HEAVEN

THE NEW HORIZONTAL WASH UNIT

HISTORY

11 years after the production of the first device for Shirodara treatments, Maletti presents the **new HEAVEN wash unit**, born from an in-depth analysis of the techniques that characterize this **treatment**, combined with the most modern medical-anatomical studies.

HEAVEN

THE ADVANTAGES OF THE HORIZONTAL WASH UNIT

“The supine position is undoubtedly the best for resting, although the use of a mattress of the best material on the market is not enough! To ensure **complete muscle relaxation**, the spinal column must remain in a natural position. For example, when treating patients with postural problems, in order to respect the curvature arcs of the back, a specific pillow must necessarily be used, for the **alignment** of the C1/C7/T11 **vertebrae**. Not using pillows or, on the contrary, using improperly positioned pillows can in the long run cause chronic postural problems. Another overlooked fact is that resting in a **correct supine position** also relaxes the muscles of the rib cage, which **promotes the flow of oxygen**.”

Doct. Anna Bassi | AUSL - Reggio Emilia (RE) Italy

During the design process, Maletti focused on ensuring convenience and comfort for both operator and customer.

To facilitate rise and positioning of the customer, we opted for a single-pole bearing frame and a double-jointed leg, thus ensuring an extremely comfortable seating position.

The client is correctly positioned for treatment thanks to a set of mechanisms. The adjustable height allows the operator to work either seated or standing.

The adjustable neckrest and the latex seat mattress have been developed with specialists and promote total muscle relaxation of the client, ensuring perfect alignment of the vertebrae.

- Load-bearing **frame**
- **Ergonomic** horizontal position
- Muscle **relaxation**

- Working **height adjustment**
- **Comfort** of use both for operator and customer

- **Comfortable** rise phase
- **Single-pole** bearing frame
- **Double-joint** leg

- Advanced latex seat with **air massage**
- Work position: **seated or standing**
- Vertebrae **alignment**

STAGES OF TREATMENT

Constant flow of water

Maletti has **designed a waterfall device**, an **arc-shaped dispenser** that releases a **constant flow of warm water** onto the forehead, stimulating the Third Eye, one of the Chakras, according to the **principles of Shirodara**. The arc is adjustable to ensure precise positioning and complete comfort for the client.

Steam bath

The initial phase of the treatment was perfected by integrating a **waterfall** into a **dedicated IGLOO**, thus offering the customer a **steam bath** enriched with aromas, generated by the **VAPOMIST system**.

COMPATIBLE WITH WASH UNIT

ALU WASH, LORD NELSON, EDEN, HEAVEN
EQUIPPED WITH VAPOMIST SYSTEM

NEW PATENTED NECKREST

The **new patented adjustable NECKREST** insures the conditions for correct **supine posture**.
