INSPIRING CONSCIOUS LIVING

Say No to Single-Use Plastic

Reusable shopping bags are a conscious choice as they replace, on average, one hundred disposable plastic bags for every reusable bag. It is an essential change to reduce pollution in the environment.

Be part of the solution.

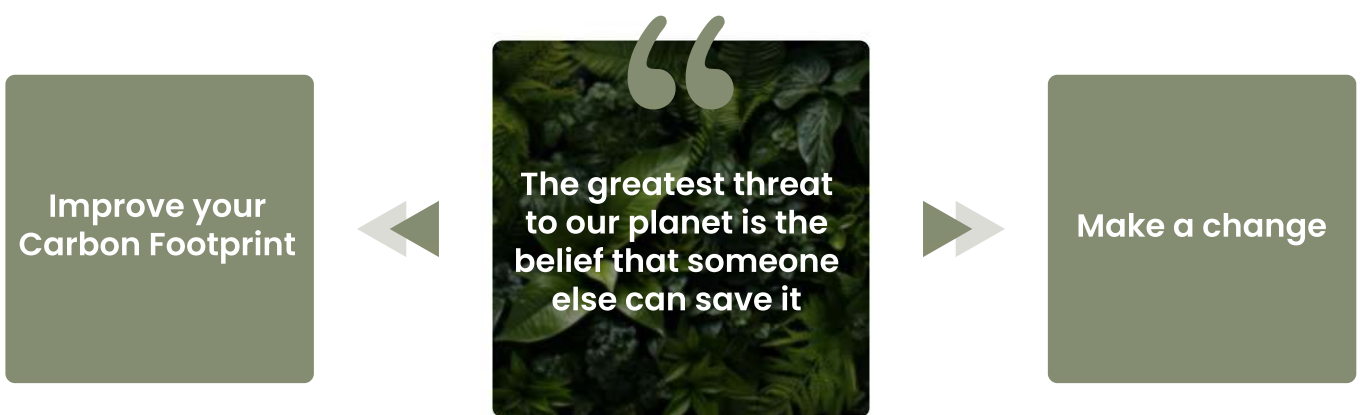

Why Choose Reusable Shopping Bags?

Green Initiative

Bags Direct has been at the forefront of the manufacturing and distribution of ecological alternatives to plastic bags. Our high-quality bags can be used over 100 times and has a much longer life cycle than plastic carrier bags.

Life Cycle of the reusable bag

Non-woven fabric is made from long fibres, bonded together by chemical, mechanical, heat or solvent treatment which are reusable. The life cycle of a non-woven bag lasts longer than the normal one-use plastic bags. This is because the materials are stronger and more durable. Once the reusable shopping bag are no longer useful they can be recycled and reproduced into fresh new bags or blankets.

Studies suggest that the cost of production and energy demands would reduce further if more customers abandoned plastic bags and invested in reusable bags.

Our Story

Bags Direct is a family-owned business that has been a leading distributor for the retail, promotional and corporate markets for over 30 years within Southern Africa, which has expanded into Europe, North America and the Middle East. In 2023, we established an office in Spain, USA and a supporting office in china.

We are known for specializing in custom-branded recyclable shopper bags, corporate gifting and promotional items. We offer wholesale for resellers in our diverse 25 categories of over 5,000 products.

Why Choose Us?

We pride ourselves in 30 years of market research, experience and product development. Bags Direct offers our customers a sustainable solution which is particularly focused on production of high-quality reusable shopping bags.

We have recently established offices in Spain, South Africa and USA. Bags Direct aims to provide every customer with the opportunity to invest in personalised reusable bags for companies and brands at a Global level.

While bringing innovation to the market we invest in the selection of recycled materials which have strong sustainable components. In addition to providing excellent customer services as offer every client with a implementation strategy with a global approach which meet every brands commercial objective.

Leading Supplier Of Reusable Shopping Bags

30 Years Experience

Our experience allows us to build trusting connections with clients and encourages us to meet thier demands.

Global Production

We have offices in Spain, South Africa and USA. We are constantly expanding and aim to achieve international coverage.

Green Initiative

We are well known for specialising in high-quality custom-branded reusable shopping bags.

Green Solutions

Our aim is to offer accountability and prevent greenwashing by encouraging brands to invest in reusable bags instead of using plastic bags.

1% For The Planet

What does 1% for the planet mean? One percent for the planet is an international organization whose members contribute one percent of thier annual revenue to environmental causes. The aim is to offer accountability and prevent greenwashing.

We have partnered with them to mitigate our carbon emissions created when producing and delivering the reusable shopper bags.

