

SMART RETRACTABLE BELT SYSTEM

Using an in-ground sleeve and post coupling, this no base tamper-proof system is designed for improved safety. Constructed from a high quality 1.6mm thick, 304 grade stainless steel.

The post incorporates a 2.1m retractable belt mechanism, and has four-way connectivity that is compatible with most existing systems. Design includes the unique built-in impact absorbing feature, allowing the post to tilt up to 10° on impact and return to its original position.

DIMENSIONS: 950 x 63.5mm (HxDia.)

STANDARD PACKAGE: 1
