Applications

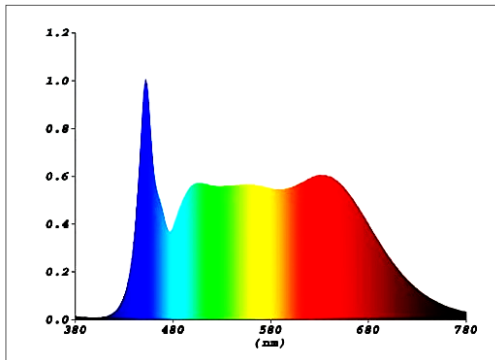

Designed for the hobbyist grower, the T8 LED Light Stand is ideal for the grower with limited indoor space who wants to support seedlings, microgreens, small leafy greens, succulents, or herbs indoors. The set includes an iron and aluminum stand, and is powered with GrowTronics™ T8LED. The Adjustable T8 LED Light is versatile and compact allowing for placement on counters, desks, tables, and selves, allowing growers to add some greenery wherever they want.
