ALUMINIUM TRIPODS

Lightweight and Portable DBI-SALA aluminium tripods are lightweight and portable without sacrificing strength or durability, they are easily set up by one worker and can be transported from one location to another just as easily. Adjustable locking legs adjust quickly in increments for added versatility and are kept in position with locking push pins.

Ultimate Safety The heat treated cast aluminium head incorporates a built-in pulley system to route the lifeline of mechanical device directly over opening. Also equipped with drop forged steel eyebolts for use as anchorage point for secondary or back-up system, designed to allow the eyebolt to hang plumb regardless of surface configuration. Complete with quick-mount bracket for attachment of DBI-SALA

mechanical device for ease of use, additional (back-up) mechanical devices can be mounted to tripod with optional bracket/pulleys.

Tripod Accessories

For ease of use and added flexibility, DBI-SALA offers several handy accessories for tripods as outlined to the right.

8003205 Snatch Block

- Attaches to the tripod eye bolt for routing the back-up winch or SRL Cable
