Accuratus Left Hander - USB Professional & Programmable Keyboard with Mechanical Key Switches

About

The new Accuratus Left Handed keyboard has all the benefits of a strong mechanical keyboard with the visual elegance of a professional corporate office peripheral device. The brushed black anodized metal frame with full height angled keys provides the most serious and complete left handed keyboard option available in the market place today.

As an additional feature, the Accuratus Left Handed Multi Media keyboard can be easily programmed without any additional software, allowing for shortcuts, learning prompts and Macros. The 2 layers can be programmed and updated as the user requires using the in-built re-writable EEPROM.

Specifications

- USB 'plug and play' connection with durable braided cable
- Black case and keys (other colours made on request)
- Manufactured with a sleek modern brushed metal faceplate with bevelled edge
- High life cycle mechanical sealed contact key switches offering excellent durability and feel
- Full UK Left handed key layout with integrated multimedia functions (other language layouts available on request)
- FN key to multiplex some keys and offering a second layer of programming
- The keyboard is fully programmable off-line, meaning it is fully programmable without any software required on the computer. Macro's can be created, existing key programming can be changed and a new layer of programming can be created. User manual included.
- Full height keys, which are contoured and slope up towards the back of the keyboard offering excellent and tactile touch typing
- Clear easy read key legends
- Durable fold out feet to allow for keyboard tilt
- Status LED's (Caps, Num & Scroll Lock)
- Brown box environment friendly packaging
- EAN 13 Barcode No. 5060055462982, Commodity code : 8471606090
