

**THE UNIQUE AND DEPENDABLE
ADJUSTABLE SAFETY NET SYSTEM THAT
ADAPTS TO YOUR NEEDS AND FITS MOST
WORK SPACES WHERE PERSONNEL OR
DEBRIS CONTAINMENT IS REQUIRED.**

- Easily adjustable straps allow you to make Adjust-A-Net™ as large or small as needed
- Reduce sag with quick-adjust buckle release
- 90mm mesh for better protection
- A specifically developed coating protects from the damaging effects of UV light, provides resistance to abrasion and securely bonds all convergent points
- Inspection ready test cords allow for the evaluation of Adjust-A-Net's™ structural integrity

- Rugged steel snap hooks are placed every 1.2m
- Staggered spacing on opposite sides allow any size Adjust-A-Net™ to be easily connected together
- Multiple adjustable ties available
- Meets or exceeds all applicable industry standards

Adjust-A-Net™ Is a one of a kind personnel net system that is specifically designed to be easily adjustable, thereby fitting any and all work spaces where personal fall protection or debris capturing is required.

Versatile Four base net sizes adjust to fit any size or shaped environment. Shrink Adjust-A-Net™ down for compact areas or expand to full size. Snap them together for the largest areas. Reduce one side or the other for long, narrow applications. With Adjust-A-Net™, custom nets or multiple nets are no longer necessary.

Economical Adjust-A-Net's™ four sizes fit every size application imaginable. Therefore the need for numerous multiple sized nets are not necessary. Reuse Adjust-A-Net™ over and over in a variety of applications and settings.

Easy To Use The patent pending design allows Adjust-A-Net™ to adjust to different sizes in minutes. Simple gather the net on one or two sides, then use the patent pending strap system to secure the net in the desired size and dimension. Adjust-A-Net™ easily adjusts on the ground before installation or in the air to reduce sag or re-size to better fit your work space.

Reduces Inventory Four Models are the most you'll ever need to have on hand. Odd sized or custom nets are no longer necessary and are not taking up valuable warehouse space.

Fits Any Application

Adjust-A-Net™ comes in three base sizes and each reduces down infinitely to fit any application: 4.5m x 9.0m, 6.1m x 12.2, 7.6m x 15.2m. and 9.1m x 18.3m

Netting Easily Adjusts to Suit any workspace

Adjust-A-Net™ Models:

Without debris liner

4100100 (4.5mx9.0m) **4100101** (6.1mx12.2m)
4100102 (7.6mx15.2m) **4100103** (9.1mx18.3m)

With debris liner

4100400 (4.5mx9.0m) **4100401** (6.1mx12.2m)
4100402 (7.6mx15.2m) **4100403** (9.1mx18.3m)

Specifications:

Construction: Knotted; Hung border; Mesh Style - Diamond; Mesh Size - 90mm (180mm stretched); Mesh Twine - Nylon Polyamide Fibre, Size - Single #120 (4.3mm dia.), Type - 3-strand twist #728 High Tenacity Nylon 5.34kN tensile breaking strength. **Joining Twine:** Nylon Polyamide Fibre. **Mesh Weight:** 3.9kg/sq.m. (approx.) (untreated). **Hooks:** Steel spring style, Size - 11mm (7/16") stock dia., Rating - 4kN, Finish - Zinc plated, snap opening - 16mm. **Border Rope:** 12.7mm Nylon Polyamide Fibre, Type - 3-strand twist, Soft lay. **Hanging Twine:** Polyester Fibre, Size - Single #42 (4.75mm dia.), Type - Braided 1.87kN tensile strength. **Installation:** Lashed to border rope with single #42 polyester twine 1.2m O.C. and staggered with respect to adjacent panel (where applicable). **Compatibility:** DBI-SALA Adjust-A-Net™ is designed for use with DBI-SALA approved components or systems, or as recommended by a competent person. **Standards:** ANSI A10.11/ANSI A10.37; OSHA 1926.105/OSHA 1926.500 and EN1263.1 & 2. **Country of Origin:** United States. **Special Instructions/Conditions of Use:** Reading user instruction manual prior to use is essential.
