IMPORTANT NOTES

1. All wall and furniture stickers are for children aged 3 years and over, and only suitable for indoor use
2. To prevent injury, please add corner and edge protectors to the furniture that you apply the sticker onto
3. Furniture should be anchored firmly to the wall to avoid risk of injury from tipping over, as children might use the furniture as a climbing aid
4. The stickers should only be stuck to furniture where sufficient space is available, e.g. it must not protrude beyond the furniture edges
5. Our stickers may only be used under adult supervision and should be checked for any damaged prior to use
6. The furniture should NOT be used if there are any damaged parts
7. If the corners of the stickers have been damaged and removed from the furniture surface, it no longer meets the safety requirements and must not be used anymore
8. If a sticker is detached and reattached to another surface, it will not meet the safety requirements and must not be used anymore
9. Please keep the address below for contacting the manufacturer in case of need.

User manual on floor stickers

To ensure our quality, this manual is intended for all products with ID numbers starting at CH.
Please check your product for a match before proceeding.

Thank you!

Here you will find all the steps you need to apply your new sticker!

If you choose not to apply it right away, please keep it out of reach of small children. Before application, stickers are not suitable for children.

Please check our website for other languages of this user manual.

INSTRUCTIONS FOR USE

Floor stickers

smallostudios.com

1. Choose the surface

You can choose to build one of the templates we suggest or create your own. Whatever you decide, **use a ruler or tape to make sure you have all the necessary area available before you start.**

2. Clean the surface

Make sure the place where you will apply the sticker is **clean, without dust, particles or grease.** Also, verify that it is thoroughly dry before applying it.

3. Remove the backpaper

Small stickers can be completely removed from the backpaper.

For larger ones we recommend removing only 4/5 inches (10/15 cm) of the backpaper and fold it back, to protect the adhesive and avoid unwanted sticking. We also advise the help of one more person when placing the larger stickers.

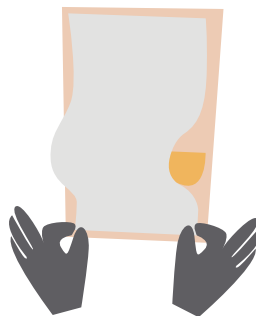

4. Apply the sticker

Hold the sticker by the two peeled off corners and position it on the chosen surface.

You can now slowly remove the backpaper and **with the help of a cloth, move from one side of the sticker to the other to make sure it sticks to the surface.** If you get any bubbles, you can easily remove them by pushing the air to one side. Our stickers are bubble-free!

If you notice that it is not positioned properly, slowly pull the sticker at a 45° angle and position it again. Use a ruler or the vinyl sheet to help you keep all the pieces aligned.

Looking for a video tutorial?

Watch our videos on how to apply and remove the stickers in the link below.

Important notes on maintenance and removal

To clean the stickers, use only a **cloth slightly dampened with water.** Avoid cleaning corners and outside edges, as these are the areas most susceptible to water ingress.

To remove the stickers **use a hair dryer to help soften the adhesive** before you remove it and slowly pull it off at a 45° angle. If you notice little gray spots when removing it, they may be small pieces of adhesive that will come off easily with a small scrubbing pad.

Since we have no way of knowing the previous condition of the surface where the sticker was placed, it is possible that some paints, wallpapers, varnishes or other surfaces **will be damaged** when removing the stickers.

Return policy

If this is the case we are sorry that we have not met your expectations. We know it can happen! Please put the sticker back in its original box and send it to the address on the back of this sheet. We do not accept returns of stickers that have already been removed from the backpaper. Check our website for more information.
