At Pederson's Farms, our story begins with a simple yet powerful belief: that food has the power to bring people together, nourish our bodies, and nurture our souls. For over three decades, we have been on a mission to revolutionize the pork industry by holding ourselves to the highest standards of transparency, sustainability, quality, safety, and animal welfare.

In the heart of the countryside, you'll find the foundation of our vertically integrated business model: our farmers. They share our unwavering commitment to ethical and sustainable farming practices, tending to their animals with care, respect, and compassion. This dedication to our animals extends throughout our vertically integrated supply chain, ensuring that every step of the process aligns with our core values.

From smoking our meats over real wood chips to only using simple, recognizable, and pronounceable ingredients, our commitment to transparency means we tend to do things the hard way. But, we believe it's the right way.

We
DON'T
Cut Corners.

As a trusted partner to B2B retail meat buyers and food service providers, we understand the importance of delivering high-quality, consistent products that cater to discerning customers. That's why we work tirelessly to ensure that every cut of meat that leaves our farms meets our rigorous quality standards. We know that when we put our name on a product, it's a promise we're making to our partners and, in turn, to their customers.

Our commitment to sustainability is ingrained in every aspect of our operations. From minimizing waste to conserving natural resources and investing in eco-friendly practices, we strive to leave our world better than we found it. Our ongoing efforts to improve animal welfare and support the communities we work and live in are a testament to our dedication to responsible business practices.

At the core of Pederson's Farms lies our connection to the land, the animals, and the people we serve. Our story is one of resilience, determination, and an unwavering belief that the best-tasting, most nutritious pork comes from a place of honesty, integrity, and respect for the world we share.

As we continue our journey, we invite you to join us in our mission to make a difference in the lives of our customers, our animals, and our planet - Making the Best, Better. Together, we can create a future where good food fuels healthy lives, and where the values of transparency, sustainability, and animal welfare are embraced by all.

We are Pederson's Farms – where passion meets purpose, and where every plate tells a story of commitment, quality, and care.

Making the best. Better.
