

A COMPLETE PERIMETER NET BARRIER DESIGNED FOR USE ON THE OPEN FLOOR CONSTRUCTION AREAS OF HIGH RISE BUILDINGS.

- The most complete and cost-effective debris containment system.
- Contains large and small objects using a tight mesh.
- Acts as a wind barrier, catching wind blown objects when properly installed.
- Acts as visual safety barrier because of the nets bright safety orange colour.
- UV resistant and fire retardant.
- The zip clips are designed for quick detachment.
- The tie-down plates are removed by prying the nails out with a hammer.
- The nets hardware are reusable if properly removed and stored.
- Available in two different heights - 1.2m and 1.65m.
- Provides solution to all applicable industry standards.