Reusable Shopper Stand

In-store reusable shopper stand

We offer stores a stand for to display and store thier reusable shopping bags. We have placed our stands in multiple stores internationally. Clients love the look and feel the stands bring into every store creating awareness and convenience.

If clients meet the minumum order quantities we will offer a free stand for thier store to display thier personalised shopping bags.

Till-Point Stands

In-store reusable shopper hooks

We can now add a line with hooks for you to hang at various till-points. This will make it easier and more convenient for customers to purchase it on thier way. The amazing designs will capture the customers attention aswell as eco-friendly shopper bags.

Our Recycling Process

rPet is a sustainable fabric made from 100% recycled plastic bottles and it is as strong as nylon and silky to the touch. It is 100% recyclable after use making it ideal for any retailer looking for a sustainable way to promote its brand. The reason only 58% of our citizens are living sustainably are because of the lack of communication regarding the need for responsible consumption. Convenience is the main issue facing sustainability.

Creative Branding Process

Our creative branding process is as simple as 7 steps. Make contact with one of our amazing sales team and have your shoppers branded now. We aim to keep all customers happy and to meet deadlines. We can do branding locally in South Africa or we can do a full print depending on your choice of design. You can choose a design from one of our catalogues or send through your logo and have a mock up made for visual references.

Personalised

Branding Guidelines for Personalised Shoppers

Personalised bags are subject to change depending on the size of the bag. Personalised shopping bags can be changed in size, colour and design or material. You are not limited to the bags within this presentation.

We mainly work with materials which are sustainable such as:

- Non-Woven
- Cotton
- Jute
- Laminated Non-Woven

We also can produce shopping bags which are made from:

- Polyester
- Nylon
- etc

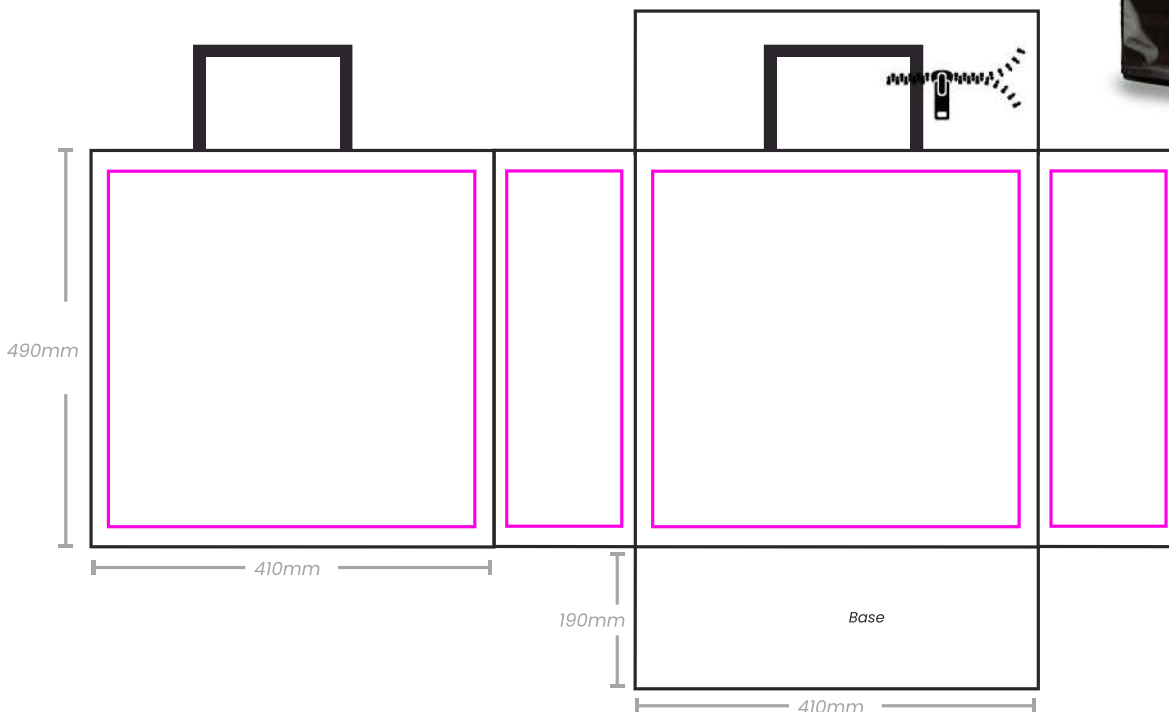

Each type of reusable shopping bag comes with its own branding guidelines. Each of the bag which has to be fully personalised in size and print has a minimum order quantity of 5000. We import reusable shopping bags and there is a wait period of at least 3 months for production (production time is subject to change).
