Accuratus Accumed 540 - USB Mini Sealed IP68 Rugged & Industrial Sealed Keyboard with Large High Resolution Touchpad

About

The newly designed AccuMed Medical 540V2 keyboard offers new ultra slim keys whilst still offering an excellent tactile and responsive feel. The keyboard can be fully cleaned and wiped over in literally seconds and also has a handy power on/off button, enabling you to turn the keyboard off during cleaning, preventing keys sending messages to the PC. There is also a cleaning reminder which enables you to set the time span required for cleaning (30min, 1hr, 2hr or 4hr) which aids infection control as the user is prompted to clean this washable keyboard regularly. The 540 still has our NANOARMOUR-2 dual layer antibacterial protection impregnated in the silicone and coated on the surface to aid in deactivating germs/build up of bacteria & virus's.

This medical keyboard is completely washable, making it HTM 01-05 compliant and ideal for any medical application and clean room environment. For complete ease and comfort the keyboard comes with an angled and contoured base to assist when using on the desk or on your lap/hands. The range are specifically designed for environments which have to meet very high hygienic requirements such as hospitals, dental practices, cosmetic surgeries, doctors, vets, laboratories and in food & pharmaceutical production areas. Not only could these keyboards be used in hygienic areas, they would also be perfect in dusty, dirty and wet situations like workshops, boats and in vehicles.
