

CIRO 1/4-20 UNIVERSAL BALL MOUNT

Parts Included:

- 1 **Ball Post**
- 1 **1/4-20 Serrated Flange Nut**
- 1 **1/4-20 x 1" Stud**
- 1 **1/4-20 x 2" Stud**
- 1 **Finishing Washer**

Installation Instructions:

1. Park on a level surface and shut off the bike.

Ensure that the engine has had time to cool before installation.

2. Assemble the ball post, 1/4-20 stud, and finishing washer by screwing the stud into the ball post and tightening with an 1/8" and 3/16" allen. Determine the length of stud to use based on your mounting location. This part will mount anywhere there is a 1/4-20 bolt or hole.

3. Install in your selected location using an 1/8" allen. Examples are shown below.

***If you have purchased any Giro accessories to go with your ball mount, please refer to those instructions to complete your installation.**

WARNING:

This indication alerts you to the fact that ignoring the contents described herein can result in potential serious injury or death if not followed.

CAUTION:

This indication alerts you to the fact that ignoring the contents described herein can or will result in material damage and/or personal injury.

ATTENTION:

This indication alerts you to the fact if you ignore this detail you will affect the performance or functionality of the product.

All Giro products are designed for "easy assembly" and/or "plug and play". We recommend a competent mechanic install our products, using standard mechanical procedures to assure a safe and successful installation.

NOTE:

Giro products are designed and manufactured under very strict quality control. Giro products are warranted to be free of defects in material and workmanship for 1 (one) year from date of purchase by the consumer.

Giro will have no obligation if the customer cannot show proof of purchase.

Warranty will not be granted unless the part is properly installed and maintained.

Giro will not be liable for any consequential and incidental damages, including labor, or non-Giro products.

Please visit our website Ciro3d.com for our complete warranty policy.

CIRO CAMERA/GPS MOUNT

Parts Included:

Camera Kit 50124:

- 1 Camera Plate**
- 1 Ball Mount Adapter**
- 1 Locking Collet Nut**
- 1 M5x.8 Locknut**
- 1 M5x.8 x 20mm Bolt**
- 1 Camera Stud**
- 1 Camera Stud Retaining Ring**

GoPro Kit 50123:

- 1 Adapter for GoPro camera**
- 1 Locking Collet Nut**
- 1 M5x.8 Locknut**
- 1 M5x.8 x 20mm Bolt**

Installation Instructions:

- 1. Place the M5 locknut into the recessed area of the ball mount adapter.**

- 2. Holding the nut in place, slide the fingers of the camera/gps mounting plate or GoPro into those of the ball mount adapter. Use the M5 locknut and bolt to secure these.**

- 3. If you will be using a camera, put the camera stud up through the camera plate and secure it with the retaining ring using a needle-nose pliers.**

- 4. Slide the collet nut over any Giro ball mount and snap the camera adapter on. Thread the nut over the plastic and snug it up so that your camera/GPS is secure.**
