# Palmetto Boon™ Table

## Assembly Instructions

1. Lay table top face-down on level surface. Attach 4 legs by inserting (4) 2 3/4" bolts through pre-drilled holes in table top into pre-drilled holes in the top of legs. Add washers and nuts (**see figure 1**).

**Hand tighten.**

**Pro Tip:** Make sure lines marked for middle shelf on all four legs are facing in before moving to step 2.

2. Turn table onto its side. Attach middle shelf by inserting (4) 2 3/4" bolts through pre-drilled holes in middle of legs into pre-drilled holes in middle shelf. Add washers and nuts (**see figure 2**). **Hand tighten.**

3. Add (4) Square-head screws in pre-drilled holes securing top of table to top of legs (**see figure 3**).

4. Attach triangle shelf supports (2) to front of backboard using pre-drilled holes and (4) square-head screws (**see figure 4**).

5. Attach small shelf to triangle shelf support using (4) square-head screws through the pre-drilled holes in the top of the shelf (**see figure 5**).

6. Next insert final squarehead screw into pre-drilled hole found on opposite side of backboard attaching backboard to top shelf.

**Pro Tip:** Decide now how you would like to assemble your Palmetto Boon Table.

7. Attach backboard to table by inserting (2) 2 3/4" bolts through pre-drilled holes in backboard into pre-drilled holes in table. Add washers and nuts. **Hand tighten.**

**Potting Bench:** 6a. Attach backboard upright (**see figure 6a**)

**Serving Table:** 6b. Attach backboard upside down (**see figure 6b**).

8. **Wrench tighten all nuts and bolts.**

### Best Tools Needed For Assembly:

• Drill • Socket • Hammer

### Hardware Included:

- (10) 2 3/4" bolts
- (10) Washers
- (10) 7/16" Nuts
- (13) Square-head screws
- Square-head drill bit

### Important Note:

Your furniture has been kiln-dried and ready to stain, paint or water seal to help preserve it and keep it looking nice longer. **(You may need to tighten all bolts and nuts periodically due to the natural expanding/contracting of wood.)** Please note, exposure of all woods to outdoor elements can cause fading, warping, cracking, shrinking or expansion. The manufacturer and distributor of this product cannot be held responsible for damage or changes caused by natural weathering.
