MEARTH

About the Mearth S

The Mearth S is designed to be a cost-efficient, durable and portable mode of transportation for commuters. Weighing only 26 lbs, this lightweight foldable electric scooter can travel for more than 32 km/h with a replaceable battery that you can swap while on the go, and a disc-brake system that ensures a safe ride on the road. Designed in Australia, Mearth S is built to traverse its cities and equipped with practical features to serve the needs of its commuters.

About Mearth Technology

Based in Sydney, Mearth Technology specializes in using innovation to reshape transportation. We aim to help people travel around more efficiently, more sustainably and more conveniently. All products are proudly designed in Australia.

13-21B Mandible Street, Alexandria 2015,
