# OLYMPIK

This competition winning Dinghy sheet rope and performance control line has an innocent appearance, but with its construction of Dyneema® SK75 and easy handling high tenacity polyester fibres in a "Twistmix" format, this rope takes a lot of beating. Easily spliced with a good retained break load, OLYMPIK Dyneema® is the first choice for dinghy control lines where grip and strength is paramount. OLYMPIK is well suited to single and double handed classes as well as windsurfers and keel boats.

## Feature and Benefits

- Strong with low stretch
- Torsionally stable to resist kinking
- Easy/supple hand grip
- Excellent in jammers
- Light, buoyant hold knots well

## Typical Applications

- Dinghy control line
- Dinghy sheet

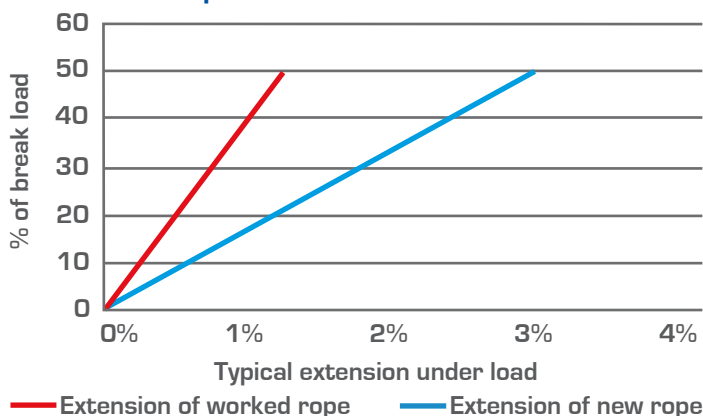

## Data Table

Diameter (mm)	Weight (kg/100)	Breaking Strain (kg)	Standard Length (m)
6	1.5	850	100/200
7	2.0	1,100	100/200
8	2.7	1,730	100/200

## Technical Information

	Core	Cover
Construction	8 Plait	PU Coating
Material	Polyester/Dyneema®	
Specific gravity	1.38/0.97	
Resistance to acid	Yes	
Resistance to alkali	Yes	
Resistance to UV	Yes	
Resistance to heat	Yes
