Display advertisers will receive a copy of the magazine that their ad appears in upon publication.

No Blind Ads. Information must include name, city & state/province. E-mail address only does not suffice. Applies to all standard & commercial advertisers.

Repeat Copy: In the case of a contract advertiser, we would prefer to hear from you in accordance with the ad deadlines for each issue. We do, however, reserve the right to repeat the previous ad if no new copy is submitted, or extend the contract, whichever appears most sensible in our judgement.

Terms & Conditions: Payment must accompany orders for first time advertisers. This includes individuals who have not advertised in the past four publications. All other accounts become due and payable upon publication. Interest charges of 1.5% monthly will apply on unpaid accounts ninety days after publication and continue to accrue until paid in full.

SUBMITTING PRINT-READY ADS

Ads must be to our EXACT specifications. Please let us know the ad size and whether the ad is intended to be color or black/white.

- Print Ready Ads may be submitted via e-mail, Dropbox or most other file transfer software solutions.
- Our preferred accepted file format is high resolution pdf, tiff or jpg files.
- Files must be CMYK or grayscale, 300 dpi.
- Ads will run as they are provided, however DHJ may alter the dimensions of ads not fitting our specs/templates.
- Alternate file formats accepted for Mac users - Adobe InDesign, Adobe Photoshop & Adobe Illustrator. (All fonts & graphics/links must be packaged with file if submitting this way)
- We can not use Microsoft Publisher, Paint or Power Point files. Such layouts are incompatible with our system and need to be reset.
- Always follow up with a phone call to be sure that we received your files and that they are usable/correct.

BEST OUTCOMES

When submitting ad materials to your designer, make sure all photos, logos and clip art are of the best quality & highest resolution.

For best results, use high resolution jpgs, 300 dpi or higher. Do NOT reduce/scale images when sending to your designer. Do NOT pull images or logos off of websites, social media or any Internet sources. On-screen, web resolution is not sufficient.

- Stills taken from a video are NOT recommended for use in ads, as they are notoriously poor quality.
- Cell phone photos are not something we like to receive, though the image quality is improving with each generation of new phones.
- Ensure photographers' permission has been acquired for the use of the photo and they are credited on the photo or in the ad.
