and historical costs and the same accounting policies and methods of computation were followed as in the most recent annual financial statements.

The Company is an entity of the kind referred to in the Australian Securities and Investments Commission Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191, dated 24 March 2016. As a result, amounts in this interim financial report and directors' report have been rounded off to the nearest thousand dollars, unless otherwise stated.

**(a) New Accounting Standards and Interpretations**

The consolidated entity has applied the amendments to the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to their operations and effective for the current half-year.

New and revised Standards and amendments thereof and Interpretations effective for the current half year that are relevant to the consolidated entity are:

- *AASB 2021-3 Amendments to AASs – COVID-19-Related Rent Concessions beyond 30 June 2021*
- *AASB 2020-3 Amendments to AASs – Reference to the Conceptual Framework*
- *AASB 2020-3 Amendments to AASs – Property, Plant and Equipment: Proceeds before Intended Use*
- *AASB 2020-1 Amendments to AASs – Classification of Liabilities as Current or Non-current*
- *AASB 2021-2 Amendments to AASs – Disclosure of Accounting Policies and Definition of Accounting Estimates*

Their adoption has not had any material impact on the disclosures or on the amounts reported in these financial statements.

**CONDENSED NOTES TO THE FINANCIAL STATEMENTS**  
**FOR THE HALF-YEAR ENDED 31 DECEMBER 2021**

---

**Note 1: Basis of preparation of the half-yearly financial report (continued)**

**Business Combination**

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at acquisition date fair value, and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic conditions, the Group's operating or accounting policies and other pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the

acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability will be recognised in accordance with AASB 9 either in profit or loss or as a change to other comprehensive income. If the contingent consideration is classified

as equity, it should not be remeasured until it is finally settled within equity. Any goodwill arising from the business combination is accounted for under Intangibles and Goodwill accounting policy.

**Note 2: Segment reporting**

The consolidated entity has based its operating segment on the internal reports that are reviewed and used by the executive management team ("Chief Operating Decision Makers") in assessing performance and in determining the allocation of resources.

The consolidated entity is a listed public company, incorporated in Australia and operating in Australia. The company's principal activities include:

- the exploration for minerals and commercialisation of proprietary brine processing technologies, with applications in the energy and mining sectors ("Core Business"); and
- the development of an integrated water treatment products and services business, to complement and support the entity's Core Business.

The main activities of the consolidated entity in this reporting period are developing brine treatment related technologies, as well as delivering water treatment related products and services. The Group also has an exploration joint venture. The segment operations and results are reported internally based on the accounting policies as described in Note 1 for the computation of the consolidated entity's results presented in this set of financial statements.

During the period there were no listed or key management personnel options exercised.

The options on issue are not considered dilutive for the purpose of the calculation of diluted loss per share as their conversion to ordinary shares would not decrease the profit from continuing operations per share. Consequently, diluted loss per share is the same as basic loss per share.

There have been no transactions involving ordinary shares or potential shares that would significantly change the number of ordinary shares or potential ordinary shares outstanding between the reporting date and the date of completion of these financial statements.

Trade debtors are non-interest bearing and are generally on 30-90 days terms.

For trade and other receivables, the Group has applied the standard's simplified approach and has calculated ECLs based on lifetime expected credit losses. The Group has established a provision matrix that is based on the Group's historical credit loss experience for customer groups, adjusted for forward-looking factors specific to the debtors, industry payment profiles and the economic environment. As at 31 December 2021, an ECL of \$75,143 was recognised (30 June 2021: \$17,977)

The Group's intellectual property portfolio consists of trade secrets, know-how, trademarks and patents. At 31 December 2021, the Group is still in the process of developing and commercialising the technologies associated with the intellectual property; hence, the corresponding asset is not yet available for use.

At 31 December 2021, the Group assessed that there are no indicators of impairment in relation to the intellectual property portfolio from the last impairment testing performed on 30 June 2021.

The Group did not amortise the intellectual property during the period as the estimated useful life and the corresponding amortisation will only be determined when the corresponding asset is available for use.

**Acquisition of Mawpump**

On 03 September 2021, the Group, through its wholly owned subsidiary, Parkway Process Solutions Pty Ltd, entered into a Share Purchase Agreement to acquire the business of Mawpump, an established Darwin based pump supplies business, to acquire 100% of all shares in the capital of Mawpump. The acquisition of Mawpump will support the Group's evaluation and potential participation in the delivery of the project opportunities and other opportunities elsewhere in Australia.

The provisional fair values of the identifiable assets as at the date of acquisition were:

	\$	\$
Cash at bank	537,327	
Trade Debtors	294,380	
Liabilities	<u>(318,284)</u>	
Total identifiable net assets at fair value		<u>513,423</u>

Purchase consideration		\$
Cash consideration		1,228,423
Deferred Cash payment (Note 8)		<u>455,000</u>
Total purchase consideration		1,683,423

From the date of acquisition, Mawpump contributed \$834,923 of revenue and a loss of \$49,340 to the net loss before income tax of the Group. If the acquisition had taken place at the beginning of the year, the Group's revenue would have been \$1,559,447 and profit before tax for the Group would have been \$34,835.

The contingent consideration consists of \$455,000 cash payable 12 months after acquisition date, provided that Mawpump meets and exceeds a baseline revenue threshold.

Given the timing of the acquisition, the identification and valuation of the assets and liabilities acquired are provisional as management is currently in the process of completing the acquisition accounting. Management has assessed that there were no impairment triggers in relation to the unallocated provisional goodwill as at 31 December 2021.

**Acquisition of Multi-Wet**

On 1 March 2021, the Group, through its wholly owned subsidiary, Parkway Process Solutions Pty Ltd, entered into an agreement to acquire 100% of the business of Multi-Wet, a leading provider of industrial water treatment related products, chemicals, and services in Western Australia. This acquisition is generating revenue and support the successful commercialisation of the Group's next-generation technology portfolio, including the delivery of highly differentiated and integrated water-treatment related solutions.

Goodwill arising on acquisition on the acquisition date		<u>254,257</u>		<u>426,407</u>
Purchase consideration		<u>446,407</u>		<u>546,407</u>

The purchase consideration is comprised of:

	<b>31-Dec-21</b>	<b>30-Jun-21</b>
	\$	
Purchase consideration	\$	
Cash consideration	446,407	446,407
Contingent consideration	<u>-</u>	<u>100,000</u>
Total purchase consideration	446,407	546,407

Management has assessed that there was an impairment trigger in relation to goodwill as at 31 December 2021. The recoverable amount was assessed by reference to a 'value in use'. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. The recoverable amount was lower than the carrying value; hence, an impairment amounting to \$100,000 was recognised.

(b) The baseline revenue requirement of \$1million dollars within 12 months from the acquisition date was not satisfied.

## **Independent auditor's review report to the members of Parkway Corporate Limited**

### **Report on the half-year financial report**

#### **Conclusion**

We have reviewed the accompanying half-year financial report of Parkway Corporate Limited (the Company) and its subsidiaries (collectively the Group), which comprises the consolidated statement of financial position as at 31 December 2021, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group does not comply with the *Corporations Act 2001*, including:

- a) Giving a true and fair view of the consolidated financial position of the Group as at 31 December 2021 and of its consolidated financial performance for the half-year ended on that date; and
- b) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

#### **Basis for conclusion**

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the *Auditor's responsibilities for the review of the half-year financial report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

#### **Directors' responsibilities for the half-year financial report**

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

## Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
